

# SCS (SOLAR CHARGING SIGHT) FOR GLOCK® MOS® SYSTEM - HOLOSUN SCS-M-RD RED MULTI-RETICLE SYSTEM REFLEX SIGHT

[Optics & Mounting](#) > [Electronic Sights](#) > [Red Dot Sights](#)

The Holosun Solar Charging Sight (SCS-MOS) is a direct attachment optic for the Glock® MOS® systems offering Holosun's lowest profile pistol optic for use with standard-height iron sights. This unit fits on the pistol with no adapter plate needed. The SCS reimagines Holosun's Solar Failsafe™ system as a primary power source. The internal, rechargeable battery utilizes integrated solar cells and automatic brightness adjustment to make sure your battery will last as long as its shelf life. Given occasional bright light, the SCS will recharge itself. Additionally, our Multi-Reticle System™ (MRS) displays a 32MOA Circle or a 2MOA dot or both.

# Safety Instruction Guide for Holosun SCS (Solar Charging Sight) for Glock® MOS® System

## Introduction

Thank you for choosing the Holosun Solar Charging Sight (SCSMOS). This guide provides important safety instructions and information to ensure the safe and effective use of your new reflex sight. Please read this document carefully before using the product.

## General Safety Guidelines

- Ensure safe use of the Holosun SCS by following these guidelines:
  - Always handle the sight with care to avoid damage.
  - Keep the sight out of reach of children and pets.
  - Do not expose the sight to extreme temperatures or humidity.
  - Regularly inspect the sight for any signs of wear or damage.
  - If the sight becomes damaged or malfunctions, discontinue use immediately.

## Specific Safety Precautions for Use

- To ensure safe operation of the Holosun SCS, follow these precautions:
  - Do not look directly at the sun through the sight, as this can cause eye damage.
  - Ensure that the sight is securely mounted to the pistol before use.
  - Avoid using the sight in conditions where visibility is severely limited.
  - Do not attempt to disassemble or modify the sight, as this may void the warranty and pose safety risks.
  - Use only the recommended power supply (ML1220) for optimal performance.
  - Be mindful of the multireticle system and ensure you are familiar with its settings before use.

## Instructions for Installation and Usage

- Follow these steps for proper installation and usage of the Holosun SCS:
  1. **Installation:**
    - Ensure the Glock® MOS® system is clean and free of debris.
    - Align the Holosun SCS with the mounting plate on the pistol.
    - Securely fasten the sight to the pistol using the provided screws.
    - Check that the sight is firmly attached and does not wobble.
  2. **Usage:**
    - Turn on the sight by pressing the designated power button.
    - Select your preferred reticle mode (32MOA Circle, 2MOA dot, or both) using the adjustment controls.
    - Adjust the brightness settings according to the ambient lighting conditions.
    - Regularly check the battery status and recharge as needed using the solar charging feature.
    - Practice at a safe shooting range to become familiar with the sight's performance.

## Disposal Instructions

- Proper disposal of the Holosun SCS is essential to minimize environmental impact:
  - Do not dispose of the sight in regular household waste.
  - Follow local regulations for the disposal of electronic devices.
  - Remove the battery (ML1220) before disposal and recycle it according to local guidelines.
  - If in doubt, contact your local waste disposal authority for advice on proper disposal methods.

## **Contact Information for Further Support**

- For inquiries related to safety or product support, please refer to the contact information provided by the manufacturer or retailer where you purchased the Holosun SCS.

## **Conclusion**

By following these safety instructions, you can ensure a safe and enjoyable experience with your Holosun Solar Charging Sight. For your safety and the safety of others, always prioritize responsible usage and maintenance of your product. Thank you for your attention to these important guidelines.
