

# MICRO FIGHT CHASSIS - SPIRITUS SYSTEMS MICRO FIGHT CHASSIS MK5 - BLACK

[Shooting Accessories](#) > [Tactical Gear](#) > [Chest Rigs](#)

The Micro Fight Chassis MkV is a small and lightweight chassis that can be used as either a standalone magazine placard on a plate carrier, or the central hub for a chest rig when other Spiritus Systems components are used. The MkV is a single cell placard-style chassis that is built with all-new materials and manufacturing processes. The design features MOLLE on the front and sides to accommodate additional magazine pouches. Tourniquets and other equipment can also be stowed outboard with our universal retention kit, and a row of anchor points along the top opening will interface with our magazine bungee retention kit to secure any caliber of weapon. The main cell of the MkV Chassis is lined with loop Velcro on both sides and will accommodate all of Spiritus Systems' magazine inserts. Versatile and Scalable The Micro Fight Chest Rig MkV will interface with the whole line of Spiritus Systems chest rig and plate carrier components. The footprint of the MkV is identical to the Mk4 and will seamlessly connect with Expander Wings, LV/119 plate bags, and the Thing 1 and Thing 2. The MkV is extremely capable as a low-bulk solution for environments where space and weight command a premium. However, the product's modularity and compatibility with all Spiritus Accessories allow the micro fight to scale from a minimalistic magazine carrier to a full-fledged plate carrier system, or various sustainment and comms-focused chest rigs. The CCS Pouch The MkV can be combined with its companion product, the CCS Pouch. The CCS pouch is a full-featured GP Pouch that vastly improves upon the legacy front cell's functionality, and storage capacity. For those that do not need a GP Pouch solution, the MkV's MOLLE front will accept any 3rd party magazine holders or other pouches

## Attributes

- Name: [SPIRITUS SYSTEMS MICRO FIGHT CHASSIS MK5 - BLACK](#)
- Manufacturer: [SPIRITUS SYSTEMS](#)

# Safety Instruction Guide for MICRO FIGHT CHASSIS MK5 BLACK

## Introduction

Thank you for choosing the Micro Fight Chassis MkV by Spiritus Systems. This guide provides important safety information and instructions to ensure the safe and effective use of your product. Please read this guide carefully before use.

## General Safety Guidelines

- **Product Safety:** This product is designed to ensure safe use in various environments. Always follow the instructions to minimize risks.
- **Enhanced Recalls:** In the unlikely event of a product recall, you will be notified through standardized notices. Ensure you check for updates regularly.
- **Online Shopping:** When purchasing online, ensure that the platform complies with safety regulations similar to physical stores.
- **Special Consumer Focus:** This product is not intended for use by children. Ensure that it is stored out of reach of minors.
- **EU Contact Point:** For any safety inquiries, please refer to the appropriate EU contact point provided by your retailer.
- **Rapid Alerts:** Stay informed about product safety by checking the EU Safety Gate platform for updates on unsafe products.

## Specific Safety Precautions for Use

- **Avoid Overloading:** Do not exceed the recommended load capacity of the chassis. Overloading may compromise safety and functionality.
- **Inspect Before Use:** Always inspect the chassis for any signs of wear, damage, or defects before use. Do not use if damaged.
- **Secure Attachments:** Ensure all attachments, such as magazine pouches and equipment, are securely fastened before use.
- **Proper Fit:** Make sure the chassis fits your body and plate carrier properly to prevent shifting during use.
- **Environmental Conditions:** Avoid using the chassis in extreme weather conditions that may affect its materials and performance.
- **Follow Local Laws:** Ensure compliance with local laws and regulations regarding the use of tactical gear and accessories.

## Instructions for Installation and Usage

### 1. Installation:

- Attach the Micro Fight Chassis MkV to your plate carrier using the MOLLE system.
- Ensure that the chassis is securely fastened to prevent movement during use.
- If using with additional Spiritus Systems components, follow the specific instructions for those components.

### 2. Usage:

- Load magazines and equipment into the chassis according to your operational needs.
- Utilize the loop Velcro lining to secure Spiritus Systems' magazine inserts.
- Use the universal retention kit to stow additional equipment such as tourniquets securely.
- Adjust the chassis as needed to ensure comfort and stability during use.

## Disposal Instructions

- **Environmental Responsibility:** When disposing of the Micro Fight Chassis MkV, follow local regulations for the disposal of textile and plastic materials.
- **Recycling:** If possible, recycle components of the chassis to minimize environmental impact.

## Contact Information for Further Support

For any questions or concerns regarding the Micro Fight Chassis MkV, please refer to the retailer from whom you purchased the product for contact information and support.

Thank you for your attention to these safety instructions. Your safety and satisfaction are our top priorities.
