

MICRO FIGHT CHASSIS - SPIRITUS SYSTEMS MICRO FIGHT CHASSIS MK5 - MULTICAM BLACK

[Shooting Accessories](#) > [Tactical Gear](#) > [Chest Rigs](#)

The Micro Fight Chassis MkV is a small and lightweight chassis that can be used as either a standalone magazine placard on a plate carrier, or the central hub for a chest rig when other Spiritus Systems components are used. The MkV is a single cell placard-style chassis that is built with all-new materials and manufacturing processes. The design features MOLLE on the front and sides to accommodate additional magazine pouches. Tourniquets and other equipment can also be stowed outboard with our universal retention kit, and a row of anchor points along the top opening will interface with our magazine bungee retention kit to secure any caliber of weapon. The main cell of the MkV Chassis is lined with loop Velcro on both sides and will accommodate all of Spiritus Systems' magazine inserts. Versatile and Scalable The Micro Fight Chest Rig MkV will interface with the whole line of Spiritus Systems chest rig and plate carrier components. The footprint of the MkV is identical to the Mk4 and will seamlessly connect with Expander Wings, LV/119 plate bags, and the Thing 1 and Thing 2. The MkV is extremely capable as a low-bulk solution for environments where space and weight command a premium. However, the product's modularity and compatibility with all Spiritus Accessories allow the micro fight to scale from a minimalistic magazine carrier to a full-fledged plate carrier system, or various sustainment and comms-focused chest rigs. The CCS Pouch The MkV can be combined with its companion product, the CCS Pouch. The CCS pouch is a full-featured GP Pouch that vastly improves upon the legacy front cell's functionality, and storage capacity. For those that do not need a GP Pouch solution, the MkV's MOLLE front will accept any 3rd party magazine holders or other pouches

Attributes

- Name: [SPIRITUS SYSTEMS MICRO FIGHT CHASSIS MK5 - MULTICAM BLACK](#)
- Manufacturer: [SPIRITUS SYSTEMS](#)

Safety Instruction Guide for MICRO FIGHT CHASSIS MK5 MULTICAM BLACK

Introduction

Thank you for choosing the Micro Fight Chassis MkV by Spiritus Systems. This guide provides essential safety information and usage instructions to ensure your safety and the optimal performance of the product. Please read this guide carefully before use.

General Safety Guidelines

- Ensure safe use of the Micro Fight Chassis MkV by following all instructions provided in this guide.
- Be aware of potential hazards associated with the use of tactical gear, including but not limited to:
 - Improper attachment to plate carriers or chest rigs.
 - Inadequate securing of equipment which may lead to accidental release.
- Regularly inspect the chassis for wear and damage before each use.
- Keep the product out of reach of children and vulnerable individuals who may not understand its intended use or risks.

Specific Safety Precautions for Use

- Always ensure that the chassis is securely attached to your plate carrier or chest rig before use.
- Do not overload the chassis with excessive equipment or magazines beyond its intended capacity.
- When using additional pouches or accessories, ensure they are compatible with the chassis and securely attached.
- Avoid using the chassis in extreme conditions that may compromise its integrity, such as exposure to harsh chemicals or extreme temperatures.
- If you notice any signs of damage or wear, discontinue use immediately and replace the product.

Instructions for Installation and Usage

1. Installation on Plate Carrier or Chest Rig:

- Align the Micro Fight Chassis MkV with the MOLLE webbing on your plate carrier or chest rig.
- Secure the chassis by weaving the MOLLE straps through the webbing, ensuring a tight fit.
- Check that the chassis is stable and does not shift when pulled.

2. Loading Magazines and Equipment:

- Insert magazines into the main cell of the MkV chassis, ensuring they are seated properly.
- Use the universal retention kit to stow tourniquets or other equipment securely outboard.
- For additional storage, attach compatible pouches to the MOLLE webbing on the front and sides.

3. Adjusting Retention:

- Utilize the anchor points along the top opening to attach the magazine bungee retention kit as needed for your specific equipment.
- Adjust the tension of the bungee to ensure a secure fit for your magazines.

Disposal Instructions

- Dispose of the Micro Fight Chassis MkV in accordance with local regulations for textile and plastic waste.
- If the product is damaged beyond repair, consider recycling components where possible to minimize

environmental impact.

Contact Information for Further Support

For any inquiries or concerns regarding the Micro Fight Chassis MkV, please refer to the manufacturer's contact information provided on the packaging or product label.

Conclusion

By adhering to these safety guidelines and instructions, you can maximize the functionality and safety of your Micro Fight Chassis MkV. Always prioritize safety and ensure that you are using the product as intended. Thank you for your attention and for choosing Spiritus Systems.
