This reduced profile design includes horizontal webbing and elastic mounting points for hanging Push-To-Talks or weaving cables and water carrier tubes. A Velcro loop patch on the back completes the Straps for placement of name tapes or IR Markers. The FAT STRAP is a single strap. You do NOT need to order two to complete your Micro Fight Chest Rig. You only need to order ONE. NOTE: The FAT STRAP is part of the Micro Fight Chest Rig System. This item does not include the chassis, back strap, magazine inserts, or any other accessories. Some images are shown with optional accessories, sold separately.
