

# OTB SACK POUCH MK2 MULTICAM

[Home](#)

OTB SACK Pouch Over The Beach Operations are some of the most challenging and miserable operations that service members must endure. Spiritus Systems is proud to bring a suite of products that directly result in improved load carriage and soldier survival during sea-borne operations. The OTB product line is built with a mesh material, which allows for quick drainage of water and sea-borne debris such as sand. OTB products will dry faster after exiting the water and will drain water more efficiently as well. The mesh also makes the products simple to clean using fresh water after conducting operations in salt environments. The Sub Abdominal Carrying Kit or "SACK" is the most versatile tactical "fanny pack" on the market. It was designed to make critical equipment easy to access from both sides or when in a confined space like a vehicle. The pouch features a half zip design, which means that your equipment will not easily fall out of the pouch even if the zipper is left unsecured. The OTB Sack Pouch features a mesh segment at the bottom, which assists with drainage. The front of the pouch features a small zippered stash pocket that is constructed using a durable material, perfect for easy access to small items. The bottom of the pouch features two elastic loops that can be adjusted to hold a tourniquet or other equipment that you may need to rapidly deploy. If bottom carry doesn't fit your mission needs, you can easily remove and reinstall the loops as necessary. The inside features soft hook & loop on both sides, making the pouch very dynamic and allowing you to use our Velcro Insert Suite to fit your requirements. It also features two slide-locks that make it easy to adjust the tension of the elastic loops hanging below, as well as two tie-down loops for securing sensitive equipment. The two grommet holes on the bottom aid with drainage if submersion occurs. The SACK is designed to fit onto the bottom of Spiritus' Micro Fight Chest Rig, or any other plate carrier or rig that accommodates standard hook and loop, making it a versatile choice for those who frequently change load-outs. Simply pull it off one kit and add it to another. Some images shown with optional accessories, sold separately. Hook & loop attachment measures 7"x 4". NOTE: This is a component of a Spiritus Systems OTB (Over The Beach) LV/119 Plate Carrier build. To build the complete plate carrier that this pouch is compatible with, you will need to select at least one of each of these items: Spiritus Systems OTB Front Plate Bag Spiritus Systems OTB Rear Plate Bag Spiritus Systems OTB Tri Fold Shoulder Covers Spiritus Systems Cummerbund Set

## Attributes

- Name: [OTB SACK POUCH MK2 MULTICAM](#)

# Safety Instruction Guide for OTB SACK Pouch MK2 Multicam

## Introduction

Thank you for choosing the OTB SACK Pouch MK2 Multicam from Spiritus Systems. This product is designed for use in demanding environments, particularly during Over The Beach operations. To ensure safe and effective use of your pouch, please read this safety instruction guide carefully. It contains important information regarding safety, installation, usage, and disposal.

## General Safety Guidelines

- **Product Safety:** Ensure the safe use of the OTB SACK Pouch by following all instructions provided in this guide. This product is designed for nonfood use only.
- **Enhanced Recalls:** Be aware that if any safety issues arise, standardized recall notices will be issued. You may be entitled to free remedies for dangerous products.
- **Online Shopping:** If purchased online, ensure that the retailer complies with safety requirements similar to those of physical stores.
- **Special Consumer Focus:** Extra care should be taken when using this product around vulnerable groups, such as children. Keep the pouch out of reach of children when not in use.
- **EU Contact Point:** For safety inquiries, please refer to the contact information provided by the retailer or manufacturer.
- **Rapid Alerts:** Stay informed about any safety updates or alerts regarding this product through the EU's Safety Gate platform.

## Specific Safety Precautions for Use

- **Avoid Overloading:** Do not exceed the recommended carrying capacity of the pouch. Overloading may compromise its structural integrity and performance.
- **Inspect Regularly:** Before each use, inspect the pouch for any signs of wear, damage, or defects. Do not use if any issues are found.
- **Secure Zippers:** Ensure that all zippers are fully closed before submerging the pouch in water to prevent water or debris from entering.
- **Use in Suitable Conditions:** The OTB SACK Pouch is designed for seaborne operations. Avoid using it in conditions for which it was not intended.
- **Proper Cleaning:** Clean the pouch with fresh water after use in saltwater environments to prevent material degradation.
- **Avoid Sharp Objects:** Do not store sharp objects inside the pouch that could puncture or damage the material.

## Instructions for Installation and Usage

### 1. Attachment to Gear:

- The OTB SACK Pouch is designed to fit onto the bottom of Spiritus' Micro Fight Chest Rig or other compatible plate carriers.
- Align the hook and loop attachment of the pouch with the corresponding area on the carrier.
- Press firmly to secure the pouch in place.

### 2. Adjusting Elastic Loops:

- The pouch features two elastic loops at the bottom for holding a tourniquet or other equipment.
- Adjust the loops as necessary for a secure fit.

- If bottom carry does not suit your mission needs, remove and reinstall the loops as needed.

### **3. Using the Zippered Stash Pocket:**

- Access the small zippered stash pocket located at the front of the pouch for easy retrieval of small items.
- Ensure the pocket is closed securely after use to prevent items from falling out.

### **4. Utilizing Hook & Loop Features:**

- The interior of the pouch features soft hook & loop on both sides.
- Use the Velcro Insert Suite to customize the interior based on your specific requirements.

### **5. Drainage Features:**

- The mesh segment at the bottom of the pouch assists with drainage.
- In case of submersion, the two grommet holes on the bottom will aid in water drainage.

## **Disposal Instructions**

- **Environmental Considerations:** Dispose of the OTB SACK Pouch in accordance with local regulations regarding textile waste.
- **Recycling:** If possible, recycle the pouch or its components to minimize environmental impact.
- **Do Not Dispose in Household Waste:** Avoid throwing the pouch in regular household waste. Follow local guidelines for proper disposal.

## **Contact Information for Further Support**

For any questions or concerns regarding the OTB SACK Pouch MK2 Multicam, please refer to the contact information provided by the retailer or manufacturer. They will assist you with any safety inquiries or productrelated issues.

Thank you for your attention to these safety guidelines. Stay safe and enjoy your OTB SACK Pouch!
