[Shooting Accessories](#) > [Duty Gear](#) > [Pouches](#)

The "Fanny SACK" bridges the gap between our popular Sub Abdominal Carry Kit and every day carry. Wear it for a full mission profile, or stash your carry gun in it while you're out on the long board. It was designed to make critical equipment easy to access from both sides or when in a confined space like a vehicle. The Fanny SACK can also be worn on the lower back and out of the way but quickly slid around the waist when needed. The pouch features a "half zip" design, which means that your equipment will not easily fall out of the pouch even if the zipper is left unsecured. The front of the pouch features a small zippered stash pocket that is perfect for easy access to small items. The bottom of the pouch features two elastic loops that can be adjusted to hold a tourniquet or other equipment that you may need to rapidly deploy. If bottom carry doesn't fit your mission needs, you can easily remove and reinstall the loops as necessary. Each side has a webbing loop for attaching equipment such as gloves, carabiners or chem lights. The inside features soft loop Velcro on both sides. This makes the pouch very dynamic, giving you the ability to use our Velcro Insert Suite to fit your requirements. It also features two slide-locks that make it easy to adjust the tension of the elastic loops hanging below, as well as two internal tie-down loops for securing sensitive equipment. The two grommet holes on the bottom aid with drainage of the pouch, if submersion occurs. The Fanny SACK is designed to be worn around your waist. # Fanny Sack Pouch MK3 Safety Instruction Guide

## Introduction

Thank you for choosing the Fanny Sack Pouch MK3 from Spiritus Systems. This guide provides essential safety instructions and guidelines to ensure the safe use of your pouch. Please read this document carefully before using the product.

## General Safety Guidelines

- Ensure that the Fanny Sack Pouch MK3 is used only for its intended purpose.
- Regularly inspect the pouch for any signs of wear or damage before each use.
- Keep the pouch away from sharp objects and extreme heat sources to avoid damage.
- Store the pouch in a cool, dry place when not in use.
- Be aware of your surroundings and avoid using the pouch in situations where it may become entangled or caught.

## Specific Safety Precautions for Use

- When wearing the pouch, ensure it is securely fastened around your waist to prevent it from slipping or falling.
- Avoid overloading the pouch with heavy items, as this may affect its stability and comfort.
- When accessing items from the pouch, do so in a safe environment to avoid distractions.
- If using the elastic loops for securing equipment, ensure they are properly adjusted to prevent accidental release.
- Do not use the pouch for carrying hazardous materials or substances.

## Instructions for Installation and Usage

### 1. Wearing the Pouch:

- Slide the pouch around your waist, positioning it comfortably on your lower back or hip.
- Adjust the straps to ensure a snug fit without being overly tight.

### 2. Accessing Items:

- Use the "half zip" design to open the pouch. Ensure that the zipper is only partially opened to prevent items from falling out.
- For small items, utilize the zippered stash pocket located on the front of the pouch for quick access.

### 3. Using the Elastic Loops:

- To secure a tourniquet or other equipment, adjust the elastic loops to fit the item snugly.
- If bottom carry is not suitable, you may remove and reinstall the loops as needed.

### 4. Adjusting Tension:

- Use the slidelocks to adjust the tension of the elastic loops hanging below the pouch, ensuring they are secure.

### 5. Drainage:

- In the event of submersion, the two grommet holes at the bottom of the pouch will aid in drainage.

## **Disposal Instructions**

- Dispose of the Fanny Sack Pouch MK3 in accordance with local regulations.
- If the pouch is damaged beyond repair, consider recycling materials where possible.
- Do not dispose of the pouch in regular household waste if it contains hazardous materials.
