

# LUNCHBOX POUCH MK2 - RANGER GREEN

[Home](#)

Lunchbox Pouch Mk2 The Spiritus Systems Lunchbox pouch is a versatile breaching pouch that is mounted to the bottom of the front bag of a Spiritus Systems LV/119 Plate Carrier. It was created with exclusive input from the Direct Action Resource Center (DARC), located in Arkansas. DARC is a premiere tactics and training center with the leading breaching program in the country. Their instructors have ages of practical real world experience in explosive breaching, both the military and law enforcement realms. Spiritus Systems worked closely with DARC and applied this first hand knowledge to create a product specifically for the explosive breaching community. The Lunchbox mates well with the DARC breaching curriculum and theory and is available for use in DARC breaching courses. Larger than its little brother the SACK Pouch, The Lunchbox was designed to carry large and bulky items with ease. For breachers the pouch is incredibly versatile, allowing the breacher to carry an array of charges onto the objective in a clean and easy to reach package. It also consolidates charges inside of your explosive safely, so that they can be accessed at a moment's notice and mounted quickly to your plate carrier. The Lunchbox can accommodate multiple Roll-Ups, two 8"x 8" Pucks or even a firehose charge. The back side of the pouch features 5 rows of elastic loops. These loops can be used to secure multiple Interior Door Charges for easy access. The pouch features 2 elastic shock cord loops and toggles that allow the pouch to be rolled up and stored in a low profile when not in use. This makes it a great pouch for assaulters who may need to conduct Tactical Site Exploitations or carry extra breaching equipment for the breaching cell. The pouch features a half zip design, which means that your equipment will not easily fall out of the pouch even if the zipper is left unsecured. The front of the pouch features a zippered stash pocket for stashing and organizing smaller items like det cord remnants or firing device plungers. The inside features soft loop Velcro on both sides. This makes the Lunchbox very dynamic, giving you the ability to use our Velcro Insert Suite to organize mission essential equipment. It also features two slide-locks that make it easy to adjust the tension of the elastic loops hanging below, as well as two tie-down loops for securing sensitive equipment. The two grommet holes on the bottom aid with drainage of the pouch, if submersion occurs. The Lunchbox is designed to fit onto the bottom of our Micro Fight Chest Rig or plate carrier or rig that accommodates standard hook and loop, making it a versatile choice for those changing load-outs often. Simply pull this off one kit and add it to another. The bottom of the pouch features two elastic loops that can be adjusted to hold a tourniquet or other equipment that you may need to rapidly deploy. If bottom carry doesn't fit your mission needs, you can easily remove and reinstall the loops as necessary. Velcro Attachment measures 9" x 4" NOTE: This is an optional accessory of a Spiritus Systems LV/119 Plate Carrier build. To build a COMPLETE plate carrier you will need to select AT LEAST ONE of each of these items: Spiritus Systems Front Plate Bag Spiritus Systems Rear Plate Bag Spiritus Systems Shoulder Covers Spiritus Systems Cummerbund Set Note: This product may be shown with optional accessories. Made in the USA

## Attributes

# Safety Instruction Guide for Lunchbox Pouch Mk2

## Ranger Green

### Introduction

Thank you for choosing the Lunchbox Pouch Mk2 by Spiritus Systems. This versatile pouch is designed for safe and efficient use in explosive breaching operations. This guide provides essential safety instructions and guidelines to ensure your safety and the proper functioning of the product. Please read this document carefully before using the pouch.

### General Safety Guidelines

- **Product Safety:** Ensure safe use of the Lunchbox Pouch Mk2 by following all instructions provided in this manual.
- **Enhanced Recalls:** Stay informed about any product recalls. If you receive a recall notice, follow the instructions provided for returning or remedying the product.
- **Online Shopping:** If purchased online, ensure that the retailer meets all safety requirements.
- **Special Consumer Focus:** This product is not intended for use by children. Keep out of reach of minors.
- **EU Contact Point:** For any safety inquiries, please refer to the contact information provided on the product packaging or the manufacturer's website.
- **Rapid Alerts:** Be aware of updates on unsafe products through the EU's Safety Gate platform.

### Specific Safety Precautions for Use

- **Hazard Identification:**
  - The pouch is designed to hold explosive charges. Ensure that it is not exposed to extreme heat or flame.
  - Avoid overloading the pouch beyond its designed capacity to prevent material failure.
  - Ensure the pouch is securely attached to your plate carrier to prevent accidental detachment during use.
- **Usage Precautions:**
  - Always check the pouch for wear and tear before each use.
  - Do not use the pouch if it shows signs of damage.
  - Ensure that all items stored in the pouch are compatible with the intended use and do not pose a risk of accidental detonation.
- **Age Specific Warnings:**
  - This product is intended for use by trained professionals only. It is not suitable for use by individuals without proper training in explosive breaching techniques.

### Instructions for Installation and Usage

- **Installation:**
  - Attach the Lunchbox Pouch Mk2 to the bottom of your Spiritus Systems LV/119 Plate Carrier using the provided Velcro attachment.
  - Ensure the Velcro measures 9" x 4" is securely fastened to prevent the pouch from becoming dislodged during operations.

- Adjust the two elastic loops on the bottom of the pouch to hold a tourniquet or other necessary equipment securely.

- **Usage:**

- Open the half zip design to access the pouch contents. Do not leave the zipper unsecured when the pouch is in use.
- Utilize the 5 rows of elastic loops on the back side for organizing Interior Door Charges for easy access.
- Make use of the zippered stash pocket on the front for smaller items such as det cord remnants or firing device plungers.
- Adjust the tension of the elastic loops below using the two slidlocks as needed.
- Ensure that the two grommet holes on the bottom are clear for drainage if the pouch becomes submerged.

## Disposal Instructions

- **General Disposal:**

- Dispose of the Lunchbox Pouch Mk2 in accordance with local regulations for textile and equipment disposal.
- If the pouch has been used with hazardous materials, ensure it is disposed of as hazardous waste.

- **Recycling:**

- Check with local recycling facilities to see if they accept products made from nylon or similar materials.

## Contact Information for Further Support

For additional support or inquiries regarding the Lunchbox Pouch Mk2, please refer to the contact information provided on the product packaging or the manufacturer's website.

By following these safety instructions and guidelines, you can ensure a safe and effective experience with your Lunchbox Pouch Mk2. Thank you for your attention to safety and for choosing Spiritus Systems products.
