

# ASSAULT BACK PANEL CORE - SPIRITUS SYSTEMS ASSAULT BACK PANEL CORE - MULTICAM TROPIC

[Home](#)

The top of the Panel features a custom double pull, separating zipper. This zipper serves three purposes. It allows the Flaps to be completely removed from the Core and swapped out. It allows communication antennas and other items such as cabling, hydration tubes, and breaching tools to be routed into and out of the top of the panel. It provides quick access to the inside of the panel without lifting the entire Flap. The Assault Panel Core also has three direction snaps to hold Flaps securely on and to keep tools held inside the panel. The Assault Panel Core features 4 external attachment zippers. These zippers allow the panel to be worn in three configurations. Configuration 1 uses the top zippers to attach the panel to the plate bag. This compresses the panel and allows the panel to be worn in a "light" configuration. This configuration of the panel is great for assaulters who want a streamlined and tight configuration and only need to carry things like a small hydration bladder, slap charges, flash bangs and GP kit on their backs. Configuration 2 uses the bottom zippers to attach the panel to the plate bag. This configuration gives the user much more capacity and configures the panel into more of a backpack. This provides the same features as Configuration 1, but with the added volume for bulky items such as radios, cold weather gear, poll less litters, etc. Configuration 3 also uses the bottom zippers to attach to the rear plate bag, but introduces the bottom expansion as well. This expansion offers the ability to carry longer tools and store even more bulky items in the expanded space. The Assault Panel Core comes standard with a permanently affixed large GP pocket on the lower half. This pocket is velcro lined for attachment of accessory items. It features a total of two tie down locations inside the pouch for securing sensitive equipment. The front of the pouch features a zippered stash pocket for organizing smaller, commonly needed items. This pocket also has a 4" x 5" Velcro Field for attaching identification patches. Behind the GP pocket is a hidden stash compartment. This is used for storing the lower half of slap charges or breach pens when they are passed through the flaps above. It can also be used to stash E&E equipment or smaller personal items. Each side of the panel features six tie down loops for securing longer items external to the panel. These loops are great for attaching Tri-Fold or Bi-Fold charges or other tall items. The bottom expansion has a G-Hook internal to the panel that allows you to secure it in place if a heavier load needs to be carried inside, but you do not want the expansion to deploy inadvertently. Fitment Guide Medium Overt Plate Bags - Fits Large Overt Plate Bags - Fits, could use an XL Adapter if you have very thick plates, and are overloading the panel. Extra Large Overt Plate Bags - Needs an XL Adapter to be compatible with the XL Plate Bags. Some images shown with optional accessories, sold separately.

## Attributes

- Name: [SPIRITUS SYSTEMS ASSAULT BACK PANEL CORE - MULTICAM TROPIC](#)
- Manufacturer: [SPIRITUS SYSTEMS](#)
- Product no.: 430101887

# ASSAULT BACK PANEL CORE SAFETY INSTRUCTION GUIDE

## Introduction

Thank you for choosing the ASSAULT BACK PANEL CORE by SPIRITUS SYSTEMS. This product is designed to enhance your tactical capabilities while ensuring your safety. Please read this safety instruction guide carefully to understand how to use the product safely and effectively.

## General Safety Guidelines

To ensure a safe and effective experience with the ASSAULT BACK PANEL CORE, please follow these general safety guidelines:

- Always inspect the panel for any damage before use. Do not use if any part is broken or compromised.
- Ensure that all zippers and snaps are securely fastened before engaging in any activities.
- Avoid overloading the panel beyond its intended capacity to prevent strain and potential failure.
- Keep the panel away from sharp objects that could cause damage.
- Always be aware of your surroundings when using the panel, especially in crowded or confined spaces.
- Use the panel only for its intended purpose as outlined in this guide.

## Specific Safety Precautions for Use

When using the ASSAULT BACK PANEL CORE, please observe the following specific safety precautions:

- **Zipper Safety:** Ensure that the custom double pull zipper is fully closed before engaging in any physical activities. This prevents accidental openings.
- **Flap Management:** When removing or swapping flaps, ensure that all items are secured and that the area is clear of obstructions.
- **Attachment Security:** Regularly check the attachment points to ensure that all items are securely fastened and that no items are at risk of falling or becoming detached.
- **Tool Storage:** When storing tools or equipment in the panel, ensure that they are properly secured to avoid shifting during movement.
- **Weight Distribution:** Distribute weight evenly across the panel to maintain balance and prevent strain on your back and shoulders.

## Instructions for Installation and Usage

Follow these steps for proper installation and usage of the ASSAULT BACK PANEL CORE:

### 1. Attachment to Plate Bag:

- **Configuration 1:** Use the top zippers to attach the panel to the plate bag for a "light" configuration.
- **Configuration 2:** Use the bottom zippers to attach the panel for increased capacity, transforming it into a backpack style.
- **Configuration 3:** Utilize the bottom zippers with the bottom expansion for carrying longer tools and additional bulky items.

### 2. Securing Flaps:

- Ensure that the three direction snaps are engaged to hold the flaps securely in place.

### **3. Using the GP Pocket:**

- Utilize the permanently affixed large GP pocket on the lower half for storing additional gear.
- Ensure that sensitive equipment is secured using the tiedown locations inside the pouch.

### **4. Organizing Smaller Items:**

- Use the zippered stash pocket at the front of the pouch to organize smaller items.
- Attach identification patches to the 4" x 5" Velcro Field on the front of the pouch.

### **5. Hidden Stash Compartment:**

- Use the hidden stash compartment behind the GP pocket for storing items such as E&E equipment or smaller personal items.

### **6. Tying Down Longer Items:**

- Use the six tiedown loops on each side of the panel for securing longer items externally.

### **7. Using the GHook:**

- If carrying a heavier load, secure the bottom expansion using the GHook to prevent inadvertent deployment.

## **Disposal Instructions**

When it comes time to dispose of the ASSAULT BACK PANEL CORE, please follow these guidelines:

- Do not dispose of the product in regular household waste.
- Check local regulations for proper disposal methods of textile and synthetic materials.
- If the product is damaged or no longer usable, consider recycling options where available.

## **Contact Information for Further Support**

For any inquiries regarding safety or product performance, please refer to the official SPIRITUS SYSTEMS website or contact your local retailer.

Thank you for your attention to these safety instructions. Your safety is our priority, and we hope you enjoy using the ASSAULT BACK PANEL CORE.
