

ELASTIC HOOK & LOOP CUMMERBUND - SPIRITUS SYSTEMS

ELASTIC HOOK & LOOP CUMMERBUND (SIZE 1) - MULTICAM TROPIC

[Home](#)

Assault Panel Core The Assault Panel Core was designed to be a multi-mission back panel attachment to your LV-119 OVERT Rear Plate Bag. We designed the Panel to fill a spectrum of needs ranging from a light weight Assault Panel, to a more robust Pack Panel. The panel is both expandable and modular and can accommodate a plethora of equipment to meet almost any operational need. The Assault Panel Core attaches to your LV-119 Rear Plate Bag using a combination of 6 directional snaps, and 2 full length zippers. It also utilizes two stabilizers that route inside of the Rear Plate Bag if the Panel is used in "Configuration 2 or 3" listed below. The Panel has a removable flap system that allows the user to configure the upper half of the Panel to meet their mission needs. (Flaps are sold separately, the Assault Panel Core does NOT come with a flap.) This eliminates the need to have multiple panels and allows for quicker donning and doffing of mission essential equipment. NOTE: This LV/119 Cummerbund is designed for use with a front and rear LV/119 plate bag. The 5-Inch Elastic Cummerbund is a simple and effective solution for professionals who need to carry and have rapid access to additional ammunition and equipment on their sides while still maintaining a low profile. Side loading is great for ground vehicle and low visibility operations. Elastic cells are 3 inches wide and are built around standard 5.56 Magazines, such as the PMAG. Elastic cummerbunds prevent user fatigue while worn for long durations, as they stretch with the body during active maneuvers. By using 5-Inch Elastic, we allow for the stable carriage of taller items as they are held more securely. The sewn-on pull tabs allow for the use of the Bungee Retention Kit to securely hold items for HALO, OTB, or other kinetic operations. The tabs also allow users to pull on the cell and make it easier to load and extract equipment. The Elastic Hook & Loop Cummerbund features premium, Berry Amendment Compliant materials sourced from industry leaders in textiles manufacturing. It offers superior construction processes, including triple stitching on the elastic cells to prolong life and prevent cell failure when stuffed with non standard or oddly shaped items.

Cummerbund Attachment The cummerbund attachment is a proprietary system that allows for the use of all of Spiritus Systems cummerbunds, as well as allowing for a wide range of adjustment. The cummerbund attaches inside the plate bag, which is advantageous for a few reasons. There is no external mounting that can get snagged or rip off when exiting vehicles in haste. The design creates a smooth profile when worn underneath clothing. Hook & Loop is not utilized as an attachment method on the rear plate bag. Hook & Loop wears out over time and is a generally less-than-optimal attachment method when not supported in other ways. Hook & Loop doesn't handle weight well and it sticks to everything, especially cloth seats.

SIZING The cummerbund comes in two sizes: Size 1 and Size 2, each offering up to 14 inches of total adjustment. This allows for a proper fitment for all body types. To figure our appropriate sizing, take measurement of the waist at the belly button. When measuring, users should dress as they would while actually wearing the carrier. For example, if the user is operating in arctic environments, they should be wearing cold weather equipment when measuring. Size 1: 28" to 42" Size 2: 40" to 54" SOLD AS A SET. If your waist measurement is 42", we suggest going up to the Size 2 cummerbund. NOTE: The LV119 Cummerbund is part of the LV119 Plate

Carrier System. This item does not include a Front Plate Bag, Rear Plate Bag, Shoulder Covers, Placards, or any other accessories. Additional components are required for proper use. Some images shown with optional accessories, sold separately.

Attributes

- Name: [SPIRITUS SYSTEMS ELASTIC HOOK & LOOP CUMMERBUND \(SIZE 1\) - MULTICAM TROPIC](#)
- Manufacturer: [SPIRITUS SYSTEMS](#)
- Product no.: 430101897
- Mfr. No.: PC-EV-MT-S1
- Colour: Multi-Cam Tropic
- Delivery weight: 0.272kg
- Shipping height: 38mm
- Shipping width: 165mm
- Shipping length: 229mm

Safety Instruction Guide for ELASTIC HOOK & LOOP CUMMERBUND (SIZE 1) MULTICAM TROPIC

Introduction

Thank you for choosing the ELASTIC HOOK & LOOP CUMMERBUND from Spiritus Systems. This product is designed to enhance your tactical experience by providing a secure and adjustable solution for carrying equipment. Please read this safety instruction guide carefully to ensure safe and effective use of the cummerbund.

General Safety Guidelines

- **Product Safety:** Ensure the cummerbund is used in accordance with the instructions provided to avoid any risks associated with improper use.
- **Enhanced Recalls:** Stay informed about any product recalls or safety notices. Check the EU Safety Gate platform for updates.
- **Online Shopping:** If purchased online, ensure the seller complies with EU safety requirements.
- **Special Consumer Focus:** This product is not intended for children. Keep out of reach of minors to avoid any potential hazards.
- **EU Contact Point:** For any safety inquiries, refer to the designated EU contact point associated with this product.
- **Rapid Alerts:** Be aware of the Safety Gate system for quick updates on unsafe products.

Specific Safety Precautions for Use

- **Sizing:** Ensure you select the correct size (Size 1: 28" to 42", Size 2: 40" to 54"). Measure your waist at the belly button while dressed as you would during use.
- **Attachment:** The cummerbund attaches internally to the LV119 Rear Plate Bag. Ensure proper attachment to avoid accidental detachment during use.
- **Weight Limit:** Do not exceed the recommended weight capacity to prevent failure of the cummerbund during operations.
- **Elasticity:** The elastic nature of the cummerbund allows for movement. However, ensure it is not overstretched beyond its intended use.
- **Compatibility:** This cummerbund is designed for use with the LV119 Plate Carrier System. Ensure compatibility with your existing gear.
- **Flap System:** The cummerbund does not include flaps. Purchase flaps separately if needed for your mission requirements.

Instructions for Installation and Usage

Installation

1. **Prepare the Plate Bag:** Ensure your LV119 Rear Plate Bag is ready for attachment.
2. **Align the Cummerbund:** Position the cummerbund inside the plate bag, ensuring that it is oriented correctly for attachment.
3. **Secure Attachment:** Use the 6 directional snaps and 2 fulllength zippers to securely attach the cummerbund to the plate bag.
4. **Adjust for Fit:** Adjust the cummerbund to fit your waist size, utilizing the available length for proper adjustment.

Usage

- **Loading Equipment:** Use the elastic cells to load equipment such as magazines. Ensure items are secured properly to avoid shifting during movement.
- **Stabilizers:** If using in "Configuration 2 or 3," ensure the stabilizers are routed inside the Rear Plate Bag for added security.
- **Donning and Doffing:** When putting on or taking off the cummerbund, ensure it is not caught on any objects to avoid damage or injury.
- **Maintenance:** Regularly check the cummerbund for wear and tear, especially the elastic cells and attachment points. Replace if any signs of damage are found.

Disposal Instructions

- **Environmental Considerations:** Dispose of the cummerbund in accordance with local regulations regarding textile waste.
- **Recycling:** If possible, consider recycling the materials to reduce environmental impact.

Contact Information for Further Support

For any further inquiries or support regarding the ELASTIC HOOK & LOOP CUMMERBUND, please refer to the designated contact point associated with this product.

Thank you for choosing Spiritus Systems. Stay safe and tactical!
