

# ELASTIC HOOK & LOOP CUMMERBUND - SPIRITUS SYSTEMS

## ELASTIC HOOK & LOOP CUMMERBUND (SIZE 1) - WOLF GREY

[Home](#)

**Assault Panel Core** The Assault Panel Core was designed to be a multi-mission back panel attachment to your LV-119 OVERT Rear Plate Bag. We designed the Panel to fill a spectrum of needs ranging from a light weight Assault Panel, to a more robust Pack Panel. The panel is both expandable and modular and can accommodate a plethora of equipment to meet almost any operational need. The Assault Panel Core attaches to your LV-119 Rear Plate Bag using a combination of 6 directional snaps, and 2 full length zippers. It also utilizes two stabilizers that route inside of the Rear Plate Bag if the Panel is used in "Configuration 2 or 3" listed below. The Panel has a removable flap system that allows the user to configure the upper half of the Panel to meet their mission needs. (Flaps are sold separately, the Assault Panel Core does NOT come with a flap.) This eliminates the need to have multiple panels and allows for quicker donning and doffing of mission essential equipment. NOTE: This LV/119 Cummerbund is designed for use with a front and rear LV/119 plate bag. The 5-Inch Elastic Cummerbund is a simple and effective solution for professionals who need to carry and have rapid access to additional ammunition and equipment on their sides while still maintaining a low profile. Side loading is great for ground vehicle and low visibility operations. Elastic cells are 3 inches wide and are built around standard 5.56 Magazines, such as the PMAG. Elastic cummerbunds prevent user fatigue while worn for long durations, as they stretch with the body during active maneuvers. By using 5-Inch Elastic, we allow for the stable carriage of taller items as they are held more securely. The sewn-on pull tabs allow for the use of the Bungee Retention Kit to securely hold items for HALO, OTB, or other kinetic operations. The tabs also allow users to pull on the cell and make it easier to load and extract equipment. The Elastic Hook & Loop Cummerbund features premium, Berry Amendment Compliant materials sourced from industry leaders in textiles manufacturing. It offers superior construction processes, including triple stitching on the elastic cells to prolong life and prevent cell failure when stuffed with non standard or oddly shaped items.

**Cummerbund Attachment** The cummerbund attachment is a proprietary system that allows for the use of all of Spiritus Systems cummerbunds, as well as allowing for a wide range of adjustment. The cummerbund attaches inside the plate bag, which is advantageous for a few reasons. There is no external mounting that can get snagged or rip off when exiting vehicles in haste. The design creates a smooth profile when worn underneath clothing. Hook & Loop is not utilized as an attachment method on the rear plate bag. Hook & Loop wears out over time and is a generally less-than-optimal attachment method when not supported in other ways. Hook & Loop doesn't handle weight well and it sticks to everything, especially cloth seats.

**SIZING** The cummerbund comes in two sizes: Size 1 and Size 2, each offering up to 14 inches of total adjustment. This allows for a proper fitment for all body types. To figure our appropriate sizing, take measurement of the waist at the belly button. When measuring, users should dress as they would while actually wearing the carrier. For example, if the user is operating in arctic environments, they should be wearing cold weather equipment when measuring. Size 1: 28" to 42" Size 2: 40" to 54"

**SOLD AS A SET.** If your waist measurement is 42", we suggest going up to the Size 2 cummerbund. NOTE: The LV119 Cummerbund is part of the LV119 Plate Carrier System. This item does not include a Front Plate Bag, Rear Plate Bag,

Shoulder Covers, Placards, or any other accessories. Additional components are required for proper use. Some images shown with optional accessories, sold separately.

## Attributes

- Name: [SPIRITUS SYSTEMS ELASTIC HOOK & LOOP CUMMERBUND \(SIZE 1\) - WOLF GREY](#)
- Manufacturer: [SPIRITUS SYSTEMS](#)
- Product no.: 430101899

# Safety Instruction Guide for the ELASTIC HOOK & LOOP CUMMERBUND

## Introduction

Thank you for choosing the ELASTIC HOOK & LOOP CUMMERBUND by Spiritus Systems. This product is designed for professionals requiring a reliable and adjustable cummerbund for tactical operations. To ensure your safety and the effective use of this product, please read and follow the guidelines outlined in this manual.

## General Safety Guidelines

- **Product Safety:** This cummerbund is designed to meet safety standards for nonfood products. Always ensure it is used as intended.
- **Enhanced Recalls:** In the unlikely event of a product recall, you will be notified through standardized notices. Please keep your purchase information handy.
- **Online Shopping Protections:** If purchased online, this product is subject to the same safety standards as those bought in physical stores.
- **Special Consumer Focus:** This product is not intended for use by children. Keep out of reach of minors.
- **EU Contact Point:** For safety inquiries, please refer to the contact information provided at the point of purchase.
- **Rapid Alerts:** Stay informed about product safety updates through the EU's Safety Gate platform.

## Specific Safety Precautions for Use

- **Proper Fit:** Ensure the cummerbund is the correct size for your waist. Measure at the belly button and refer to sizing guidelines.
- **Weight Limitations:** Be mindful of the weight of items stored in the cummerbund to prevent fatigue and ensure comfort during use.
- **Installation:** Follow the installation instructions carefully to avoid improper attachment, which could lead to failure during use.
- **Weather Conditions:** If operating in extreme weather, wear appropriate clothing when measuring for fit.
- **Avoid Snags:** Be cautious when exiting vehicles or moving through tight spaces to prevent the cummerbund from snagging on objects.

## Instructions for Installation and Usage

### 1. Measuring for Size:

- Measure your waist at the belly button.
- Choose Size 1 for waist measurements between 28" to 42".
- Choose Size 2 for waist measurements between 40" to 54".
- If your waist measurement is 42", it is recommended to select Size 2.

### 2. Attaching the Cummerbund:

- Open the rear plate bag and locate the internal attachment points.
- Align the cummerbund's attachment system with the internal points in the plate bag.
- Secure the cummerbund using the provided snaps and zippers to ensure a stable fit.

### 3. Adjusting for Comfort:

- Once attached, adjust the cummerbund to fit snugly but comfortably around your waist.

- Ensure it does not restrict movement or cause discomfort during use.

#### **4. Using the Elastic Cells:**

- Load items such as magazines into the elastic cells, ensuring they are securely held.
- Make use of the pull tabs for easy access to stored items.

#### **5. Removing the Cummerbund:**

- To remove, carefully unfasten the snaps and zippers.
- Store the cummerbund in a dry place away from direct sunlight when not in use.

## **Disposal Instructions**

- Dispose of this product in accordance with local regulations.
- Do not incinerate or dispose of in regular waste if it contains any electronic components.
- Consider recycling options for materials where applicable.

## **Contact Information for Further Support**

For any safety inquiries or support regarding the ELASTIC HOOK & LOOP CUMMERBUND, please refer to the contact details provided at the point of purchase or on the official website of Spiritus Systems.

By following these guidelines, you can ensure a safe and effective experience with your ELASTIC HOOK & LOOP CUMMERBUND. Thank you for your attention to safety.
