

ELASTIC HOOK & LOOP CUMMERBUND - SPIRITUS SYSTEMS

ELASTIC HOOK & LOOP CUMMERBUND (SIZE 2) - MULTICAM TROPIC

[Home](#)

Assault Panel Core The Assault Panel Core was designed to be a multi-mission back panel attachment to your LV-119 OVERT Rear Plate Bag. We designed the Panel to fill a spectrum of needs ranging from a light weight Assault Panel, to a more robust Pack Panel. The panel is both expandable and modular and can accommodate a plethora of equipment to meet almost any operational need. The Assault Panel Core attaches to your LV-119 Rear Plate Bag using a combination of 6 directional snaps, and 2 full length zippers. It also utilizes two stabilizers that route inside of the Rear Plate Bag if the Panel is used in "Configuration 2 or 3" listed below. The Panel has a removable flap system that allows the user to configure the upper half of the Panel to meet their mission needs. (Flaps are sold separately, the Assault Panel Core does NOT come with a flap.) This eliminates the need to have multiple panels and allows for quicker donning and doffing of mission essential equipment. NOTE: This LV/119 Cummerbund is designed for use with a front and rear LV/119 plate bag. The 5-Inch Elastic Cummerbund is a simple and effective solution for professionals who need to carry and have rapid access to additional ammunition and equipment on their sides while still maintaining a low profile. Side loading is great for ground vehicle and low visibility operations. Elastic cells are 3 inches wide and are built around standard 5.56 Magazines, such as the PMAG. Elastic cummerbunds prevent user fatigue while worn for long durations, as they stretch with the body during active maneuvers. By using 5-Inch Elastic, we allow for the stable carriage of taller items as they are held more securely. The sewn-on pull tabs allow for the use of the Bungee Retention Kit to securely hold items for HALO, OTB, or other kinetic operations. The tabs also allow users to pull on the cell and make it easier to load and extract equipment. The Elastic Hook & Loop Cummerbund features premium, Berry Amendment Compliant materials sourced from industry leaders in textiles manufacturing. It offers superior construction processes, including triple stitching on the elastic cells to prolong life and prevent cell failure when stuffed with non standard or oddly shaped items.

Cummerbund Attachment The cummerbund attachment is a proprietary system that allows for the use of all of Spiritus Systems cummerbunds, as well as allowing for a wide range of adjustment. The cummerbund attaches inside the plate bag, which is advantageous for a few reasons. There is no external mounting that can get snagged or rip off when exiting vehicles in haste. The design creates a smooth profile when worn underneath clothing. Hook & Loop is not utilized as an attachment method on the rear plate bag. Hook & Loop wears out over time and is a generally less-than-optimal attachment method when not supported in other ways. Hook & Loop doesn't handle weight well and it sticks to everything, especially cloth seats.

SIZING The cummerbund comes in two sizes: Size 1 and Size 2, each offering up to 14 inches of total adjustment. This allows for a proper fitment for all body types. To figure our appropriate sizing, take measurement of the waist at the belly button. When measuring, users should dress as they would while actually wearing the carrier. For example, if the user is operating in arctic environments, they should be wearing cold weather equipment when measuring. Size 1: 28" to 42" Size 2: 40" to 54" SOLD AS A SET. If your waist measurement is 42", we suggest going up to the Size 2 cummerbund. NOTE: The LV119 Cummerbund is part of the LV119 Plate

Carrier System. This item does not include a Front Plate Bag, Rear Plate Bag, Shoulder Covers, Placards, or any other accessories. Additional components are required for proper use. Some images shown with optional accessories, sold separately.

Attributes

- Name: [SPIRITUS SYSTEMS ELASTIC HOOK & LOOP CUMMERBUND \(SIZE 2\) - MULTICAM TROPIC](#)
- Manufacturer: [SPIRITUS SYSTEMS](#)
- Product no.: 430101902

ELASTIC HOOK & LOOP CUMMERBUND

SAFETY INSTRUCTIONS

Introduction

Thank you for purchasing the Spiritus Systems Elastic Hook & Loop Cummerbund. This product is designed to enhance your operational capabilities while ensuring safety and comfort. Please read this safety instruction guide carefully to ensure proper use and maintenance of the cummerbund.

General Safety Guidelines

- **Product Safety:** This cummerbund has been designed to meet safety standards for nonfood products. Ensure that you use it as intended to minimize risks.
- **Enhanced Recalls:** In the event of a product recall, you will receive standardized notices and remedies. Stay informed about potential recalls.
- **Online Shopping:** If purchased online, you have the same safety protections as when shopping in physical stores.
- **Special Consumer Focus:** Extra precautions are in place for vulnerable groups. Ensure that children do not use this product without adult supervision.
- **EU Contact Point:** For safety inquiries, please refer to the contact information provided by the retailer.
- **Rapid Alerts:** Stay updated on unsafe products through the EU's Safety Gate platform.

Specific Safety Precautions for Use

- **Proper Fit:** Ensure that the cummerbund is correctly sized to your waist. Measure your waist at the belly button while wearing appropriate clothing.
- **Avoid Overloading:** Do not exceed the recommended weight for the cummerbund. Overloading can lead to failure.
- **Check for Wear and Tear:** Regularly inspect the cummerbund for signs of wear. Replace any damaged components immediately.
- **Avoid Sharp Objects:** Keep sharp items away from the cummerbund to prevent punctures and tears.
- **Use with Compatible Equipment:** Ensure that the cummerbund is used with compatible Spiritus Systems products to maintain safety and functionality.
- **Follow Instructions:** Always adhere to the installation and usage instructions provided in this guide.

Instructions for Installation and Usage

1. Sizing:

- Size 1: 28" to 42"
- Size 2: 40" to 54" If your waist measurement is at the upper limit of Size 1, consider using Size 2 for better fit and comfort.

2. Installation:

- Attach the cummerbund inside the LV119 Rear Plate Bag using the provided snaps and zippers.
- Ensure that the cummerbund is securely fastened to avoid slippage during use.
- Adjust the cummerbund to fit snugly against your body for optimal support.

3. Usage:

- Load the cummerbund with equipment such as ammunition and tools, ensuring that they are evenly distributed.

- Utilize the sewnon pull tabs for easy access to items during operations.
- If using in "Configuration 2 or 3", ensure the stabilizers are routed correctly inside the Rear Plate Bag for stability.

4. Donning and Doffing:

- When putting on the cummerbund, ensure that it is positioned properly and that all attachment points are secure.
- To remove, unfasten the snaps and zippers carefully to avoid damaging the cummerbund or your clothing.

Disposal Instructions

- Dispose of the cummerbund responsibly. If it is damaged beyond repair, please follow local waste disposal regulations.
- Consider recycling any fabric components if possible.

Contact Information for Further Support

For any questions or concerns regarding the use of the Elastic Hook & Loop Cummerbund, please refer to the retailer from whom you purchased the product or visit the Spiritus Systems website for more information.

Thank you for choosing Spiritus Systems. Your safety and satisfaction are our top priorities.
