## **ELASTIC HOOK & LOOP CUMMERBUND (SIZE 2) - WOLF GREY**

[Home](#)

**Assault Panel Core** The Assault Panel Core was designed to be a multi-mission back panel attachment to your LV-119 OVERT Rear Plate Bag. We designed the Panel to fill a spectrum of needs ranging from a light weight Assault Panel, to a more robust Pack Panel. The panel is both expandable and modular and can accommodate a plethora of equipment to meet almost any operational need. The Assault Panel Core attaches to your LV-119 Rear Plate Bag using a combination of 6 directional snaps, and 2 full length zippers. It also utilizes two stabilizers that route inside of the Rear Plate Bag if the Panel is used in "Configuration 2 or 3" listed below. The Panel has a removable flap system that allows the user to configure the upper half of the Panel to meet their mission needs. (Flaps are sold separately, the Assault Panel Core does NOT come with a flap.) This eliminates the need to have multiple panels and allows for quicker donning and doffing of mission essential equipment. NOTE: This LV/119 Cummerbund is designed for use with a front and rear LV/119 plate bag. The 5-Inch Elastic Cummerbund is a simple and effective solution for professionals who need to carry and have rapid access to additional ammunition and equipment on their sides while still maintaining a low profile. Side loading is great for ground vehicle and low visibility operations. Elastic cells are 3 inches wide and are built around standard 5.56 Magazines, such as the PMAG. Elastic cummerbunds prevent user fatigue while worn for long durations, as they stretch with the body during active maneuvers. By using 5-Inch Elastic, we allow for the stable carriage of taller items as they are held more securely. The sewn-on pull tabs allow for the use of the Bungee Retention Kit to securely hold items for HALO, OTB, or other kinetic operations. The tabs also allow users to pull on the cell and make it easier to load and extract equipment. The Elastic Hook & Loop Cummerbund features premium, Berry Amendment Compliant materials sourced from industry leaders in textiles manufacturing. It offers superior construction processes, including triple stitching on the elastic cells to prolong life and prevent cell failure when stuffed with-non standard or oddly shaped items. **Cummerbund Attachment** The cummerbund attachment is a proprietary system that allows for the use of all of Spiritus Systems cummerbunds, as well as allowing for a wide range of adjustment. The cummerbund attaches inside the plate bag, which is advantageous for a few reasons. There is no external mounting that can get snagged or rip off when exiting vehicles in haste. The design creates a smooth profile when worn underneath clothing. Hook & Loop is not utilized as an attachment method on the rear plate bag. Hook & Loop wears out over time and is a generally less-than-optimal attachment method when not supported in other ways. Hook & Loop doesn't handle weight well and it sticks to everything, especially cloth seats. **SIZING** The cummerbund comes in two sizes: Size 1 and Size 2, each offering up to 14 inches of total adjustment. This allows for a proper fitment for all body types. To figure our appropriate sizing, take measurement of the waist at the belly button. When measuring, users should dress as they would while actually wearing the carrier. For example, if the user is operating in arctic environments, they should be wearing cold weather equipment when measuring. Size 1: 28" to 42" Size 2: 40" to 54" **SOLD AS A SET.** If your waist measurement is 42", we suggest going up to the Size 2 cummerbund. NOTE: The LV119 Cummerbund is part of the LV119 Plate Carrier System. This item does not include a Front Plate Bag, Rear Plate Bag,

Shoulder Covers, Placards, or any other accessories. Additional components are required for proper use. Some images shown with optional accessories, sold separately.

## Attributes

- Name: [SPIRITUS SYSTEMS ELASTIC HOOK & LOOP CUMMERBUND \(SIZE 2\) - WOLF GREY](#)
- Manufacturer: [SPIRITUS SYSTEMS](#)
- Product no.: 430101904
- Mfr. No.: PC-EV-WG-S2
- Colour: Wolf Grey
- Delivery weight: 0.357kg
- Shipping height: 38mm
- Shipping width: 165mm
- Shipping length: 229mm

# Safety Instruction Guide for ELASTIC HOOK & LOOP CUMMERBUND

## Introduction

Thank you for choosing the ELASTIC HOOK & LOOP CUMMERBUND from Spiritus Systems. This product is designed to provide a secure and comfortable fit while carrying essential equipment. Please read this safety instruction guide carefully to ensure safe usage and maintenance of the cummerbund.

## General Safety Guidelines

- Ensure that the cummerbund is used only for its intended purpose.
- Always check the cummerbund for signs of wear or damage before each use.
- Keep the cummerbund away from sharp objects that may cause damage.
- Do not overload the cummerbund with equipment beyond its designed capacity.
- Use the cummerbund in accordance with the instructions provided in this guide.
- Store the cummerbund in a dry, cool place when not in use.
- Report any unsafe conditions or incidents to the appropriate authorities.

## Specific Safety Precautions for Use

- The cummerbund is designed for adults and should not be used by children without adult supervision.
- If you have any allergies to textile materials, consult with a healthcare professional before use.
- Ensure that the cummerbund is properly adjusted to fit your waist size to prevent slippage or discomfort.
- When using the cummerbund in active scenarios (e.g., tactical operations), ensure that it is securely fastened to avoid accidents.
- Avoid using the cummerbund with incompatible equipment that may interfere with its functionality.

## Instructions for Installation and Usage

### Installation

1. **Preparation:** Ensure you have all necessary components, including the cummerbund and the LV119 Rear Plate Bag.
2. **Attachment:**
  - Attach the cummerbund inside the plate bag using the proprietary attachment system.
  - Ensure that the cummerbund is securely fastened to prevent it from coming loose during use.
3. **Adjustment:**
  - Adjust the cummerbund to fit your waist by utilizing the adjustable features.
  - Measure your waist at the belly button to determine the appropriate size:
    - Size 1: 28" to 42"
    - Size 2: 40" to 54"
  - For a waist measurement of 42", it is recommended to choose Size 2.

### Usage

- Once installed, ensure the cummerbund is snug but comfortable.
- Load equipment into the elastic cells, ensuring not to exceed the recommended load capacity.
- When removing the cummerbund, undo all fasteners gently to avoid damage.
- Store the cummerbund properly when not in use to maintain its integrity.

## **Disposal Instructions**

- Dispose of the cummerbund in accordance with local regulations regarding textile waste.
- If the cummerbund is damaged beyond repair, consider recycling options available in your area.

## **Contact Information for Further Support**

For any questions regarding the product, please refer to the manufacturer's website or contact the designated support team for assistance.

By following these safety guidelines and instructions, you can ensure a safe and effective use of your ELASTIC HOOK & LOOP CUMMERBUND. Thank you for your attention to safety and for choosing Spiritus Systems.
