

# MOLLE HOOK & LOOP CUMMERBUND - SPIRITUS SYSTEMS MOLLE HOOK & LOOP CUMMERBUND (SIZE 1) - MULTICAM ARID

[Home](#)

NOTE: This LV/119 Cummerbund is designed for use with a front and rear LV/119 plate bag. The Hook & Loop MOLLE Cummerbund was designed to be a lightweight and simple load carriage solution for the LV/119 series of vests. Using the widely adopted MOLLE system, the cummerbund offers almost infinite configurations for mission needs by utilizing any MOLLE accessory that can be found on the market. The cummerbund is designed to allow simultaneous use of the same MOLLE cell for products mounted on the inside and outside of the cummerbund. The Hook & Loop MOLLE Cummerbund features premium, Berry Amendment Compliant materials sourced from industry leaders in textiles' manufacturing. Cummerbund Attachment The cummerbund attachment is a proprietary system that allows for the use of all of our cummerbunds, as well as allowing for a wide range of adjustment. The cummerbund attaches inside the plate bag, which is advantageous for a few reasons. There is no external mounting that can get snagged or rip off when exiting vehicles in haste. The design creates a smooth profile when worn underneath clothing. Hook & Loop is not utilized as an attachment method on the rear plate bag. Hook & Loop wears out over time and is a generally less-than-optimal attachment method when not supported in other ways. Hook & Loop doesn't handle weight well and it sticks to everything, especially cloth seats. Sizing The cummerbund comes in two sizes: Size 1 and Size 2, each offering up to 14 inches of total adjustment. This allows for a proper fitment for all body types. To figure our appropriate sizing, take measurement of the waist at the belly button. When measuring, users should dress as they would while actually wearing the carrier. For example, if the user is operating in arctic environments, they should be wearing cold weather equipment when measuring. Size 1: 28" to 42" Size 2: 40" to 54" SOLD AS A SET. If your waist measurement is 42", we suggest going up to the Size 2 cummerbund. NOTE: The LV119 Cummerbund is part of the LV119 Plate Carrier System. This item does not include a Front Plate Bag, Rear Plate Bag, Shoulder Covers, Placards, or any other accessories. Additional components are required for proper use. Some images shown with optional accessories, sold separately.

## Attributes

- Name: [SPIRITUS SYSTEMS MOLLE HOOK & LOOP CUMMERBUND \(SIZE 1\) - MULTICAM ARID](#)
- Manufacturer: [SPIRITUS SYSTEMS](#)
- Product no.: 430101950

# MOLLE Hook & Loop Cummerbund Safety Instruction Guide

## Introduction

Thank you for choosing the MOLLE Hook & Loop Cummerbund by Spiritus Systems. This product is designed to enhance your load carriage capabilities while ensuring comfort and safety. This guide provides essential safety instructions and guidelines to ensure the safe use of the cummerbund.

## General Safety Guidelines

- Ensure that the cummerbund is used only as intended, as specified in the product description.
- Regularly inspect the cummerbund for any signs of wear or damage before each use.
- Avoid using the cummerbund with incompatible accessories that may compromise its effectiveness or safety.
- Keep the cummerbund away from sharp objects that may cause tearing or puncturing.
- Store the cummerbund in a cool, dry place when not in use to prevent degradation of materials.
- Always follow local regulations and guidelines regarding the use of tactical gear.

## Specific Safety Precautions for Use

- **Attachment System:** The proprietary attachment system is designed for optimal security. Ensure that the cummerbund is properly attached inside the plate bag to prevent it from snagging or ripping off during movement.
- **Weight Distribution:** Be mindful of weight distribution when utilizing the cummerbund with additional MOLLE accessories. Overloading may compromise stability and safety.
- **Sizing:** Measure your waist accurately to ensure a proper fit. If your waist measurement is at the upper limit of a size, consider selecting the next size up for comfort and safety.
- **Clothing Compatibility:** When wearing the cummerbund, dress appropriately for the environment. Cold weather gear should be worn when measuring for size in arctic conditions, as this affects fit.
- **Vulnerable Groups:** This product is not intended for use by children. Ensure that it is used only by individuals trained in tactical gear handling.

## Instructions for Installation and Usage

### 1. Measurement:

- Measure your waist at the belly button while wearing clothing similar to what you will wear with the cummerbund.
- Choose between Size 1 (28" to 42") and Size 2 (40" to 54") based on your measurement.

### 2. Attachment:

- Open the front and rear LV/119 plate bags.
- Insert the cummerbund into the designated slots inside the plate bag.
- Ensure that it is securely attached and that there are no loose ends that may catch on objects.

### 3. Adjusting Fit:

- Adjust the cummerbund to your preferred tightness, ensuring that it is snug but not restrictive.
- Test the fit by moving around to ensure that it does not shift or feel uncomfortable.

### 4. Usage:

- Wear the cummerbund under clothing for a smooth profile.
- Avoid using Hook & Loop as an attachment method on the rear plate bag, as it is less durable over time.

## **Disposal Instructions**

- Dispose of the cummerbund responsibly. If the product is damaged or no longer needed, consider recycling the materials where possible.
- Follow local regulations for the disposal of textile products.

## **Contact Information for Further Support**

For any inquiries related to safety, product usage, or concerns, please contact the manufacturer directly through the provided contact channels. Always keep this guide for reference while using the product.

Thank you for prioritizing safety and ensuring proper use of your MOLLE Hook & Loop Cummerbund.
