

# **MOLLE HOOK & LOOP CUMMERBUND - SPIRITUS SYSTEMS MOLLE HOOK & LOOP CUMMERBUND (SIZE 1) - MULTICAM TROPIC**

[Home](#)

NOTE: This LV/119 Cummerbund is designed for use with a front and rear LV/119 plate bag. The Hook & Loop MOLLE Cummerbund was designed to be a lightweight and simple load carriage solution for the LV/119 series of vests. Using the widely adopted MOLLE system, the cummerbund offers almost infinite configurations for mission needs by utilizing any MOLLE accessory that can be found on the market. The cummerbund is designed to allow simultaneous use of the same MOLLE cell for products mounted on the inside and outside of the cummerbund. The Hook & Loop MOLLE Cummerbund features premium, Berry Amendment Compliant materials sourced from industry leaders in textiles' manufacturing. Cummerbund Attachment The cummerbund attachment is a proprietary system that allows for the use of all of our cummerbunds, as well as allowing for a wide range of adjustment. The cummerbund attaches inside the plate bag, which is advantageous for a few reasons. There is no external mounting that can get snagged or rip off when exiting vehicles in haste. The design creates a smooth profile when worn underneath clothing. Hook & Loop is not utilized as an attachment method on the rear plate bag. Hook & Loop wears out over time and is a generally less-than-optimal attachment method when not supported in other ways. Hook & Loop doesn't handle weight well and it sticks to everything, especially cloth seats. Sizing The cummerbund comes in two sizes: Size 1 and Size 2, each offering up to 14 inches of total adjustment. This allows for a proper fitment for all body types. To figure our appropriate sizing, take measurement of the waist at the belly button. When measuring, users should dress as they would while actually wearing the carrier. For example, if the user is operating in arctic environments, they should be wearing cold weather equipment when measuring. Size 1: 28" to 42" Size 2: 40" to 54" SOLD AS A SET. If your waist measurement is 42", we suggest going up to the Size 2 cummerbund. NOTE: The LV119 Cummerbund is part of the LV119 Plate Carrier System. This item does not include a Front Plate Bag, Rear Plate Bag, Shoulder Covers, Placards, or any other accessories. Additional components are required for proper use. Some images shown with optional accessories, sold separately.

# MOLLE Hook & Loop Cummerbund Safety Instructions

## Introduction

Thank you for choosing the MOLLE Hook & Loop Cummerbund by Spiritus Systems. This product is designed to provide a lightweight and versatile load carriage solution for the LV/119 series of vests. Please read this safety instruction guide carefully to ensure safe and effective use of the cummerbund.

## General Safety Guidelines

- Ensure that the cummerbund is used in accordance with the manufacturer's instructions.
- Regularly inspect the cummerbund for signs of wear or damage before each use.
- Keep the cummerbund away from fire and extreme heat sources.
- Do not exceed the weight limit recommended for the cummerbund.
- Use the cummerbund only for its intended purpose as described in this guide.
- Store the cummerbund in a dry and cool place when not in use.
- Be cautious when using the cummerbund in environments that may pose additional risks (e.g., wet conditions, rugged terrain).

## Specific Safety Precautions for Use

- The cummerbund is designed for use with the LV/119 plate bag. Ensure proper compatibility before use.
- Avoid using Hook & Loop as an attachment method for the rear plate bag, as it may wear out over time and is less reliable for weightbearing applications.
- When measuring for size, ensure that you are wearing clothing similar to what you would wear in actual use to ensure proper fit.
- If your waist measurement is at the upper limit of a size, consider choosing the next size up for comfort and safety.
- Always ensure that the cummerbund is securely attached and adjusted before engaging in activities.

## Instructions for Installation and Usage

### 1. Measuring for Size:

- Measure your waist at the belly button while wearing typical clothing.
- Size 1 fits waist measurements from 28 inches to 42 inches.
- Size 2 fits waist measurements from 40 inches to 54 inches.
- If your waist measurement is 42 inches, it is recommended to choose Size 2.

### 2. Attaching the Cummerbund:

- Open the front and rear LV/119 plate bags.
- Insert the cummerbund inside the plate bag, ensuring a snug fit.
- Adjust the cummerbund to the desired size using the proprietary adjustment system.
- Secure the cummerbund by ensuring all attachment points are properly fastened.

### 3. Using the Cummerbund:

- Ensure that the cummerbund is worn underneath clothing for a smooth profile.
- Avoid placing heavy items solely on the Hook & Loop attachment, as it may not support the weight effectively.

#### 4. Removing the Cummerbund:

- To remove the cummerbund, unfasten all attachment points.
- Carefully pull the cummerbund out of the plate bag, avoiding any sudden movements that may cause damage.

## Disposal Instructions

- When the cummerbund has reached the end of its usable life, dispose of it in accordance with local regulations.
- Do not dispose of the cummerbund in fire or extreme heat, as it may release harmful substances.
- Consider recycling options if available in your area.

## Contact Information for Further Support

For any inquiries regarding the MOLLE Hook & Loop Cummerbund, please contact your local distributor or refer to the manufacturer's website for additional support and information.

Thank you for your attention to these safety instructions. Enjoy your MOLLE Hook & Loop Cummerbund and use it safely!
