

MOLLE HOOK & LOOP CUMMERBUND - SPIRITUS SYSTEMS MOLLE HOOK & LOOP CUMMERBUND (SIZE 2) - MULTICAM BLACK

[Home](#)

NOTE: This LV/119 Cummerbund is designed for use with a front and rear LV/119 plate bag. The Hook & Loop MOLLE Cummerbund was designed to be a lightweight and simple load carriage solution for the LV/119 series of vests. Using the widely adopted MOLLE system, the cummerbund offers almost infinite configurations for mission needs by utilizing any MOLLE accessory that can be found on the market. The cummerbund is designed to allow simultaneous use of the same MOLLE cell for products mounted on the inside and outside of the cummerbund. The Hook & Loop MOLLE Cummerbund features premium, Berry Amendment Compliant materials sourced from industry leaders in textiles' manufacturing. Cummerbund Attachment The cummerbund attachment is a proprietary system that allows for the use of all of our cummerbunds, as well as allowing for a wide range of adjustment. The cummerbund attaches inside the plate bag, which is advantageous for a few reasons. There is no external mounting that can get snagged or rip off when exiting vehicles in haste. The design creates a smooth profile when worn underneath clothing. Hook & Loop is not utilized as an attachment method on the rear plate bag. Hook & Loop wears out over time and is a generally less-than-optimal attachment method when not supported in other ways. Hook & Loop doesn't handle weight well and it sticks to everything, especially cloth seats. Sizing The cummerbund comes in two sizes: Size 1 and Size 2, each offering up to 14 inches of total adjustment. This allows for a proper fitment for all body types. To figure our appropriate sizing, take measurement of the waist at the belly button. When measuring, users should dress as they would while actually wearing the carrier. For example, if the user is operating in arctic environments, they should be wearing cold weather equipment when measuring. Size 1: 28" to 42" Size 2: 40" to 54" SOLD AS A SET. If your waist measurement is 42", we suggest going up to the Size 2 cummerbund. NOTE: The LV119 Cummerbund is part of the LV119 Plate Carrier System. This item does not include a Front Plate Bag, Rear Plate Bag, Shoulder Covers, Placards, or any other accessories. Additional components are required for proper use. Some images shown with optional accessories, sold separately.

MOLLE Hook & Loop Cummerbund Safety Instructions

Introduction

Thank you for choosing the MOLLE Hook & Loop Cummerbund by Spiritus Systems. This product is designed to provide a lightweight and versatile load carriage solution for use with the LV/119 series of vests. To ensure your safety and the proper functioning of the cummerbund, please read and follow these safety instructions carefully.

General Safety Guidelines

- **Product Safety:** Ensure safe use of this cummerbund by following the guidelines provided. This product complies with the EU General Product Safety Regulation (GPSR).
- **Enhanced Recalls:** Stay informed about any recall notices related to the cummerbund. In the event of a recall, remedies will be provided free of charge.
- **Online Shopping:** If purchased online, ensure that the platform meets safety requirements equivalent to those of physical stores.
- **Special Consumer Focus:** This product is intended for use by adults. Extra care should be taken if used in environments where children may be present.
- **EU Contact Point:** For any safety inquiries, please ensure you have access to an EU-based contact.
- **Rapid Alerts:** Be aware that updates on unsafe products are available through the EU's Safety Gate platform.

Specific Safety Precautions for Use

- **Proper Fit:** Ensure that the cummerbund fits correctly. Measure your waist at the belly button and select the appropriate size (Size 1: 28" to 42", Size 2: 40" to 54"). If your waist measurement is 42", consider opting for Size 2.
- **Avoid Overloading:** Do not exceed the weight capacity of the cummerbund to prevent failure of the attachment system.
- **Inspect Before Use:** Regularly check the cummerbund for signs of wear, damage, or degradation. Do not use if any issues are found.
- **Use in Appropriate Conditions:** When measuring for fit, wear clothing similar to what you would use while operating in the intended environment (e.g., cold weather gear for arctic conditions).
- **Avoid Hook & Loop Wear:** The Hook & Loop attachment method can wear out over time. Ensure that the cummerbund is securely attached and check for any signs of failure before use.

Instructions for Installation and Usage

1. Attachment:

- The cummerbund attaches inside the LV/119 plate bag. Ensure that it is properly secured to avoid any external mounting that could snag or rip off.
- Avoid using Hook & Loop as an attachment method on the rear plate bag, as it may not hold weight well.

2. Fitting:

- Adjust the cummerbund for a snug fit. There should be no excess material that could interfere with movement.
- Ensure that the cummerbund is worn underneath clothing to maintain a smooth profile.

3. Usage:

- When using the cummerbund, ensure that it does not obstruct movement or cause discomfort.
- If using any MOLLE accessories, ensure they are compatible and securely attached to the cummerbund.

Disposal Instructions

- Dispose of the cummerbund responsibly at the end of its life cycle. Check local regulations for proper disposal methods for textiles and synthetic materials.
- If the cummerbund is damaged beyond repair, consider recycling options if available in your area.

Contact Information for Further Support

For questions or concerns regarding the MOLLE Hook & Loop Cummerbund, please refer to the manufacturer's website or contact your retailer for assistance.

By following these safety instructions, you can ensure a safe and effective use of the MOLLE Hook & Loop Cummerbund. Thank you for your attention to these guidelines, and enjoy your product!
