

MOLLE HOOK & LOOP CUMMERBUND - SPIRITUS SYSTEMS MOLLE HOOK & LOOP CUMMERBUND (SIZE 2) - WOODLAND

[Home](#)

NOTE: This LV/119 Cummerbund is designed for use with a front and rear LV/119 plate bag. The Hook & Loop MOLLE Cummerbund was designed to be a lightweight and simple load carriage solution for the LV/119 series of vests. Using the widely adopted MOLLE system, the cummerbund offers almost infinite configurations for mission needs by utilizing any MOLLE accessory that can be found on the market. The cummerbund is designed to allow simultaneous use of the same MOLLE cell for products mounted on the inside and outside of the cummerbund. The Hook & Loop MOLLE Cummerbund features premium, Berry Amendment Compliant materials sourced from industry leaders in textiles' manufacturing. Cummerbund Attachment The cummerbund attachment is a proprietary system that allows for the use of all of our cummerbunds, as well as allowing for a wide range of adjustment. The cummerbund attaches inside the plate bag, which is advantageous for a few reasons. There is no external mounting that can get snagged or rip off when exiting vehicles in haste. The design creates a smooth profile when worn underneath clothing. Hook & Loop is not utilized as an attachment method on the rear plate bag. Hook & Loop wears out over time and is a generally less-than-optimal attachment method when not supported in other ways. Hook & Loop doesn't handle weight well and it sticks to everything, especially cloth seats. Sizing The cummerbund comes in two sizes: Size 1 and Size 2, each offering up to 14 inches of total adjustment. This allows for a proper fitment for all body types. To figure our appropriate sizing, take measurement of the waist at the belly button. When measuring, users should dress as they would while actually wearing the carrier. For example, if the user is operating in arctic environments, they should be wearing cold weather equipment when measuring. Size 1: 28" to 42" Size 2: 40" to 54" SOLD AS A SET. If your waist measurement is 42", we suggest going up to the Size 2 cummerbund. NOTE: The LV119 Cummerbund is part of the LV119 Plate Carrier System. This item does not include a Front Plate Bag, Rear Plate Bag, Shoulder Covers, Placards, or any other accessories. Additional components are required for proper use. Some images shown with optional accessories, sold separately.

MOLLE Hook & Loop Cummerbund Safety Instruction Guide

Introduction

Thank you for purchasing the MOLLE Hook & Loop Cummerbund (Size 2) Woodland by Spiritus Systems. This guide provides essential safety instructions to ensure the proper use and maintenance of your cummerbund, along with important safety information in compliance with the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

To ensure your safety and the safety of others while using this product, please adhere to the following guidelines:

- Always inspect the cummerbund for any signs of damage or wear before each use.
- Ensure that the cummerbund is properly attached to the plate bag before use.
- Keep the cummerbund away from sharp objects to prevent tearing or damage.
- Store the cummerbund in a cool, dry place when not in use to maintain its integrity.
- Avoid using the cummerbund in environments where it may become entangled or snagged.

Specific Safety Precautions for Use

The following precautions should be followed to minimize risks associated with the use of the MOLLE Hook & Loop Cummerbund:

- **Weight Limitations:** Do not exceed the recommended weight capacity for attachments on the cummerbund. Excess weight can compromise its performance.
- **Proper Fit:** Ensure that the cummerbund is adjusted to fit snugly around your waist without restricting movement or breathing.
- **Avoid Hook & Loop Wear:** Be aware that Hook & Loop can wear out over time. Regularly check its condition and replace if necessary.
- **Clothing Compatibility:** When wearing the cummerbund, ensure that your clothing does not interfere with its function or cause it to become dislodged.

Instructions for Installation and Usage

Follow these steps to properly install and use your MOLLE Hook & Loop Cummerbund:

1. **Measurement:** Measure your waist at the belly button to determine the appropriate size.
 - Size 1: 28" to 42"
 - Size 2: 40" to 54"
2. **Attachment:**
 - Open the front and rear LV/119 plate bag.
 - Insert the cummerbund into the designated attachment points inside the plate bag.
 - Adjust the cummerbund for a secure fit, ensuring that it does not interfere with any other equipment.
3. **Adjusting Fit:**
 - Use the adjustment features to modify the length of the cummerbund as needed.
 - Ensure that the cummerbund is snug but comfortable.
4. **Testing:** Once installed, move around to ensure that the cummerbund is secure and does not shift or come loose.
5. **Usage:** Wear the cummerbund as part of the LV/119 Plate Carrier System, ensuring that all components are properly attached and functioning.

Disposal Instructions

When the cummerbund reaches the end of its useful life or if it becomes damaged beyond repair, follow these disposal instructions:

- Dispose of the cummerbund in accordance with local regulations regarding textile waste.
- If the cummerbund is made from materials that can be recycled, please consider recycling it at a designated facility.

Contact Information for Further Support

For any questions or concerns regarding the use and safety of the MOLLE Hook & Loop Cummerbund, please refer to the manufacturer's contact details included with your product packaging or visit the official website for additional support.

Conclusion

By following these safety instructions, you can ensure a safe and effective use of your MOLLE Hook & Loop Cummerbund. Always prioritize safety and proper maintenance to maximize the life and functionality of your product.
