

ULTRA™ MICROMETER SEATER DIES - FORSTER PRODUCTS, INC. 300 PRC MICROMETER SEATER DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Forster Reloading Dies are of excellent quality and provide the reloader with the ability to produce concentric rounds time and time again. Each die is manufactured from the finest quality steel carefully machined to very tight tolerances. Dies are hand polished both before and after the heat-treating process to guarantee an extra fine finish. All Forster reloading dies feature their Forster Cross Bolt Die Locking Ring that tightens the two ends of the split ring instead of tightening a screw directly into the threads of the die. The Forster Ultra Seater includes all of the features of the Forster Bench Rest Seater Die above, plus an ultra accurate micrometer adjustment. This micrometer adjustment allows you to adjust bullet seating depth from .0005 inch to .001 inch increments, and makes switching bullets easy - just dial back to your previous recorded setting. Forster Ultra Seaters make fine tuning your bullets to the lands of your rifling simple.

Attributes

- Name: [FORSTER PRODUCTS, INC. 300 PRC MICROMETER SEATER DIE](#)
- Manufacturer: [FORSTER PRODUCTS, INC.](#)
- Product no.: 430102675

ULTRA™ MICROMETER SEATER DIES SAFETY INSTRUCTION GUIDE

Introduction

Thank you for choosing the ULTRA™ MICROMETER SEATER DIES by Forster Products, Inc. These reloading dies are designed to provide you with precision and quality for your reloading needs. This guide contains important safety information to ensure the safe use of this product in compliance with the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- Ensure safe use of the ULTRA™ MICROMETER SEATER DIES by following all instructions.
- Be aware of potential hazards associated with reloading dies, including sharp edges and the risk of injury from improper handling.
- Always store the dies in a safe place, out of reach of children and vulnerable individuals.
- Regularly check for any product recalls and safety updates through the EU Safety Gate platform.
- Report any unsafe products or incidents to the relevant authorities.

Specific Safety Precautions for Use

- Always wear appropriate personal protective equipment (PPE), such as safety glasses and gloves, when using reloading dies.
- Keep your workspace clean and organized to prevent accidents.
- Do not use the dies if they appear damaged or if the locking mechanism is not functioning properly.
- Ensure that the die is properly installed and secured before use to avoid any accidents.
- Avoid overtightening the dies, as this can lead to damage or malfunction.
- Do not leave the dies unattended while in use.

Instructions for Installation and Usage

1. Installation

- Carefully unpack the ULTRA™ MICROMETER SEATER DIES and inspect for any damage.
- Ensure that you have the correct die for your cartridge (300 PRC).
- Install the die into your reloading press according to the manufacturer's instructions.
- Use the Forster Cross Bolt Die Locking Ring to secure the die in place.

2. Usage

- Adjust the micrometer setting to your desired bullet seating depth, ranging from .0005 inch to .001 inch increments.
- Ensure that the bullet is properly seated in the case before proceeding.
- Make adjustments carefully and refer to your previous settings for consistency.
- After use, clean the dies to maintain their condition and performance.

Disposal Instructions

- Dispose of packaging materials in accordance with local regulations.
- If the dies are no longer usable, check with local authorities for proper disposal methods to ensure environmental safety.

Contact Information for Further Support

For any questions or concerns regarding the ULTRA™ MICROMETER SEATER DIES, please refer to the manufacturer's contact information provided in the product documentation or visit the official website for assistance.

By following these safety guidelines and instructions, you can ensure a safe and effective reloading experience with your ULTRA™ MICROMETER SEATER DIES. Thank you for your attention to safety and responsible reloading practices.
