Safety Instruction Guide for Fix It Sticks Tool Kit for Sig Sauer MCX & MPX

Introduction

Thank you for choosing the Fix It Sticks Tool Kit for Sig Sauer MCX & MPX. This toolkit is designed to provide you with the essential tools for maintaining and customizing your firearm. Please read this safety instruction guide carefully to ensure the safe and effective use of this product.

General Safety Guidelines

- Ensure that the toolkit is used only for its intended purpose, which is the maintenance and repair of Sig Sauer MCX and MPX firearms.
- Always handle tools with care to avoid injury. Use the appropriate tool for each task.
- Keep the toolkit out of reach of children and unauthorized users.
- Inspect tools before use to ensure they are in good condition. Do not use damaged tools.
- Store the toolkit in a safe, dry place when not in use to prevent damage and maintain its effectiveness.
- Be aware of your surroundings when using tools, and ensure that no one is in your immediate area.

Specific Safety Precautions for Use

- When using the Ratcheting TWay Wrench, ensure that the locking mechanism is engaged before applying torque to prevent slippage.
- Always use the correct size socket or bit with the 1/2" Socket and Bit Adapter to avoid damage to fasteners.
- Use the Brass Hammer Head for tasks that require a nonmarring impact; avoid using metal hammers that could damage your firearm.
- When using Steel Pin Punches, ensure that your hands are clear of the striking area to avoid injury.
- Roll Pin Punches should be used with care; ensure that the pin is securely placed to prevent it from flying out during installation or removal.
- Store small components and screws in the Magnetic Patch to avoid losing them during disassembly.

Instructions for Installation and Usage

Installation

1. **Tool Preparation:** Before starting, ensure that all tools are clean and free from debris.
2. **Select the Appropriate Tool:** Choose the correct tool for the task at hand, such as selecting the right size bit for the fastener.
3. **Engage Safety Features:** If applicable, engage any safety features on the tools before use.

Usage

- **Using the Ratcheting TWay Wrench:** Attach the desired bit securely. Engage the wrench and apply pressure gradually.
- **Using the Torque Driver:** Set the desired torque level between 15 65 inchlbs. Apply torque slowly and steadily to prevent overtightening.
- **Using the Punches:** Position the punch over the pin and strike gently with the Brass Hammer Head. Ensure that the punch is aligned correctly to avoid damaging the firearm.
- **Using the Magnetic Patch:** Place small screws and components on the patch during disassembly to keep them organized.

Disposal Instructions

- Dispose of any broken or damaged tools in accordance with local regulations.
- Do not dispose of tools in regular household waste if they can be recycled. Check with local recycling facilities for proper disposal methods.
- For any nonrecyclable components, follow guidelines for hazardous waste disposal if applicable.

Contact Information for Further Support

For any safety inquiries, product support, or to report unsafe products, please refer to the designated EU contact point provided by the manufacturer.

By following these guidelines, you can ensure the safe use of the Fix It Sticks Tool Kit for Sig Sauer MCX & MPX, enhancing your firearm maintenance experience. Thank you for your attention to safety.
