## COMPACT SECTIONAL RODS FOR AR15/M16, 10.5-12.5 CONFIGURATION

[Gun Cleaning & Chemicals](#) > [Cleaning Rods & Accessories](#) > [Cleaning Rods](#)

CSR (Compact Sectional Rods) was originally conceived to be a short and compact sectional rods for dislodging stuck cases in the chamber when mortaring the AR15/M16 fails. The USGI cleaning rods are almost perfect for the job, except they're quite long. Forward Controls Design wanted shorter rods that can be carried in packs more easily. CSR can also be used as a cleaning rod with the provided brass jag, it is not its primary function, however. CSR is a kit consists of precision machined 17-4 stainless steel, short (4.8" max length) rods with bead blasted matte finish, also included are a machined brass jag, and 17-4 stainless steel plug/ram. CSR is based on the old M16 cleaning rods, they have done away with the folding T handle to reduce bulk when stowed. CSR has the following components: a handle (4.55"), standard length rods (4.8"), short rods (3.95"), a jag for cleaning patches, and a serrated plug for clearing stuck cases. Though designed so it can be stored inside Vltor and SOPMOD stocks storage compartments (10.5 - 12.5, and 14.5 - 16 kits only, 18 - 20 kit is too bulky), they don't believe in using the AR as a suit case or storage platform, and prefer to store their batteries and small spare parts, including the CSR, in the pack. CSR can be ordered with a hand made, custom pouch, it can also be stored in a pistol magazine pouch. In case CSR is carried in the stock, we provide with a 1" elastic nylon band that keeps the rods together and from rattling inside the stock's storage compartment. CSR is available in the following configurations: 10.5 - 12.5: 1 handle, 1 standard length rod, 2 short rods, 1 ram plug and 1 jag. 14.5 - 16: 1 handle, 3 standard length rods, 1 short rods, 1 ram plug and 1 jag. 18 - 20: 1 handle, 3 standard length rods, 2 short rods, 1 ram plug and 1 jag. NOTE CSR is incompatible with USGI cleaning rods attachments (chamber brush, jag, and bore brush), as it is threaded for 8-32, we will have a 8-32 to 8-36 adapter that allows the use of USGI cleaning rods attachments.

### Attributes

- Name: [FORWARD CONTROLS DESIGN COMPACT SECTIONAL RODS FOR AR15/M16, 10.5-12.5 CONFIGURATION](#)
- Manufacturer: [FORWARD CONTROLS DESIGN](#)
- Product no.: 430103550
- Mfr. No.: CSR 10.5-12.5
- Delivery weight: 1.225kg
- Shipping height: 13mm
- Shipping width: 102mm
- Shipping length: 165mm
- UPC: 687408648500

# **Safety Instruction Guide for COMPACT SECTIONAL ROD FORWARD CONTROLS DESIGN COMPACT SECTIONAL RODS FOR AR15/M16, 10.512.5 CONFIGURATION**

## **Introduction**

Thank you for choosing the Compact Sectional Rods (CSR) by Forward Controls Design. These rods are designed to assist in dislodging stuck cases in the chamber of AR15/M16 firearms and can also be used as a cleaning tool. This guide provides essential safety instructions and guidelines to ensure safe usage and maintenance of the product.

## **General Safety Guidelines**

- Always handle the CSR with care and ensure it is used in accordance with the intended purpose.
- Keep the CSR out of reach of children and vulnerable individuals to prevent misuse and accidents.
- Regularly inspect the CSR for any signs of wear or damage before use.
- Do not use the CSR if it is damaged or if components are missing.
- Follow all local laws and regulations regarding firearm maintenance and cleaning.

## **Specific Safety Precautions for Use**

- Ensure the firearm is unloaded before using the CSR.
- Always use the CSR in a wellventilated area to avoid inhaling any debris or cleaning agents.
- Wear appropriate personal protective equipment (PPE) such as safety glasses and gloves when using the CSR.
- Avoid using excessive force when dislodging stuck cases to prevent damage to the firearm or the CSR.
- Do not use the CSR for any purpose other than its intended use as specified in this guide.

## **Instructions for Installation and Usage**

### **1. Preparation**

- Ensure the firearm is completely unloaded and pointed in a safe direction.
- Gather all components of the CSR kit: handle, standard length rods, short rods, jag, and ram plug.

### **2. Assembly**

- Attach the desired length rod to the handle by screwing it securely into place.
- If using the jag, attach it to the end of the rod for cleaning purposes.

### **3. Using the CSR**

- To dislodge a stuck case, insert the rod into the chamber carefully.
- Apply gentle pressure while twisting the rod to free the stuck case.
- For cleaning, use the jag with a cleaning patch attached to clean the bore of the firearm.

### **4. Storage**

- After use, disassemble the CSR and clean any debris from the rods.
- Store the CSR in a safe, dry place, preferably in the provided custom pouch or a pistol magazine

pouch.

- If storing in the stock of a firearm, use the provided elastic nylon band to keep the rods secure and prevent rattling.

## **Disposal Instructions**

- Dispose of any damaged or worn components of the CSR in accordance with local regulations.
- Do not dispose of the CSR in regular household waste. Check for local recycling programs for metal components.

## **Contact Information for Further Support**

For any inquiries regarding safety, usage, or maintenance of the CSR, please consult the manufacturer or authorized dealers.

By following these guidelines, you can ensure the safe and effective use of the Compact Sectional Rods. Thank you for prioritizing safety during firearm maintenance.
