

COMPACT SECTIONAL ROD - FORWARD CONTROLS DESIGN

COMPACT SECTIONAL RODS FOR AR15/M16, 18-20 CONFIGURATION

[Gun Cleaning & Chemicals](#) > [Cleaning Rods & Accessories](#) > [Cleaning Rods](#)

CSR (Compact Sectional Rods) was originally conceived to be a short and compact sectional rods for dislodging stuck cases in the chamber when mortaring the AR15/M16 fails. The USGI cleaning rods are almost perfect for the job, except they're quite long. Forward Controls Design wanted shorter rods that can be carried in packs more easily. CSR can also be used as a cleaning rod with the provided brass jag, it is not its primary function, however. CSR is a kit consists of precision machined 17-4 stainless steel, short (4.8" max length) rods with bead blasted matte finish, also included are a machined brass jag, and 17-4 stainless steel plug/ram. CSR is based on the old M16 cleaning rods, they have done away with the folding T handle to reduce bulk when stowed. CSR has the following components: a handle (4.55"), standard length rods (4.8"), short rods (3.95"), a jag for cleaning patches, and a serrated plug for clearing stuck cases. Though designed so it can be stored inside Vltor and SOPMOD stocks storage compartments (10.5 - 12.5, and 14.5 - 16 kits only, 18 - 20 kit is too bulky), they don't believe in using the AR as a suit case or storage platform, and prefer to store their batteries and small spare parts, including the CSR, in the pack. CSR can be ordered with a hand made, custom pouch, it can also be stored in a pistol magazine pouch. In case CSR is carried in the stock, we provide with a 1" elastic nylon band that keeps the rods together and from rattling inside the stock's storage compartment. CSR is available in the following configurations: 10.5 - 12.5: 1 handle, 1 standard length rod, 2 short rods, 1 ram plug and 1 jag. 14.5 - 16: 1 handle, 3 standard length rods, 1 short rods, 1 ram plug and 1 jag. 18 - 20: 1 handle, 3 standard length rods, 2 short rods, 1 ram plug and 1 jag. NOTE CSR is incompatible with USGI cleaning rods attachments (chamber brush, jag, and bore brush), as it is threaded for 8-32, we will have a 8-32 to 8-36 adapter that allows the use of USGI cleaning rods attachments.

Attributes

- Name: [FORWARD CONTROLS DESIGN COMPACT SECTIONAL RODS FOR AR15/M16, 18-20 CONFIGURATION](#)
- Manufacturer: [FORWARD CONTROLS DESIGN](#)
- Product no.: 430103552
- Mfr. No.: CSR 18-20
- Delivery weight: 1.701kg
- Shipping height: 13mm
- Shipping width: 102mm
- Shipping length: 165mm
- UPC: 687408648524

Safety Instruction Guide for COMPACT SECTIONAL ROD FORWARD CONTROLS DESIGN

Introduction

Thank you for choosing the Compact Sectional Rods (CSR) designed for AR15/M16 configurations. This guide provides essential safety instructions and guidelines to ensure safe and effective use of the product. Please read this document carefully before using CSR.

General Safety Guidelines

- Ensure that the CSR is used only for its intended purpose as outlined in this guide.
- Always handle the CSR with care to avoid injury.
- Keep the CSR out of reach of children and vulnerable individuals.
- Inspect the CSR for any signs of damage or wear before each use. Do not use if damaged.
- Store the CSR in a safe and secure location when not in use.
- Follow all local laws and regulations regarding the use of cleaning rods and firearm maintenance.

Specific Safety Precautions for Use

- Always ensure that the firearm is unloaded before using the CSR.
- Avoid using excessive force when dislodging stuck cases to prevent damage to the firearm or CSR.
- Use the CSR only in a safe and controlled environment.
- Do not use the CSR for any purpose other than cleaning or dislodging stuck cases.
- Be cautious of sharp edges on the CSR and its components.
- When using the CSR in conjunction with cleaning patches or jags, ensure that they are compatible and securely attached.

Instructions for Installation and Usage

1. Preparation:

- Ensure that the firearm is completely unloaded.
- Gather all components of the CSR kit: handle, rods, jag, and plug.

2. Assembly:

- Attach the desired rod to the handle by screwing it securely.
- If using the jag, attach it to the end of the rod.

3. Usage:

- For cleaning: Insert the jag with a cleaning patch into the chamber and pull through the barrel.
- For dislodging stuck cases: Carefully insert the appropriate rod into the chamber and apply gentle pressure to dislodge the case.

4. Storage:

- When finished, disassemble the CSR and clean any residue.
- Store the CSR in its custom pouch or a suitable storage compartment to prevent damage.
- If storing in a stock, use the provided elastic nylon band to keep the rods together.

Disposal Instructions

- Dispose of any damaged components in accordance with local regulations.
- Do not dispose of the CSR in regular household waste. Instead, check for local recycling programs or hazardous waste disposal options.

Contact Information for Further Support

For any questions or concerns regarding the use of the CSR, please contact your retailer or the manufacturer directly. Ensure you have your product information ready to assist with your inquiry.

Conclusion

By following these safety instructions and guidelines, you can ensure a safe and effective experience with the Compact Sectional Rods. Always prioritize safety and responsible usage. Thank you for your attention and for choosing our product.
