AR-15 END PLATE W/ 3-QD SLING SWIVEL SOCKETS STEEL As is FCD's practice, ESF's shape is dictated by its functions. In order to accommodate the rear facing socket, and fill one of the design requirements that ESF must be able to use stakable castle nuts and allow the carbine stock to fully collapse, ESF has a slight increase in width on the sides, and small openings on the top of the sockets housing. These design cues do not affect ESF's structural integrity, and mostly go unnoticed by users, they merely reflect a paradox, that it can be quite complicated to create a simplified design. A seemingly simple product can often be more than meets the eye. End plate sling adapter for ARs Side and rear facing sockets Billet 4140 DLC Black or FDE Cerakote finishes NOTE: End plates that incorporate side facing QD swivel sockets can mask available wrench notches required for torquing. A conventional castle nut wrench has 3 lugs, in some cases, the socket housing may partially block access to one of them. A 2 lug castle nut wrench, such as the AR Multitasker, or our JCW (Joint Castle nut Wrench) would be required to torque the castle nut properly. ESF's receiver extension indexing tab can be tight on some receiver extensions.

## Attributes

- Name: [FORWARD CONTROLS DESIGN SLING ADAPTER END PLATE, ODG](#)
- Manufacturer: [FORWARD CONTROLS DESIGN](#)
- Product no.: 430103564
- Mfr. No.: ESF-H ODG
- Colour: O.D. Green
- Make: -
- Material: -
- Delivery weight: 0.726kg
- Shipping height: 20mm
- Shipping width: 83mm
- Shipping length: 140mm
- UPC: 682157948710

# Safety Instruction Guide for AR15 End Plate with 3QD Sling Swivel Sockets

## Introduction

Thank you for choosing the AR15 End Plate with 3QD Sling Swivel Sockets by Forward Controls Design. This product is designed to enhance the functionality of your AR15 while ensuring safety during use. Please read this safety instruction guide carefully to ensure proper installation, usage, and disposal of the product.

## General Safety Guidelines

- Ensure that the product is suitable for your specific AR15 model.
- Always follow the manufacturer's instructions for installation and usage.
- Regularly inspect the product for wear or damage before each use.
- Keep the product out of reach of children and vulnerable individuals.
- Report any unsafe conditions or accidents to the appropriate authorities.
- Check for recall updates on the EU's Safety Gate platform.

## Specific Safety Precautions for Use

- Use only compatible accessories with the AR15 End Plate.
- Avoid using excessive force when attaching or detaching the sling swivel sockets.
- Ensure that the castle nut is properly torqued to avoid any loosening during use.
- Be aware that the design of the end plate may affect access to wrench notches; use a 2lug castle nut wrench for proper torque.
- If the receiver extension indexing tab is tight, do not force it; seek professional assistance if necessary.

## Instructions for Installation and Usage

### 1. Installation Steps:

- Ensure that the firearm is unloaded and safe to handle.
- Remove the existing end plate from your AR15 by unscrewing the castle nut.
- Align the new end plate with the receiver extension and ensure that the indexing tab fits securely.
- Attach the castle nut and torque it appropriately using a compatible wrench.
- Doublecheck that the end plate is securely fastened and that the sling swivel sockets are functional.

### 2. Usage Instructions:

- Attach your sling to one of the QD swivel sockets provided.
- Ensure that the sling is securely fastened before use.
- Regularly check the attachment points for wear or damage during use.

## Disposal Instructions

- Dispose of the product in accordance with local regulations.
- Do not dispose of the product in regular household waste.
- If the product is damaged or no longer usable, consider recycling materials where possible.

## Contact Information for Further Support

For any inquiries regarding safety or product information, please reach out to the manufacturer or your local distributor. Ensure you have your product details ready for a more efficient response.

Thank you for your attention to these safety guidelines. Your safety and satisfaction are our top priorities.
