

SLING ADAPTER END PLATE, HVY, 1 SOCKET DLC BLACK - FORWARD CONTROLS DESIGN SLING ADAPTER END PLATE, HVY, 1 SOCKET DLC BLK

[Shooting Accessories](#) > [Slings & Sling Swivels](#) > [Tactical Sling Mounts](#)

ESF-H1 (End plate, Sling Adapter, Forward Controls Design, Heavy, 1 socket) is a drop in end plate replacement for the AR platform (both 223 and 308 spec). ESF-H1 is available in 4140 steel, DLC or phosphate coated versions. ESF has rotation limited side facing sockets. The rear facing socket has no limiters, as the receiver extension effectively limits the swivel's rotation. End plates that incorporate side facing QD swivel sockets can mask available wrench notches required for torquing. A conventional castle nut wrench has 3 lugs, in some cases, the socket housing may partially block access to one of them. A 2 lug castle nut wrench, such as the AR Multitasker, or our JCW (Joint Castle nut Wrench) would be required to torque the castle nut properly. ESF's receiver extension indexing tab can be tight on some receiver extensions. ESF-H1 (rear socket only) does not have rotation limiters, as the QD sling swivel is prevented from rotating 360 degrees by the receiver extension.

Attributes

- Name: [FORWARD CONTROLS DESIGN SLING ADAPTER END PLATE, HVY, 1 SOCKET DLC BLK](#)
- Manufacturer: [FORWARD CONTROLS DESIGN](#)
- Product no.: 430103565

SLING ADAPTER END PLATE Safety Instruction Guide

Introduction

Thank you for choosing the SLING ADAPTER END PLATE, HVY, 1 SOCKET DLC BLACK from FORWARD CONTROLS DESIGN. This product is designed for use with the AR platform and provides a secure attachment point for your sling. Please read this safety instruction guide carefully to ensure safe and proper use of the product.

General Safety Guidelines

- Ensure that the product is installed correctly to prevent accidents.
- Regularly inspect the sling adapter end plate for wear and damage.
- Always follow the manufacturer's instructions for installation and use.
- Keep the product out of reach of children and vulnerable individuals.
- Report any unsafe conditions or incidents to the appropriate authorities.

Specific Safety Precautions for Use

- **Potential Hazards:**
 - Improper installation may lead to sling failure.
 - Overtorquing the castle nut can damage the product.
- **Avoiding Hazards:**
 - Use a 2 lug castle nut wrench for proper torque application.
 - Ensure that the receiver extension indexing tab is compatible with your receiver.
 - Do not exceed the recommended torque specifications for the castle nut.
- **Age Specific Warnings:**
 - This product is intended for adult use only. Keep out of reach of children.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools, including a 2 lug castle nut wrench.
- Ensure your work area is clean and well lit.

2. Installation Steps:

- Remove the existing end plate from your receiver extension.
- Align the SLING ADAPTER END PLATE with the receiver extension.
- Secure the end plate using the castle nut.
- Use the 2 lug castle nut wrench to torque the castle nut properly.
- Ensure that the rear socket is oriented correctly for use.

3. Usage:

- Attach your sling to the designated socket.
- Check that the sling is securely fastened before use.
- Regularly inspect the connection for signs of wear or damage.

Disposal Instructions

- Dispose of any product packaging and components in accordance with local regulations.
- Do not dispose of the product in general waste if it contains hazardous materials.
- Contact your local waste management facility for proper disposal guidelines.

Contact Information for Further Support

For any questions or concerns regarding the SLING ADAPTER END PLATE, please reach out to the manufacturer or authorized distributor for assistance. Make sure to have your product information ready for a more efficient service.

By following these guidelines, you can ensure the safe and effective use of your SLING ADAPTER END PLATE. Thank you for your attention to safety and for choosing our product.
