

EJECTION PORT COVER WITH SINGLE DIMPLE - FORWARD CONTROLS DESIGN TDP SPEC EJECTION PORT COVER, SINGLE DIMPLE FDE

[Rifle Parts](#) > [Receiver Parts](#) > [Ejection Port Cover Parts](#) > [Ejection Port Covers](#)

EPC (Ejection Port Cover) is based on TDP dimensions, with thoughtful Forward Control touches. Billet machined from 7075 aluminum, and hard coat Type III anodized, it incorporates features Forward Controls Design think many will find useful. EPC has two "tabs" flanking the cutout for the port cover spring. These tabs allow the EPC to rest on the upper at a greater angle when it's in the down/open position, which provides more space between the port cover and lower receiver. Their job is to better allow the user's finger to get underneath the port cover when he wishes to swing it up/close. Another feature is a shallow circular depression on the side of the EPC to provide texture tactile feedback to the user's finger when he's closing the EPC. A flat surface provides nothing to the user to differentiate one surface from another, it also provides no traction. A shallow circular depression on the left side of the EPC does both. Forward Controls Design incorporate flat surfaces with care as they have their uses. In this case, EPC's exterior surface is treated as a control surface, where a flat surface rarely makes sense. EPC is compatible with TDP spec upper receivers. Weight: 0.30oz. Material: 7075 Construction and coating: billet, type III anodized. Proudly designed and made in the USA. NOTE: Initial closing and opening of EPC may be stiff, this is normal, and will become easier with 2 or 3 closing/opening cycles. Proudly designed and made in the USA.

Attributes

- Name: [FORWARD CONTROLS DESIGN TDP SPEC EJECTION PORT COVER, SINGLE DIMPLE FDE](#)
- Manufacturer: [FORWARD CONTROLS DESIGN](#)
- Product no.: 430103585
- Mfr. No.: EPC 1D FDE

Ejection Port Cover Safety Instruction Guide

Introduction

Thank you for choosing the Ejection Port Cover with Single Dimple from Forward Controls Design. This product is designed with safety and functionality in mind. Please read this safety instruction guide carefully to ensure proper use and maintenance of your Ejection Port Cover.

General Safety Guidelines

- Ensure safe handling and use of the Ejection Port Cover at all times.
- Familiarize yourself with the product and its features before installation and use.
- Always keep the Ejection Port Cover away from children and vulnerable individuals.
- Follow all local laws and regulations regarding firearm accessories and modifications.
- Regularly inspect the Ejection Port Cover for any signs of wear or damage.

Specific Safety Precautions for Use

- Do not force the Ejection Port Cover open or closed; it may become stiff initially.
- Always ensure that the firearm is unloaded before installing or handling the Ejection Port Cover.
- Avoid placing fingers near the moving parts of the Ejection Port Cover during operation.
- Use caution when closing the Ejection Port Cover to prevent pinching or injury.
- If you experience any difficulty with the Ejection Port Cover, consult the instructions or seek assistance.

Instructions for Installation and Usage

Installation

1. Ensure your firearm is completely unloaded.
2. Remove the existing port cover if applicable.
3. Align the Ejection Port Cover with the upper receiver.
4. Secure the Ejection Port Cover in place, ensuring it is properly seated.
5. Test the operation by opening and closing the cover; it may be stiff initially.

Usage

- To open the Ejection Port Cover, gently pull the tab upwards.
- To close, push the cover down until it is securely in place.
- Be aware of the shallow circular depression designed to provide tactile feedback when closing.

Disposal Instructions

- Dispose of the Ejection Port Cover in accordance with local regulations.
- If the product is damaged beyond use, consider recycling materials where applicable.

Contact Information for Further Support

For any inquiries regarding the Ejection Port Cover, please refer to the manufacturer's contact information provided with the product packaging or on the official website.

Important Note

Regularly check for updates on product recalls and safety alerts through the EU Safety Gate platform. Report any unsafe products or incidents to local authorities.

Thank you for your attention to these safety guidelines. Your safety and satisfaction are our top priorities.
