

AXON SWITCH - UNITY TACTICAL AXON SWITCH FOR SUREFIRE/DBAL LASER SYNC 7" FDE

[Shooting Accessories](#) > [Flashlights & Accessories](#) > [Flashlight Accessories](#)

The pinnacle of remote switch design for weapon-mounted accessories, AXON™ provides complete control of lights and lasers in a single, compact and rugged housing. AXON™ is the direct result of operational feedback from professional end-users on our industry leading switch technology. Lights and lasers can be fired from individual buttons with versions available for popular issued devices. Standard AXON™ models feature each button firing devices independently. SYNC models fire the laser independently, while the light button will fire both light and laser simultaneously. NGAL variants operate in a SYNC capacity, but offer a visible override feature for light and laser. Standard configuration is 7" cable length. AXON™ mounts directly to M1913 Rail or M-LOK® (with optional M-LOK® Mounting Kit). Its unique design provides tactile differentiation between the two buttons to eliminate confusion in dark, cold and high-stress situations. The light (angled) button features a switch that allows for both momentary and constant activation, while the laser button features a momentary-only button that supports the laser's double-click-for constant feature. SPECS MATERIAL - IMPACT RESISTANT POLYMER COMPATIBILITY - SUREFIRE®, NATO CRANE-SPEC PORT, NGAL (LA-23/PEQ)

AXON SWITCH UNITY TACTICAL Safety Instructions

Introduction

Thank you for choosing the AXON SWITCH UNITY TACTICAL. This product is designed to provide you with reliable control of weaponmounted lights and lasers. To ensure safe and effective use, please read and follow these safety instructions carefully.

General Safety Guidelines

- Ensure the product is used only for its intended purpose as described in the product specifications.
- Keep the product out of reach of children and unauthorized users.
- Inspect the product regularly for signs of wear or damage. Do not use if damaged.
- Report any unsafe conditions or accidents to the appropriate authorities.
- Check for recall updates on the EU's Safety Gate platform.

Specific Safety Precautions for Use

• Hazard Identification:

- Improper use may cause accidental activation of lights or lasers, leading to potential injury or damage.
- Ensure the product is securely mounted to prevent it from coming loose during use.

• Avoiding Hazards:

- Do not point the laser at eyes or reflective surfaces to prevent eye injury.
- Be aware of your surroundings and ensure that the light or laser is not used inappropriately in public areas.
- Use the momentary activation feature responsibly to avoid unintentional firing.

• Age and Audience Specific Warnings:

- This product is not intended for use by individuals under the age of 18 without adult supervision.
- Ensure that users are trained in the safe handling of weaponmounted accessories.

Instructions for Installation and Usage

• Installation:

- Ensure the weapon is unloaded and safe before installation.
- Mount the AXON SWITCH directly onto the M1913 Rail or MLOK® using the optional MLOK® Mounting Kit if necessary.
- Confirm that the switch is securely attached and does not interfere with the operation of the weapon.

• Usage:

- To activate the light, press the angled button. This button allows for both momentary and constant activation.
- To activate the laser, press the dedicated laser button. This button supports only momentary activation.

- For SYNC models, pressing the light button will activate both the light and laser simultaneously.
- Familiarize yourself with the tactile differentiation of the buttons to ensure proper operation in lowlight or highstress situations.

Disposal Instructions

- Dispose of the product in accordance with local regulations regarding electronic waste and hazardous materials.
- Remove batteries and dispose of them separately as required by local laws.

Contact Information for Further Support

For safety inquiries or additional support, please refer to the product packaging or user manual for the appropriate contact details relevant to your region.

Thank you for your attention to these safety instructions. Your safety and the safety of those around you is our top priority.
