

# MOUNT FOR AIMPOINT MICRO T-1 AND T-2 OPTIC - ARISAKA DEFENSE MOUNT FOR AIMPOINT MICRO T-1 AND T-2 OPTIC, 1.7" HEIGHT, TAN

[Optics & Mounting](#) > [Electronic Sights](#) > [Mounting Hardware](#)

The Patent Pending Arisaka Low Aimpoint Micro Mount is designed for the Aimpoint Micro T1 and T2 optics, and will also function with other red dots using the same footprint, including the Aimpoint H1/H2, Aimpoint Comp M5/M5S, Aimpoint Duty, Sig Romeo 5, Vortex Crossfire, and Holosun HS503/515/530. The 0.9" optic centerline matches up with the Arisaka Low Magnifier Mounts, and is ideal for use on firearms like the IWI Galil Ace, SAN Swiss SG550/SG551/SG552/SG553, and AK platforms. Please note: the Aimpoint Comp M5S and Aimpoint Duty are 10mm taller than the regular Aimpoint Micro red dot sights, which must be factored into the final height of the optic, and will prevent them from lining up with the Arisaka Low Magnifier Mounts. Weight (including screws): 1.6 oz Optic Centerline: 0.9" with Aimpoint Micro T1/T2 Each mount is CNC machined from 6061-T651 and 7075-T651 aluminum and MIL-A-8625 Type III hard coat black anodized. Anodizing colors may slightly vary from part to part and batch to batch, and is completely normal. Includes all necessary screws and tools to attach optic to mount. Recommended torque values: Picatinny clamp - 50 inch lbs (5.7 Nm) Optic to mount - 11.9 inch lbs (1.35 Nm) Additional mounting details: the Aimpoint Micro mounting interface features three horizontal surfaces and two angled surfaces. The optic is supposed to contact the mount only on the angled surfaces, which wedges it into place and prevents the optic from changing zero under recoil or harsh handling. It is completely normal to see a tiny gap between the optic and horizontal surfaces of the mount. Hardware: One 10-32x1.25" torx socket cap screw, four M3x4mm torx button head screw. Made in the USA.

# Safety Instruction Guide for Arisaka Defense Mount for Aimpoint Micro T1 and T2 Optic

## Introduction

Thank you for choosing the Arisaka Defense Mount for Aimpoint Micro T1 and T2 Optic. This guide provides essential safety instructions, installation guidelines, and disposal information to ensure safe and effective use of the product. Please read this guide carefully before using the mount.

## General Safety Guidelines

- **Product Safety:** This product is designed for safe use with Aimpoint Micro optics and similar red dot sights. Always ensure that the mount is compatible with your optic before installation.
- **Enhanced Recalls:** In the unlikely event of a safety recall, you will be notified through standardized notices. Please follow any instructions provided for returning or remedying the product.
- **Online Shopping:** If purchased online, ensure that the seller complies with EU safety regulations. You have the same protections as when buying in physical stores.
- **Special Consumer Focus:** This product is not intended for use by children. Keep all components out of reach of children to prevent accidents.
- **EU Contact Point:** For any safety inquiries, please refer to the appropriate EU contact point associated with this product.
- **Rapid Alerts:** Stay informed about any safety updates or recalls by checking the EU's Safety Gate platform.

## Specific Safety Precautions for Use

- **Installation:** Ensure that you follow all installation instructions carefully to avoid any hazards.
- **Compatibility:** This mount is designed specifically for Aimpoint Micro T1 and T2 optics. Using it with incompatible optics may result in improper fit and potential safety hazards.
- **Recoil Management:** The mount is designed to secure the optic in place during recoil. Ensure that the optic is properly seated to avoid losing zero.
- **Inspection:** Regularly check the mount and screws for wear or damage. Replace any worn components immediately.
- **Torque Specifications:** Adhere to the recommended torque values during installation to prevent damage:
  - Picatinny clamp: 50 inch lbs (5.7 Nm)
  - Optic to mount: 11.9 inch lbs (1.35 Nm)

## Instructions for Installation and Usage

1. **Gather Tools:** Ensure you have all necessary tools ready, including a torque wrench and the provided screws.
2. **Prepare the Optic:** Before installation, ensure the optic is clean and free from debris.
3. **Attach the Mount:**
  - Align the mount with the Picatinny rail on your firearm.
  - Using the provided torx socket cap screw, secure the mount to the rail. Tighten to the recommended torque specification.
4. **Attach the Optic:**
  - Position the optic onto the mount, ensuring that it contacts only the angled surfaces.
  - Secure the optic using the provided torx button head screws. Tighten to the recommended torque specification.
5. **Final Check:** After installation, doublecheck all screws for tightness and ensure there are no gaps between the optic and the mount.

## Disposal Instructions

- **Environmental Responsibility:** Dispose of the product in accordance with local regulations regarding electronic and metal waste.
- **Recycling:** If possible, recycle aluminum components to minimize environmental impact.

## Contact Information for Further Support

For any questions or concerns regarding the use of the Arisaka Defense Mount for Aimpoint Micro T1 and T2 Optic, please refer to the appropriate contact point for assistance.

Thank you for your attention to these safety instructions. Enjoy using your Arisaka Defense Mount safely and effectively!
