

MOUNT FOR AIMPOINT MICRO T-1 AND T-2 OPTIC - ARISAKA DEFENSE MOUNT FOR AIMPOINT MICRO T-1 & T-2 OPTIC, 1.93" HEIGHT, TAN

[Optics & Mounting](#) > [Electronic Sights](#) > [Mounting Hardware](#)

The Patent Pending Arisaka Low Aimpoint Micro Mount is designed for the Aimpoint Micro T1 and T2 optics, and will also function with other red dots using the same footprint, including the Aimpoint H1/H2, Aimpoint Comp M5/M5S, Aimpoint Duty, Sig Romeo 5, Vortex Crossfire, and Holosun HS503/515/530. The 0.9" optic centerline matches up with the Arisaka Low Magnifier Mounts, and is ideal for use on firearms like the IWI Galil Ace, SAN Swiss SG550/SG551/SG552/SG553, and AK platforms. Please note: the Aimpoint Comp M5S and Aimpoint Duty are 10mm taller than the regular Aimpoint Micro red dot sights, which must be factored into the final height of the optic, and will prevent them from lining up with the Arisaka Low Magnifier Mounts. Weight (including screws): 1.6 oz Optic Centerline: 0.9" with Aimpoint Micro T1/T2 Each mount is CNC machined from 6061-T651 and 7075-T651 aluminum and MIL-A-8625 Type III hard coat black anodized. Anodizing colors may slightly vary from part to part and batch to batch, and is completely normal. Includes all necessary screws and tools to attach optic to mount. Recommended torque values: Picatinny clamp - 50 inch lbs (5.7 Nm) Optic to mount - 11.9 inch lbs (1.35 Nm) Additional mounting details: the Aimpoint Micro mounting interface features three horizontal surfaces and two angled surfaces. The optic is supposed to contact the mount only on the angled surfaces, which wedges it into place and prevents the optic from changing zero under recoil or harsh handling. It is completely normal to see a tiny gap between the optic and horizontal surfaces of the mount. Hardware: One 10-32x1.25" torx socket cap screw, four M3x4mm torx button head screw. Made in the USA.

Attributes

- Name: [ARISAKA DEFENSE MOUNT FOR AIMPOINT MICRO T-1 & T-2 OPTIC, 1.93" HEIGHT, TAN](#)
- Manufacturer: [ARISAKA DEFENSE](#)
- Product no.: 430104524
- Mfr. No.: OM-MICRO-193-TN
- Colour: Tan
- Fits / Used For: Aimpoint Micro
- Height: 1.93"
- Weight: 0.1 lbs
- Delivery weight: 0.181kg
- Shipping height: 58mm
- Shipping width: 81mm
- Shipping length: 91mm
- UPC: 601557940209

Safety Instruction Guide for the Arisaka Defense Mount for Aimpoint Micro T1 and T2 Optic

Introduction

Thank you for choosing the Arisaka Defense Mount for Aimpoint Micro T1 and T2 Optic. This guide provides essential safety instructions and usage information to ensure the safe and effective use of your mount. Please read this guide carefully before installation and usage.

General Safety Guidelines

- Ensure that the mount is installed correctly to avoid accidents or damage to the optic and firearm.
- Regularly inspect the mount for any signs of wear or damage, especially after use.
- Keep the mount and optic away from children and vulnerable individuals to prevent misuse.
- Always follow the manufacturer's instructions for the optic being used with the mount.
- If you experience any issues with the mount or optic, cease use immediately and seek assistance.

Specific Safety Precautions for Use

- **Compatibility:** Ensure that the mount is compatible with your optic. The mount is designed for Aimpoint Micro T1 and T2 optics and may also fit other models with the same footprint.
- **Torque Specifications:** Adhere to the recommended torque values during installation:
 - Picatinny clamp: 50 inch lbs (5.7 Nm)
 - Optic to mount: 11.9 inch lbs (1.35 Nm)
- **Installation Surface:** Make sure the mounting surface is clean and free of debris before installation.
- **Recoil Consideration:** Be aware that the mount is designed to minimize changes in zero under recoil. Ensure proper contact between the optic and the angled surfaces of the mount for optimal performance.
- **Gap Observation:** It is normal to see a small gap between the optic and the horizontal surfaces of the mount. Do not attempt to force the optic into contact with these surfaces.

Instructions for Installation and Usage

1. **Gather Necessary Tools:** You will need the provided screws and tools for installation.
2. **Prepare the Mount:** Ensure that the mount is free of any debris and that the screws are not damaged.
3. **Attach the Optic:**
 - Position the optic on the mount, ensuring it aligns with the angled surfaces.
 - Secure the optic to the mount using the provided screws, following the torque specifications mentioned above.
4. **Mount to Firearm:**
 - Align the mount with the Picatinny rail on your firearm.
 - Secure the mount to the rail using the provided clamp screw, ensuring it is tightened to the specified torque.
5. **Final Inspection:** After installation, doublecheck all screws and connections to ensure everything is secure. Test the optic for proper function before use.

Disposal Instructions

- Dispose of the mount and any packaging materials in accordance with local regulations.
- If the mount becomes damaged or is no longer usable, please recycle it if possible. Do not dispose of it in regular household waste.

Contact Information for Further Support

For any questions or concerns regarding the Arisaka Defense Mount for Aimpoint Micro T1 and T2 Optic, please consult the manufacturer's website or contact their customer support for assistance.

Thank you for following these safety instructions. Your safety and satisfaction are our top priorities. Enjoy using your Arisaka Defense Mount!
