

# OFFSET LIGHT MOUNT - ARISAKA DEFENSE OFFSET SCOUT LIGHT MOUNT FOR MCX HANDGUARDS, FDE

[Optics & Mounting](#) > [Rings, Mounts & Bases](#) > [Rifle Bases](#)

The Patented Arisaka Offset Scout Mount is designed specifically for the Surefire Scout Light M600 and M300 series weapon lights, the Modlite PLH and OKW weapon lights, the Arisaka 300, 600 and 18650 Series Lights, the Streamlight Protac Rail Mount 1, 2 and HL-X (non-laser), and Olight Odin. It replaces the stock Picatinny rail adapter with a low profile mount for LWRC direct thread handguards. The Offset Scout Mount is very low profile at less than 0.20" thick. When used on the side mounting surfaces, the Offset Scout Mount places the light at a 45 degree angle and tucks it in closer to the rail system. Oriented upwards, the light is located at approximately the 1:30 or 10:30 clock positions. Oriented downwards, the light is located at approximately the 4:30 or 6:30 clock positions. The Offset Scout Mount also provides three lateral mounting positions for the light body, which allows the user to position the light closer or farther away from the top rail, front sights, or other accessories. Three positions are provided, spanning approximately 0.240". When used with the Arisaka 300 Series Light Body or 600 Series Light Body, even more clearance can be gained for larger front sights. Compatible with the Modlite PLH, PLHv2 and OKW, Surefire M300A, M300B, M300C, M300V, M312, M322, M312V, M313V, M322V, M600B, M600C, M600P, M600U, M600V, M600DF, M612, M622, M603V, M612V, M622V, Streamlight Protac Rail Mount 1, 2 and HL-X (non-laser), Olight Odin, CD REIN, and Arisaka 300, 600 and 18650 Series. The mount is CNC machined from 6061-T651 aluminum and MIL-A-8625 Type III hard coat anodized. Includes necessary screws to attach light body to mount. Requires an IP20 TorxPlus driver for installation (not included). A T9 Torx driver is required to remove the stock Picatinny mount from Surefire Scout Lights. Recommended torque: 30 inch lbs for M-Lok screws and 20 inch lbs for light body screws with Loctite 222 or 243. This product is covered by U.S. Patent No(s). 11385026 and other pending patents. Made in the USA." LWRC OFFSET SCOUT MOUNT Length: 1.66" / Weight: 0.4 oz Hardware: Four 8-32x3/8" Torx flat head screws. KEYMOD OFFSET SCOUT MOUNT When used on the side mounting surfaces of a KeyMod handguard, the Offset Scout Mount places the light at a 45 degree angle and tucks it in closer to the handguard. Oriented upwards, the light is located at approximately the 1:30 or 10:30 clock positions. Oriented downwards, the light is located at approximately the 4:30 or 6:30 clock positions. The Keymod Offset Scout Mount is compatible with most KeyMod handguards like the BCM KMR and KAC URX4. It will not fit the handguard profile of the Aero Precision Enhanced Gen 2, SIG MPX, or MCX (unless using the round suppressor width handguard). Length: 1.265" / Weight: 0.4 oz Hardware: Two BCM inverted KeyMod screws, two 8-32x5/16" Torx flat head screws. BCM KeyMod screws are covered under US Patent 9377274. Recommended torque: 20 inch lbs for KeyMod and light body screws with medium strength threadlocker. M-LOK OFFSET SCOUT MOUNT The M-LOK Offset Scout Mount is compatible with most M-Lok handguards like the BCM MCMR, KAC URX4, and Geissele SMR MK8/14/16. It will not fit the handguard profile of the Aero Precision Enhanced Gen 2, SIG MPX, or MCX Virtus (unless using the MCX suppressor width handguard). Aero Precision R-One and S-One owners should use the Offset Scout Mount Galil/MPX instead. Length: 1.265" / Weight: 0.4 oz Hardware: Two M-Lok nuts, two 10-24x5/16" Torx button head screws, two 8-32x3/8" Torx flat head screws. PICATINNY OFFSET SCOUT MOUNT When used on the side

mounting surfaces of Picatinny handguards, the Offset Scout Mount places the light at a 45 degree angle and tucks it in closer to the rail system. Oriented upwards, the light is located at approximately the 1:30 or 10:30 clock positions. Oriented downwards, the light is located at approximately the 4:30 or 6:30 clock positions. Length: 1.30" / Weight: 0.7 oz Hardware: One 10-32x1.25" Torx cap head screw, two 8-32x5/16" Torx flat head screws. GEISSELE SMR 416 OFFSET MOUNT The Patented Arisaka Offset Scout Mount for Geissele SMR 416 handguards was developed at the request of a United States special operations unit. This is a contract overrun, with a very limited number available for civilian sales. The Offset Scout Mount attaches directly to the threaded inserts on the Geissele SMR 416, eliminating additional Picatinny rails and Picatinny mounts. Three lateral light positions allow the user to tuck the light closer to the top rail or gain clearance around top rail mounted accessories like laser illuminators. In particular, there is enough clearance for the larger Modlite OKW and PLH heads to fit next to the NGAL, LA-5/PEQ, AN/PEQ15 and ATPIAL-C. It will also allow lights to clear the QD lever on the Steiner DBAL I2, A3, and D2. In addition to three lateral light positions, the mount also allows fore and aft adjustment so the user can fine tune the location of the light to their setup. Length: 2.20" / Weight: 0.9 oz including hardware Hardware: Two 10-32x3/8" Torx flat head screws, two 8-32x3/8" Torx flat head screws.

## Attributes

- Name: [ARISAKA DEFENSE OFFSET SCOUT LIGHT MOUNT FOR MCX HANDGUARDS, FDE](#)
- Manufacturer: [ARISAKA DEFENSE](#)
- Product no.: 430104542
- Mfr. No.: OSM-MCX-FDE
- Colour: Flat Dark Earth
- Material: Aluminum
- Model Number: MCX Handguard
- Number of Bases: -
- Style: M-LOK
- Delivery weight: 0.045kg
- Shipping height: 25mm
- Shipping width: 102mm
- Shipping length: 127mm
- UPC: 601557940117

# **Safety Instruction Guide for OFFSET LIGHT MOUNT ARISAKA DEFENSE OFFSET SCOUT LIGHT MOUNT FOR MCX HANDGUARDS, FDE**

## **Introduction**

Thank you for choosing the OFFSET LIGHT MOUNT ARISAKA DEFENSE OFFSET SCOUT LIGHT MOUNT FOR MCX HANDGUARDS, FDE. This guide provides essential safety instructions and usage guidelines to ensure the safe and effective operation of your product. Please read this document carefully before installation and use.

## **General Safety Guidelines**

- Ensure that the product is used only for its intended purpose as specified in the product description.
- Always follow the installation instructions carefully to prevent accidents or injury.
- Regularly inspect the light mount for any signs of wear or damage before use.
- Keep this product out of reach of children and vulnerable individuals to prevent misuse.
- If you notice any defects or malfunctions, stop using the product immediately and consult a professional.

## **Specific Safety Precautions for Use**

- Always ensure that the light is securely attached to the mount before use.
- Do not exceed the recommended torque specifications when installing screws to avoid damage.
- Use the appropriate tools as specified (IP20 TorxPlus driver and T9 Torx driver) to prevent injury.
- Avoid exposing the light mount to extreme temperatures or harsh environmental conditions.
- Be cautious when adjusting the light position to avoid pinching fingers or causing injury.

## **Instructions for Installation and Usage**

### **1. Installation Steps:**

- Gather all necessary tools and components, including the OFFSET LIGHT MOUNT and required screws.
- Ensure that the handguard is clean and free of debris before installation.
- Align the OFFSET LIGHT MOUNT with the desired mounting surface on the handguard.
- Use the appropriate screws to secure the mount in place, ensuring not to overtighten.
- If applicable, adjust the lateral light positions to achieve the desired distance from the top rail.

### **2. Usage Steps:**

- Once installed, attach the light body securely to the OFFSET LIGHT MOUNT using the provided screws.
- Ensure that the light is oriented correctly, either upwards or downwards, based on your preference.
- Test the light to ensure it functions properly and is securely mounted before use.
- Regularly check the mount and light for any signs of looseness or wear during use.

## **Disposal Instructions**

- Dispose of the product in accordance with local waste management regulations.
- Do not dispose of the product in regular household waste.
- Recycle materials where possible, including aluminum components.

## **Contact Information for Further Support**

For any questions or concerns regarding the OFFSET LIGHT MOUNT ARISAKA DEFENSE OFFSET SCOUT LIGHT MOUNT FOR MCX HANDGUARDS, FDE, please refer to the manufacturer's website or customer service for assistance.

By following these guidelines, you can ensure the safe use of your OFFSET LIGHT MOUNT and enhance your overall experience. Thank you for your attention to safety!
