

# OTB OVERT REAR PLATE BAG - SPIRITUS SYSTEMS OTB LV-119 REAR OVERT PLATE BAG (LARGE) - RANGER GREEN

[Home](#)

OTB OVERT Rear Plate Bag The LV/119 SYSTEM is a family of products that work together to give end-users the ability to scale their equipment to their current needs. The fact that this is a cohesive system means that end-users are able to mix and match accessories in most cases. For example: One could take a C O V E R T Front or Rear Plate bag and use it with an O V E R T Front and Rear Plate Bag. Users may cross pollinate cummerbunds, shoulder covers, and other pieces of the system. The SYSTEM encompasses many parts, some of which are currently available and some that are in development. These include Back Panels of various types, MOLLE cummerbunds, First Spear Tubes™ integrations, and different placards. Over The Beach Operations are some of the most challenging and miserable operations that service members must endure. We are proud to bring a suite of products that directly results in improved load carriage and soldier survival during sea borne operations. The OTB product line is built with a mesh material, which allows for quick drainage of water and sea borne debris such a sand. OTB products will dry faster after exiting the water and will drain water faster and more efficiently as well. The mesh also makes the products simple to clean using fresh water after conducting operations in salt environments. The Over The Beach (OTB) O V E R T shares the same profile as the C O V E R T and O V E R T plate bags but with modifications that make it more suitable for seaborne operations. Most noticeable the bags are made primarily of a hydrophobic mesh material. The LV/119 O V E R T OTB Rear Plate bag was built for those who need a scalable vest to wear in a multitude of environments including seaborne operations. The O V E R T OTB shares the same profile as the O V E R T and C O V E R T plate bags, while possessing additional features that make it more suitable for operations in the water. The rear plate bag features full integration of our Recovery Handle™. The rear bag also features more MOLLE webbing than the standard O V E R T, which aids in the integration of Personal Floatation Devices (PFD's). The rear bag also features zippers that will integrate into our back panels in the future. Recovery Handle™ Integration Full integration of our Recovery Handle™. NOTE: The Recovery Handle™ is NOT included with this product. Back Panel Support The rear bag also features minimal MOLLE webbing and Zippers for integrations with our Zip-on panels. Note: The back panel integration is proprietary and will not support other brands of back panels. Communications Cable Routing The Modern Warfighter and Law Enforcement Officer has a radio. To date, the majority of manufacturers have not taken end-user communications needs in to their design considerations - we endeavor to break that paradigm. The O V E R T offers open shoulders to facilitate comms cable routing inside the plate bags and over the shoulders. Cables may also be routed through the cummerbund access. Cummerbund Attachment The cummerbund attachment is a proprietary system that allows for the use of all of our cummerbunds, as well as allowing for a wide range of adjustment. The cummerbund attaches inside the plate bag, which is advantageous for a few reasons. There is no external mounting that can get snagged or rip off when exiting vehicles in haste. The design creates a smooth profile when worn underneath clothing. Velcro is not utilized as an attachment method on the rear plate bag. Velcro wears out over time and is a generally less-than-optimal attachment method when not supported in other ways. Velcro doesn't handle weight well and it sticks to everything, especially cloth

seats. Every front plate bag comes standard with sewn loops on the sides for attaching First Spear TUBES™ for use with our tubes cummerbund. Plate Fitment The carrier was designed to fit United States Standard Issue SAPI cut plates, but it will fit other cuts as well as long as they fit within the specifications listed below. The bags were built to accommodate "thicker" plates, but they will not fit plates do not fall within the measurements listed. Medium -10" x 12.5" Large - 10.25" x 13.25" Extra Large- 11" x 14.00" Thickness - MAXIMUM of 1.20" NOTE: This is a component of a Spiritus Systems LV/119 Plate Carrier build. To build a COMPLETE plate carrier you will need to select AT LEAST ONE of each of these items: Spiritus Systems Front Plate Bag Spiritus Systems Rear Plate Bag Spiritus Systems Shoulder Covers Spiritus Systems Cummerbund Set

## Attributes

- Name: [SPIRITUS SYSTEMS OTB LV-119 REAR OVERT PLATE BAG \(LARGE\) - RANGER GREEN](#)
- Manufacturer: [SPIRITUS SYSTEMS](#)
- Product no.: 430104663
- Mfr. No.: PC-RB-RG-LG
- Colour: Ranger Green
- Delivery weight: 0.23kg
- Shipping height: 25mm
- Shipping width: 279mm
- Shipping length: 178mm

# OTB OVERT Rear Plate Bag Safety Instructions

## Introduction

Thank you for choosing the OTB OVERT Rear Plate Bag by Spiritus Systems. This product is designed to provide a scalable and versatile solution for load carriage during various operations, including seaborne activities. Please read this safety instruction guide carefully to ensure safe and proper use of the product.

## General Safety Guidelines

- **Product Safety:** Ensure that the OTB OVERT Rear Plate Bag is used only for its intended purpose. Avoid using the product in ways that may pose risks to yourself or others.
- **Enhanced Recalls:** Stay informed about any recalls or safety notices related to this product. You can find updates on the EU's Safety Gate platform.
- **Online Shopping:** If purchased online, ensure that the retailer complies with EU safety requirements.
- **Special Consumer Focus:** This product is not intended for use by children. Always supervise its use in environments where children may be present.
- **EU Contact Point:** For any safety inquiries, please refer to the relevant EU-based contact for assistance.
- **Rapid Alerts:** Be aware of the Safety Gate system for faster updates on unsafe products.

## Specific Safety Precautions for Use

- **Hazard Identification:**
  - Avoid exposure to extreme temperatures, which may compromise the material integrity.
  - Be cautious of sharp objects that may puncture the bag.
  - Ensure that the bag is properly secured when in use to prevent accidents.
- **Instructions for Avoiding Hazards:**
  - Regularly inspect the bag for signs of wear and tear.
  - Do not overload the bag beyond its specifications.
  - Ensure that all attachments are securely fastened before use.
  - When using in water, ensure that the bag is properly sealed to prevent water ingress.
- **Agespecific Warnings:**
  - This product is designed for adult use only. Do not allow children to handle or use the bag.

## Instructions for Installation and Usage

- **Installation:**
  - Ensure that the bag is compatible with your Spiritus Systems Plate Carrier.
  - Attach the rear plate bag to the carrier using the provided attachment points. Follow the manufacturer's guidelines for securing the bag.
- **Usage:**
  - Adjust the cummerbund for a comfortable fit. Make sure it is snug but not overly tight.
  - Route communication cables through the designated openings to prevent tangling.
  - When wearing the bag, ensure that it does not obstruct your movement or visibility.
- **Care and Maintenance:**

- After use in saltwater, rinse the bag with fresh water to remove salt and debris.
- Allow the bag to dry completely before storing it.
- Do not use harsh chemicals or solvents for cleaning.

## **Disposal Instructions**

- **Disposal:**
  - When the bag reaches the end of its life cycle, dispose of it in accordance with local waste management regulations.
  - Do not burn the bag as it may release harmful substances.
  - Consider recycling if applicable, or check with local authorities for proper disposal methods.

## **Contact Information for Further Support**

For further assistance regarding the OTB OVERT Rear Plate Bag, please refer to the contact information provided by your retailer or manufacturer. Ensure that you have the product details ready for any inquiries.

Thank you for your attention to these safety guidelines. Enjoy using your OTB OVERT Rear Plate Bag safely and effectively.
