OTB SACK Pouch Over The Beach Operations are some of the most challenging and miserable operations that service members must endure. Spiritus Systems is proud to bring a suite of products that directly result in improved load carriage and soldier survival during sea-borne operations. The OTB product line is built with a mesh material, which allows for quick drainage of water and sea-borne debris such as sand. OTB products will dry faster after exiting the water and will drain water more efficiently as well. The mesh also makes the products simple to clean using fresh water after conducting operations in salt environments. The Sub Abdominal Carrying Kit or "SACK" is the most versatile tactical "fanny pack" on the market. It was designed to make critical equipment easy to access from both sides or when in a confined space like a vehicle. The pouch features a half zip design, which means that your equipment will not easily fall out of the pouch even if the zipper is left unsecured. The OTB Sack Pouch features a mesh segment at the bottom, which assists with drainage. The front of the pouch features a small zippered stash pocket that is constructed using a durable material, perfect for easy access to small items. The bottom of the pouch features two elastic loops that can be adjusted to hold a tourniquet or other equipment that you may need to rapidly deploy. If bottom carry doesn't fit your mission needs, you can easily remove and reinstall the loops as necessary. The inside features soft hook & loop on both sides, making the pouch very dynamic and allowing you to use our Velcro Insert Suite to fit your requirements. It also features two slide-locks that make it easy to adjust the tension of the elastic loops hanging below, as well as two tie-down loops for securing sensitive equipment. The two grommet holes on the bottom aid with drainage if submersion occurs. The SACK is designed to fit onto the bottom of Spiritus' Micro Fight Chest Rig, or any other plate carrier or rig that accommodates standard hook and loop, making it a versatile choice for those who frequently change load-outs. Simply pull it off one kit and add it to another. Some images shown with optional accessories, sold separately. Hook & loop attachment measures 7"x 4". NOTE: This is a component of a Spiritus Systems OTB (Over The Beach) LV/119 Plate Carrier build. To build the complete plate carrier that this pouch is compatible with, you will need to select at least one of each of these items: Spiritus Systems OTB Front Plate Bag Spiritus Systems OTB Rear Plate Bag Spiritus Systems OTB Tri Fold Shoulder Covers Spiritus Systems Cumberbund Set

# OTB SACK Pouch Safety Instruction Guide

## Introduction

Thank you for choosing the OTB SACK Pouch by Spiritus Systems. The OTB SACK Pouch is designed for Over The Beach operations, providing a versatile solution for load carriage and quick access to essential equipment. This guide outlines important safety information, usage instructions, and disposal recommendations to ensure safe and effective use of the product.

## General Safety Guidelines

To guarantee your safety and the safety of others while using the OTB SACK Pouch, please adhere to the following guidelines:

- **Product Safety:** Ensure that the pouch is used as intended. Avoid using the pouch for purposes other than those specified by the manufacturer.
- **Enhanced Recalls:** Stay informed about any product recalls. Check the EU's Safety Gate platform for updates on safety notices.
- **Online Shopping Protections:** If purchased online, ensure that the retailer complies with EU safety regulations.
- **Special Consumer Focus:** Keep the pouch out of reach of children to prevent accidents or misuse.
- **EU Contact Point:** For any safety inquiries, refer to the manufacturer's designated EU contact.
- **Rapid Alerts:** Be aware of any rapid alerts concerning the product through the Safety Gate system.

## Specific Safety Precautions for Use

When using the OTB SACK Pouch, please follow these specific safety precautions:

- **Avoid Overloading:** Do not exceed the recommended load capacity of the pouch to prevent damage or failure.
- **Check for Damage:** Before each use, inspect the pouch for any signs of wear or damage. Do not use if damaged.
- **Secure Fastenings:** Ensure all zippers and elastic loops are properly secured before engaging in operations.
- **Water Exposure:** While the pouch is designed for quick drainage, avoid prolonged submersion in water to maintain the integrity of the materials.
- **Proper Cleaning:** Clean the pouch with fresh water after use in saltwater environments to prevent material degradation.
- **Use in Safe Environments:** Avoid using the pouch in hazardous environments where equipment might be at risk of damage or loss.

## Instructions for Installation and Usage

To ensure the effective use of the OTB SACK Pouch, follow these installation and usage instructions:

### 1. Attachment to Carrier:

- The SACK is designed to fit onto the bottom of Spiritus' Micro Fight Chest Rig or any compatible plate carrier.
- Align the hook and loop attachment on the pouch with the corresponding area on the carrier.
- Press firmly to secure the pouch in place.

### 2. Adjusting Elastic Loops:

- To adjust the tension of the elastic loops, slide the two slidelocks to your desired tension.
- Ensure that the loops are securely holding any equipment, such as a tourniquet.

### 3. Using the Pouch:

- Open the half zip design to access your equipment. The design ensures that items do not fall out even if the zipper is unsecured.
- Utilize the small zippered stash pocket for easy access to smaller items.

### 4. Removing and Reinstalling Loops:

- If bottom carry does not fit your mission needs, simply remove the elastic loops by unthreading them from the designated attachment points.
- Reinstall as necessary based on your requirements.

### 5. PostOperation Care:

- After use, rinse the pouch with fresh water to remove any salt or debris.
- Allow it to air dry completely before storing.

## Disposal Instructions

When the OTB SACK Pouch reaches the end of its life cycle, please follow these disposal instructions:

- **Recycling:** Check local regulations for guidelines on recycling textile materials. If possible, recycle the pouch according to local recycling programs.
- **General Waste:** If recycling is not an option, dispose of the pouch in accordance with local waste disposal regulations.
- **Environmental Considerations:** Do not dispose of the pouch in water bodies or natural environments to prevent pollution.

## Contact Information for Further Support

For any questions, concerns, or safety inquiries regarding the OTB SACK Pouch, please refer to the manufacturer's designated contact point.

By following these guidelines and instructions, you can ensure the safe and effective use of the OTB SACK Pouch. Thank you for prioritizing safety and compliance with EU regulations.
