

MUTANT POUCH - SPIRITUS SYSTEMS MUTANT POUCH BLACK

[Shooting Accessories](#) > [Duty Gear](#) > [Pouches](#)

Mutant Pouch The Mutant Pouch is a multi-purpose sustainment storage solution that can be mounted to any MOLLE surface with four columns. The Pouch is divided into two main compartments and is built with a mixture of Cordura and laminated Squadron Fabrics. The main compartment features a top flap with double retention (Hook & Loop & Fastex Buckle Closure) and is designed to hold a high-capacity radio battery (like the BB-2590), 8x 5.56 STANAG magazines stacked parallel to the body, 5.56 link, or any other similar sized items. The double closure gives the user multiple gear retention options and will reduce slop in the pouch. The secondary compartment will securely hold a handheld radio unit via elastic retention loop and an adjustable shock cord retention lanyard. Radios like the Harris 152 and Persistent Systems MPU5 are compatible, as well as a whole range of other smaller handhelds like Baofeng and Motorola products. The retention lanyard can be adjusted for radio height and is connected with a fastex buckle at the base so that the operator can easily remove the radio from the pouch, even with tall antennas. This compartment will also hold 16oz water bottles and other accessories. The Mutant serves as the foundational pouch for the 34A Split Rig system, and when paired with a SPUD pouch on each panel, end users now have access to a full-featured sustainment chest rig platform that can accommodate a wide variety of weapon and radio systems.

Attributes

- Name: [SPIRITUS SYSTEMS MUTANT POUCH BLACK](#)
- Manufacturer: [SPIRITUS SYSTEMS](#)
- Product no.: 430104701
- Mfr. No.: PO-MU-BK

Safety Instruction Guide for the MUTANT POUCH by SPIRITUS SYSTEMS

Introduction

Thank you for choosing the MUTANT POUCH by SPIRITUS SYSTEMS. This multipurpose sustainment storage solution is designed for safe and effective use. Please read this safety instruction guide carefully to ensure optimal use and safety while using the product.

General Safety Guidelines

- Always ensure the pouch is securely mounted to a MOLLE surface before use.
- Inspect the pouch regularly for any signs of wear or damage.
- Do not overload the pouch beyond its intended capacity to avoid compromising its structural integrity.
- Keep the pouch away from extreme heat sources and open flames.
- Store the pouch in a dry place to prevent mold or mildew formation.
- Ensure that all closures (Hook & Loop & Fastex Buckle) are properly secured before movement.
- Be cautious when using the pouch in environments where it may come into contact with sharp objects.

Specific Safety Precautions for Use

- When storing a radio unit, ensure it is properly secured with the elastic retention loop and adjustable shock cord lanyard.
- Adjust the retention lanyard according to the height of the radio for optimal safety and accessibility.
- Be aware of the antenna height when removing the radio from the pouch to avoid accidental injury.
- Do not use the pouch for purposes other than its intended design, such as carrying hazardous materials.
- If using in a tactical environment, ensure that the pouch does not obstruct movement or visibility.

Instructions for Installation and Usage

1. Mounting the Pouch:

- Locate a MOLLE surface with at least four columns available.
- Slide the Pouch's straps through the MOLLE webbing, ensuring a secure fit.
- Pull the straps tight to eliminate any slack.

2. Storing Items:

- Open the top flap of the main compartment.
- Place items such as highcapacity radio batteries or STANAG magazines in the compartment.
- Secure the flap using the Hook & Loop and Fastex Buckle for double retention.
- For the secondary compartment, insert the handheld radio unit and secure it with the elastic retention loop and shock cord lanyard.

3. Adjusting the Retention Lanyard:

- Identify the desired height for the radio.
- Adjust the lanyard length by sliding the cord through the buckle.
- Ensure the lanyard is securely fastened to prevent accidental release.

4. Removing the Radio:

- To remove the radio, unfasten the Fastex buckle at the base of the lanyard.

- Carefully lift the radio out of the pouch, ensuring that the antenna does not get caught.

5. Cleaning and Maintenance:

- Wipe the exterior of the pouch with a damp cloth.
- Avoid using harsh chemicals or abrasives.
- Allow the pouch to air dry completely before storage.

Disposal Instructions

- Dispose of the pouch responsibly in accordance with local regulations.
- If the pouch is damaged beyond repair, consider recycling materials where possible.
- Do not dispose of the pouch in regular household waste if it contains hazardous materials.

Contact Information for Further Support

For any safety inquiries or further assistance regarding the MUTANT POUCH, please refer to the product's packaging or visit the manufacturer's website.

Thank you for prioritizing safety while using the MUTANT POUCH. Your adherence to these guidelines ensures a safe and effective experience.
