

DELTA BAG - SPIRITUS SYSTEMS DELTA BAG WOLF GREY

[Emergency & Survival Gear](#) > [Backpacks & Bags](#) > [Backpacks](#)

The Delta Bag is a compact, assault medic bag that is designed to be worn over a plate carrier and hold a wide variety of medical supplies and equipment. The front of the bag is divided into three uniformly sized compartments with diagonal zipper access that enables the end user to quickly access the entire pocket without having to reposition any of its contents. The unique configuration also aids in passive retention of gear when the compartment is opened. The main compartment of the Delta Bag is a clamshell design with two full fields of loop that can accept any hookbacked accessories (including the entire line of Spiritus Systems utility inserts, and other 3rd party products). The bag can be transported with the clamshell in the open position from location to location using the integrated briefcase handles, and provides an intuitive workstation when emergency medical care is being administered. The back side of the pack features two slim compartments for keeping flat-pack items secure and damage free, and keeps the pack close to the body when worn. The included straps for the delta bag are removeable and replaceable with any 3rd party straps that attach with 1" webbing. The bag features four sewn-in metal tri-glide mounting points for strap integration. The Delta bag features mesh and metal eyelets in key locations for full water drainage capability, and is designed to remain effective and accessible in austere environments.

Delta Bag Spiritus Systems Safety Instruction Guide

Introduction

Thank you for choosing the Delta Bag by Spiritus Systems. This compact assault medic bag is designed for effective use in various environments. Please read this safety instruction guide carefully to ensure safe and proper use of the product.

General Safety Guidelines

- Ensure that the Delta Bag is used only for its intended purpose as a medical supply carrier.
- Regularly inspect the bag for any signs of wear or damage.
- Keep the bag out of reach of children when not in use.
- Avoid overloading the bag to maintain proper functionality and ease of transport.
- Do not use the bag if any part is damaged or compromised.
- Ensure that all accessories used with the Delta Bag are compatible and securely attached.

Specific Safety Precautions for Use

- When opening compartments, be cautious of any sharp objects or tools that may be stored inside.
- Always secure the bag properly when worn to prevent it from shifting during movement.
- Use the integrated briefcase handles only for carrying the bag; do not use them for lifting heavy loads.
- Ensure that the straps are adjusted correctly to fit your body to avoid discomfort or injury.
- Be aware of your surroundings when using the bag in austere environments to avoid accidents or injuries.

Instructions for Installation and Usage

1. Preparation

- Before use, familiarize yourself with the various compartments and features of the Delta Bag.
- Check that all zippers and compartments are functioning correctly.

2. Loading the Bag

- Open the clamshell design to access the main compartment.
- Place medical supplies and equipment into the designated compartments, ensuring that heavier items are placed at the bottom for better balance.
- Secure all items to prevent shifting during transport.

3. Wearing the Bag

- Adjust the straps to fit comfortably over your plate carrier.
- Ensure the bag is close to your body and does not obstruct your movement.
- Test the stability of the bag by moving around before proceeding to your intended activity.

4. Transporting the Bag

- When moving the bag, use the integrated briefcase handles for easy carrying.
- If necessary, use the sewn-in metal triglide mounting points for additional strap integration.

5. Emergency Use

- In case of an emergency, quickly access the medical supplies by opening the appropriate

compartment.

- Ensure that you have a clear understanding of the supplies available and how to use them effectively.

Disposal Instructions

- When the Delta Bag is no longer needed or is damaged beyond repair, dispose of it in accordance with local waste management regulations.
- Remove all medical supplies and accessories from the bag before disposal.
- If the bag is made from materials that can be recycled, please recycle accordingly.

Contact Information for Further Support

For any safety inquiries or further support regarding the Delta Bag, please refer to the appropriate contact points provided by the manufacturer. Ensure that you have the product details ready for efficient assistance.

By following these safety instructions, you can ensure a safe and effective experience with your Delta Bag. Thank you for your attention to these guidelines, and stay safe.
