

AK ADJUSTIBLE GAS PISTON - KNS PRECISION ADJUSTABLE GAS PISTON SYSTEM BULGARIAN 5.45 KRINKOV

[Rifle Parts](#) > [Gas System Parts](#) > [Gas Pistons](#)

Control Your Overgassed AK-style Rifle

The AK platform, though renowned for its reliability and durability in battlefield conditions, has a well-known flaw: its gas system is hugely overgassed. Luckily, the market stepped up to provide a solution in the form of the KNS Precision AK Adjustable Gas Piston. How do you know if your AK-style rifle needs better gas regulation? Head to the range, fire a few rounds and see how far your brass ejects. If it's hitting the ground more than 15 feet away, then you need the KNS Precision AK Adjustable Gas Piston. This setup helps to reduce wear on the gun, providing for a longer operating life. Uses existing gas block Small-caliber piston designed for .223 Rem., 5.56 NATO and 5.45x39mm Large-caliber piston designed for 7.62x39mm, .308 Win., and 7.62x54R Fits AKM, AK-74, VEPR, PSL and M92 rifles Each KNS Precision AK Adjustable Gas Piston can be installed without the use of a gunsmith in the space of 10 minutes, ensuring you can get back onto the range with little downtime.

* Vepr and Saiga Pistons will require drilling through the op-rod after screwing the piston into the carrier, due to variations in the staking location. These Op-Rods are Phosphated instead of Nitrided to allow easy drilling.*

AK Adjustable Gas Piston Safety Instruction Guide

Introduction

Thank you for choosing the AK Adjustable Gas Piston by KNS Precision. This product is designed to enhance the performance of your AKstyle rifle by providing adjustable gas regulation. It is essential to use this product safely and correctly to ensure both your safety and the longevity of your firearm. This guide provides important safety information, installation instructions, and guidelines for proper use.

General Safety Guidelines

To ensure safe use of the AK Adjustable Gas Piston, please follow these guidelines:

- Always treat your firearm as if it is loaded.
- Keep the firearm pointed in a safe direction at all times.
- Store the gas piston and firearm in a secure place, out of reach of children and unauthorized users.
- Familiarize yourself with the operation and maintenance of your firearm before using this product.
- Always wear appropriate personal protective equipment (PPE) such as eye and ear protection when shooting.
- Be aware of your surroundings and ensure that the area is clear of people and obstacles before firing.

Specific Safety Precautions for Use

When using the AK Adjustable Gas Piston, consider the following precautions:

- Ensure that the gas piston is compatible with your specific model of AK rifle.
- Inspect the gas piston for any damage or defects before installation.
- Do not attempt to modify or alter the gas piston in any way.
- Make sure the firearm is unloaded before performing any installation or maintenance.
- Follow all manufacturer instructions regarding the operation of your AK rifle after installing the gas piston.
- If you experience any malfunctions or unusual behavior from your firearm, cease use immediately and consult a qualified gunsmith.

Instructions for Installation and Usage

Follow these steps to install and use the AK Adjustable Gas Piston safely:

1. Preparation:

- Ensure the firearm is unloaded and pointed in a safe direction.
- Gather necessary tools, including an appropriate wrench or tool for your specific gas block.

2. Installation:

- Remove the existing gas piston from your AK rifle following the manufacturer's instructions.
- Take the KNS Precision Adjustable Gas Piston and ensure it is clean and free of debris.
- Install the new gas piston into the existing gas block, ensuring it is seated correctly.
- Tighten any necessary screws or fasteners securely, but do not overtighten to avoid damage.
- Adjust the gas setting according to your desired performance and ammunition type.

3. Testing:

- After installation, take your rifle to a safe shooting range.

- Fire a few rounds to test the gas piston performance and ensure proper function.
- Observe the ejection pattern of the brass; if it ejects more than 15 feet away, consider adjusting the gas setting.

4. Maintenance:

- Regularly check the gas piston for wear and tear.
- Clean the gas piston and surrounding areas as part of your regular firearm maintenance routine.

Disposal Instructions

When disposing of the AK Adjustable Gas Piston, follow these guidelines:

- Do not dispose of the product in regular household waste.
- Check local regulations for proper disposal methods of metal and firearm components.
- Consider recycling the gas piston if possible, or take it to a designated hazardous waste facility.

Contact Information for Further Support

For any inquiries regarding the AK Adjustable Gas Piston, please consult the product packaging or official website for customer support information.

By following these guidelines and instructions, you will ensure a safe and effective experience with your AK Adjustable Gas Piston. Always prioritize safety and responsible firearm use.
