Control Your Overgassed AK-style Rifle

The AK platform, though renowned for its reliability and durability in battlefield conditions, has a well-known flaw: its gas system is hugely overgassed. Luckily, the market stepped up to provide a solution in the form of the KNS Precision AK Adjustable Gas Piston. How do you know if your AK-style rifle needs better gas regulation? Head to the range, fire a few rounds and see how far your brass ejects. If it's hitting the ground more than 15 feet away, then you need the KNS Precision AK Adjustable Gas Piston. This setup helps to reduce wear on the gun, providing for a longer operating life. Uses existing gas block Small-caliber piston designed for .223 Rem., 5.56 NATO and 5.45x39mm Large-caliber piston designed for 7.62x39mm, .308 Win., and 7.62x54R Fits AKM, AK-74, VEPR, PSL and M92 rifles Each KNS Precision AK Adjustable Gas Piston can be installed without the use of a gunsmith in the space of 10 minutes, ensuring you can get back onto the range with little downtime.

* Vepr and Saiga Pistons will require drilling through the op-rod after screwing the piston into the carrier, due to variations in the staking location. These Op-Rods are Phosphated instead of Nitrided to allow easy drilling.*

AK Adjustable Gas Piston Safety Instructions

Introduction

Thank you for choosing the AK Adjustable Gas Piston KNS Precision Adjustable Gas Piston System AK105 JBI Custom. This product is designed to enhance the performance of your AKstyle rifle by providing better gas regulation. Please read this safety instruction guide carefully to ensure safe usage and compliance with the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- Ensure that the product is used only as intended and according to the instructions provided.
- Always handle firearms with care and follow all safety protocols.
- Store the gas piston in a cool, dry place away from direct sunlight and moisture.
- Keep out of reach of children and unauthorized users.
- Regularly inspect the gas piston for signs of wear or damage before use.
- Report any unsafe products or accidents to the appropriate authorities.

Specific Safety Precautions for Use

- Always wear appropriate eye and ear protection when firing your rifle.
- Ensure that the rifle is unloaded before installing or adjusting the gas piston.
- Do not exceed the recommended caliber specifications for the gas piston.
- Be aware of your surroundings and ensure a safe shooting environment.
- If you experience excessive recoil or malfunctions, stop using the product immediately and consult a qualified gunsmith.

Instructions for Installation and Usage

1. Installation:

- Ensure the rifle is unloaded and pointed in a safe direction.
- Remove the existing gas piston from the gas block.
- Insert the KNS Precision AK Adjustable Gas Piston into the gas block, ensuring it is properly seated.
- Adjust the gas setting according to the manufacturer's recommendations for your specific ammunition type.
- Reassemble the rifle and perform a function check to ensure everything operates smoothly.

2. Usage:

- Fire a few rounds to test the gas piston's performance.
- Monitor the ejection pattern of the brass. If the brass ejects more than 15 feet, consider further adjustments.
- Regularly check the gas piston for proper function and cleanliness after each shooting session.

Disposal Instructions

- Dispose of the product in accordance with local regulations.
- Do not dispose of the gas piston in regular household waste.
- Contact local waste management authorities for information on proper disposal methods.

Contact Information for Further Support

For any inquiries or concerns regarding the AK Adjustable Gas Piston, please refer to the product packaging or visit the manufacturer's website for additional information and support.

By following these safety instructions, you can ensure a safe and enjoyable experience with your AK Adjustable Gas Piston. Thank you for your attention to safety and responsible firearm handling.
