## SI-S3 (SILENT STRATEGIC SYSTEM) SLING WITH KEVLAR LOOP.

[Shooting Accessories](#) > [Slings & Sling Swivels](#) > [Slings](#)

S3 Sling (Silent Strategic System) When Strike Industries began the design and development of the S3 Silent Strategic Sling Strike Industries meticulously researched process with the intent of creating a one of a kind sling system that gave the user both the strength and flexibility they require, coupled with seamless stealthy operational functions. Thus, they constructed a Nylon based sling with Kevlar loop attachments that cancel out any noise from friction of contact points. They've also added nylon covering over the YKK Hamerloc buckles to mask the sound of a quick detachment. They have put the sling through a series of rigorous stress tests to give the user powerful sling attachments that can withstand over 300 lbs. of force without give away any pliability. The S-3 is designed for optimal comfort, strength, and the guaranteed sustention of the element of surprise! Product Features: Nylon webbing is 1000D Kevlar loop attachment points, can withstand more than 300lbs of force YKK Hamerloc buckles Double Stitched for added reinforcement Easily adjusts to be used as a two point sling or one point sling Buckles are covered to conceal any sound or any light reflection Package Contents: x1 S3 Sling S3 Sling PRO Padded The S3, Silent Strategic Sling, was created with simplicity and stealth in mind. However, the lightweight sling isn't always ideal for extended carry, or for heavier weapon systems. For those that don't mind a little extra bulk, the S3 PRO is perfect for those looking for an ultra comfortable sling. Just like the original S3 Sling, the S3 Pro features silent operations, while adding a padded rear section to distribute weight. Additionally, the S3 PRO features an integrated elastic storage section ideal for tourniquet storage. Give your shoulder a break with the S3 Pro Padded Sling Product Features: Nylon webbing is 1000D. YKK Hamerloc buckles Double Stitched for added reinforcement Easily adjusts to be used as a two point sling or one point sling Comfortable padded shoulder section Tourniquet storage WARNING: Before every use, always check proper function of your sling and any wear and tear from use Always have your weapon in the SAFE position when not being fired Always follow all firearms safety rules and never point your weapon at anything you are not willing to destroy Package Contents: x1 S3 Pro Padded Sling -CALIFORNIA PROPOSITION 65 WARNING:- WARNING: This product contains chemicals known to the State of California to cause cancer and birth defects or other reproductive harm. # Safety Instruction Guide for SIS3 (Silent Strategic System) Sling

## Introduction

Thank you for choosing the SIS3 Sling (Silent Strategic System) by Strike Industries. This guide provides essential safety instructions and guidelines to ensure safe and effective usage of your sling. Please read this document carefully to understand the necessary precautions and instructions.

## General Safety Guidelines

- Ensure that the sling is used only for its intended purpose, which is to secure a weapon safely and comfortably.
- Always perform a thorough inspection of the sling before each use to check for any signs of wear or damage.
- Keep the sling away from children and ensure it is used only by individuals who understand its operation and safety requirements.
- Follow all local laws and regulations regarding the use of slings and firearms.
- Be aware of your surroundings and ensure that the weapon is pointed in a safe direction at all times.
- Store the sling in a safe place when not in use to prevent accidents.

## Specific Safety Precautions for Use

- **Inspection:** Before every use, inspect the sling for any wear and tear. Check the Kevlar loop attachments and buckles for integrity.
- **Weight Limit:** Do not exceed the weight limit of 300 lbs. on the sling. Exceeding this limit may result in failure of the sling.
- **Safe Position:** Always keep your weapon in the SAFE position when not being fired.
- **Quick Detachment:** When using the quick detach feature, ensure that the buckles are securely fastened before moving.
- **Environmental Considerations:** Avoid using the sling in extreme weather conditions that may affect its performance, such as heavy rain or snow.
- **Training:** Familiarize yourself with the operation of the sling and practice using it in a safe environment before relying on it in the field.

## Instructions for Installation and Usage

### 1. Installation:

- Attach the Kevlar loop to the designated mounting points on your weapon.
- Ensure that the YKK Hamerloc buckles are securely fastened and that the nylon webbing is adjusted to your preferred length.
- Make sure the buckles are covered to prevent any noise or light reflection.

### 2. Usage:

- Adjust the sling to fit comfortably over your shoulder or across your body.
- For twopoint sling configuration, ensure both ends are securely attached to the weapon.
- For onepoint sling configuration, attach the loop to a single point on the weapon and adjust for comfort.
- Utilize the padded section of the S3 PRO for extended carry to distribute weight evenly.

## Disposal Instructions

- Dispose of the sling responsibly according to your local regulations.
- Do not incinerate the sling, as it may release harmful substances.
- If the sling is damaged beyond repair, consider recycling the materials if possible.

## Contact Information for Further Support

For any inquiries regarding safety or product functionality, please refer to the manufacturer's website or contact your retailer for assistance.

**WARNING:** This product contains chemicals known to the State of California to cause cancer and birth defects or other reproductive harm. For more information, visit [www.P65Warnings.ca.gov](http://www.P65Warnings.ca.gov).

By following these guidelines, you can ensure a safe and effective experience with your SIS3 Sling. Thank you for your attention to safety and for choosing Strike Industries.
