

ENHANCED FOREGRIPS FOR M-LOK COMPATIBLE RIFLES - Edgar Sherman Design ENHANCED FOREGRIP FOR AR-15 RIFLE, RANGER GREEN

[Rifle Parts](#) > [Grip Parts](#) > [Foregrips](#)

The ESD EFG (Enhanced Fore Grip) was designed to ease end-users ability to control their rifle, mitigate recoil, and have faster, more accurate follow-through. From the angle of the ESD EFG to the width, it's made with human-centered design in mind. Its angle allows your wrist to be better aligned with your forearm thus strengthening your overall grip. The width of the ESD EFG fits perfectly with the length of the proximal flange of a user's hand. This is important because it means your fingers are getting a more consistent and reliable grip than that of standard rifle grips. The ESD EFG has grooves all along the main curve and on the back of the grip. This allows for more consistency when your hands are wet or while wearing gloves. The grooves and the flat wall on the back section of the ESD EFG allow for more stability in unconventional shooting positions and on barricades. The hook on the bottom of the ESD EFG helps maintain a consistent placement of your hand without the risk of slippage during sustained fire. The hook also benefits the end-user when utilizing barricades to help capture and stabilize the firearm. The ESD EFG is made up of a Nylon material designed to withstand significant amounts of force and high temperatures. The material is known for taking abuse and when broken it tears vs cracking. This is important because if you do manage to damage your EFG it won't be rendered useless and will allow you to finish the job at hand. The ESD EFGs are manufactured in Ranger Green, Flat Dark Earth (FDE), and Multicam are all cerakoted by friends at Weichel Coatings. ESD found their coatings to be the most consistent, and color and camo accurate. The ESD EFG is also compliant with firearms that are classified as pistols and is not classified as a vertical grip.

Attributes

- Name: [Edgar Sherman Design ENHANCED FOREGRIP FOR AR-15 RIFLE, RANGER GREEN](#)
- Manufacturer: [Edgar Sherman Design](#)
- Product no.: 430105396
- Mfr. No.: EFG-1.5-RG
- Attachment: M-LOK
- Colour: Ranger Green
- Material: Polymer
- Weapon type: AR-15
- Delivery weight: 0.045kg
- Shipping height: 19mm
- Shipping width: 76mm
- Shipping length: 89mm
- UPC: 850027445441

Item details

Made in USA

US export classification: 0A501.y.1

Safety Instruction Guide for Enhanced Foregrips for MLOK Compatible Rifles

Introduction

Thank you for purchasing the Enhanced Foregrip (ESD EFG) for your MLOK compatible rifle. This guide provides important safety instructions to ensure the safe use and installation of your product in compliance with the EU General Product Safety Regulation (GPSR). Please read this guide carefully before use.

General Safety Guidelines

- Ensure that the ESD EFG is installed correctly to prevent any accidents during use.
- Always handle firearms responsibly and in accordance with local laws and regulations.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the foregrip for any signs of wear or damage before each use.
- If you experience any issues or malfunctions, discontinue use immediately and seek assistance.
- Report any unsafe products or accidents to the appropriate authorities.
- Stay informed about recalls or safety alerts via the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Always wear appropriate eye and ear protection when using your firearm.
- Ensure that the rifle is unloaded when installing or adjusting the foregrip.
- Avoid using the foregrip in wet conditions if it is not designed for such use.
- Be cautious when using the foregrip in unconventional shooting positions or on barricades.
- Do not use the ESD EFG as a vertical grip; it is designed for specific handling and should not be misused.
- Ensure your hands are dry or use gloves that provide sufficient grip when handling the foregrip.

Instructions for Installation and Usage

1. Installation:

- Ensure the rifle is unloaded and pointed in a safe direction.
- Locate the MLOK slots on your rifle's handguard.
- Align the ESD EFG with the desired MLOK slot.
- Use the provided hardware to secure the foregrip in place. Ensure it is tightly fastened to avoid slippage during use.
- Check the stability of the foregrip after installation before proceeding to use the rifle.

2. Usage:

- Grip the ESD EFG firmly with your dominant hand, allowing your wrist to align with your forearm.
- Use your nondominant hand to stabilize the rifle as needed.
- Maintain a consistent hand position to enhance control and accuracy during shooting.
- Utilize the hook feature on the bottom of the ESD EFG to help stabilize your grip during sustained fire.

Disposal Instructions

- Dispose of the ESD EFG in accordance with local regulations regarding plastic and polymer materials.
- Do not dispose of the product in regular household waste.
- Consider recycling options where available to minimize environmental impact.

Contact Information for Further Support

For any inquiries regarding the Enhanced Foregrip, please refer to the manufacturer's website or customer service for assistance. Ensure you have the product details at hand for efficient support.

By following these guidelines, you can ensure the safe and effective use of your Enhanced Foregrip for MLOK compatible rifles. Thank you for your attention to safety, and enjoy your enhanced shooting experience!
