

SUPER 42 BRAIDED WIRE SPRING & H1 BUFFER - GEISSELE AUTOMATICS SUPER 42 BRAIDED WIRE BUFFER SPRING AND BUFFER COMBO, H3

[Rifle Parts](#) > [Receiver Parts](#) > [Recoil Parts](#) > [Recoil Buffers](#)

The Geissele Super 42 Spring was designed to improve the function and reliability of your AR-15 pattern rifle. Its unique spring design uses three independent strands of wire, just like the German MG42 Machine Gun. This concept acts as a harmonic damper and energy absorber by allowing the springs to flex separately from each other. This flex helps displace excess energy which decreases the chance of spring failure and assists with making your AR-15 more reliable. The included buffer is H1 weight. The Super 42 spring and Geissele buffer are designed to work together as a set; the spring will not fit over a standard buffer. If installed with a standard buffer damage to the rifle or receiver extension will occur.

Attributes

Safety Instruction Guide for Geissele Super 42 Braided Wire Spring & H1 Buffer Combo

Introduction

Thank you for choosing the Geissele Super 42 Braided Wire Spring & H1 Buffer Combo. This product is designed to enhance the performance and reliability of your AR15 pattern rifle. Please read this safety instruction guide carefully to ensure safe and effective use of the product.

General Safety Guidelines

- Always follow the manufacturer's instructions for safe use.
- Ensure that the product is installed correctly to avoid damage to your firearm.
- Regularly inspect the product for wear or damage before use.
- Store the product in a safe place, out of reach of children.
- Report any unsafe products or accidents to the relevant authorities.
- Check the EU's Safety Gate platform for recall updates on this product.

Specific Safety Precautions for Use

- This product is designed specifically for AR15 pattern rifles. Do not attempt to use it with other firearm models.
- The Super 42 spring is not compatible with standard buffers. Using it with a standard buffer may cause damage to your rifle or receiver extension.
- Ensure that the rifle is unloaded before installation or maintenance.
- Always wear appropriate safety gear, including eye protection, when handling firearms.
- If you experience any unusual behavior from the rifle during operation, cease use immediately and inspect the product.

Instructions for Installation and Usage

1. Preparation

- Ensure your AR15 is unloaded and pointed in a safe direction.
- Gather necessary tools for installation, including a wrench and a punch.

2. Installation Steps

- Remove the existing buffer and buffer spring from your AR15.
- Install the Geissele H1 buffer into the buffer tube.
- Carefully insert the Super 42 Braided Wire Spring into the buffer tube, ensuring it is seated properly.
- Reassemble any other components as needed, ensuring everything is secure.

3. Usage

- After installation, perform a function check to ensure the rifle operates correctly.
- Regularly clean and maintain your rifle and the installed components to ensure optimal performance.

Disposal Instructions

- Dispose of any damaged or worn components in accordance with local regulations.
- Do not dispose of firearms or firearm components in regular household waste.
- Contact local authorities or a licensed firearms dealer for proper disposal methods.

Contact Information for Further Support

For any questions or concerns regarding the Geissele Super 42 Braided Wire Spring & H1 Buffer Combo, please refer to the manufacturer's website or contact their customer support team directly.
