

# FULL LENGTH SIZING DIES - FORSTER PRODUCTS, INC. 7MM PRC BENCH REST FULL LENGTH SIZING DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Forster Reloading Dies are of excellent quality and provide the reloader with the ability to produce concentric rounds time and time again. Each die is manufactured from the finest quality steel carefully machined to very tight tolerances. Dies are hand polished both before and after the heat-treating process to guarantee an extra fine finish. All Forster reloading dies feature their Forster Cross Bolt Die Locking Ring that tightens the two ends of the split ring instead of tightening a screw directly into the threads of the die. Forster Full Length Sizing Dies are each equipped with their E-Z Out Expander button which helps keep case necks concentric during the neck expanding operation. It's positioned higher in the neck area than most other dies. This provides support and holds the axis of the neck and case in alignment while the case is withdrawn from the die.

## Attributes

- Name: [FORSTER PRODUCTS, INC. 7MM PRC BENCH REST FULL LENGTH SIZING DIE](#)

# Safety Instruction Guide for Forster Full Length Sizing Dies

## Introduction

Thank you for choosing the Forster Full Length Sizing Dies for your reloading needs. This guide provides essential safety instructions to ensure safe and effective use of the product. Please read this guide thoroughly before use.

## General Safety Guidelines

- Ensure that the product is used only for its intended purpose, which is to resize cartridge cases.
- Always wear appropriate safety gear, including eye protection, when using reloading equipment.
- Keep the reloading area clean and free from distractions to avoid accidents.
- Store all reloading equipment, including dies, in a secure location out of reach of children and pets.
- Regularly inspect your dies for signs of wear or damage. Do not use damaged dies.
- Follow all manufacturer instructions and guidelines when using the dies.

## Specific Safety Precautions for Use

- Ensure that the die is properly installed in your reloading press before use.
- Use the EZ Out Expander button as directed to maintain concentricity of the case necks.
- Do not exceed recommended load limits as specified in your reloading manual.
- Avoid using excessive force when resizing cases to prevent damage to the die and ensure safe operation.
- If you experience any unusual resistance or difficulty during operation, stop immediately and inspect the equipment.
- Keep hands and other body parts clear of moving parts during operation.

## Instructions for Installation and Usage

### 1. Installation:

- Ensure your reloading press is clean and free from debris.
- Insert the Forster Full Length Sizing Die into the press and tighten securely using the Forster Cross Bolt Die Locking Ring.
- Adjust the die to the desired height according to your press specifications.

### 2. Usage:

- Place a clean, empty cartridge case into the shell holder of your reloading press.
- Pull the handle to raise the ram and engage the die with the cartridge case.
- Apply steady, even pressure to resize the case.
- Once the operation is complete, lower the ram and remove the resized case.
- Inspect the resized case for any signs of damage or irregularities.

## Disposal Instructions

- Dispose of any damaged or wornout dies in accordance with local regulations.
- Do not dispose of reloading materials or components in regular household waste.
- Check with local authorities for proper disposal methods for hazardous materials.

## Contact Information for Further Support

For any safety inquiries or additional support regarding the Forster Full Length Sizing Dies, please refer to the contact details provided with your product packaging. Ensure that you have your product information handy when reaching out for assistance.

## Conclusion

By following these safety instructions, you can ensure a safe and effective reloading experience with your Forster Full Length Sizing Dies. Always prioritize safety and adhere to the guidelines provided to protect yourself and others during the reloading process.
