

# ULTRA™ MICROMETER SEATER DIES - FORSTER PRODUCTS, INC.

## 7MM PRC MICROMETER SEATER DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Forster Reloading Dies are of excellent quality and provide the reloader with the ability to produce concentric rounds time and time again. Each die is manufactured from the finest quality steel carefully machined to very tight tolerances. Dies are hand polished both before and after the heat-treating process to guarantee an extra fine finish. All Forster reloading dies feature their Forster Cross Bolt Die Locking Ring that tightens the two ends of the split ring instead of tightening a screw directly into the threads of the die. The Forster Ultra Seater includes all of the features of the Forster Bench Rest Seater Die above, plus an ultra accurate micrometer adjustment. This micrometer adjustment allows you to adjust bullet seating depth from .0005 inch to .001 inch increments, and makes switching bullets easy - just dial back to your previous recorded setting. Forster Ultra Seaters make fine tuning your bullets to the lands of your rifling simple.

### Attributes

- Name: [FORSTER PRODUCTS, INC. 7MM PRC MICROMETER SEATER DIE](#)
- Manufacturer: [FORSTER PRODUCTS, INC.](#)
- Product no.: 430106141

# ULTRA™ MICROMETER SEATER DIES SAFETY INSTRUCTION GUIDE

## Introduction

Thank you for choosing the ULTRA™ MICROMETER SEATER DIE from Forster Products, Inc. This guide provides essential safety instructions to ensure the safe use of your reloading die. Please read and follow these guidelines carefully to avoid any potential hazards during operation.

## General Safety Guidelines

- Ensure that the reloading die is used only for its intended purpose.
- Always wear appropriate safety gear, including eye protection, when reloading ammunition.
- Keep your workspace clean and organized to prevent accidents.
- Store the die in a safe place, out of reach of children and pets.
- Regularly inspect the die for any signs of wear or damage before use.
- Follow all local laws and regulations regarding ammunition reloading.
- Report any unsafe products or accidents to the relevant authorities.

## Specific Safety Precautions for Use

- Do not exceed the maximum load specifications for your reloading equipment.
- Always doublecheck measurements before making adjustments to avoid incorrect bullet seating.
- Use only compatible cartridges as specified in the product documentation.
- Ensure the die is securely attached to the reloading press before use.
- Avoid distractions while reloading to maintain focus and attention.
- If you experience any malfunction or irregularity during use, stop immediately and inspect the equipment.

## Instructions for Installation and Usage

### 1. Installation:

- Remove the ULTRA™ MICROMETER SEATER DIE from its packaging.
- Inspect the die for any visible damage or defects.
- Securely attach the die to your reloading press, ensuring that it is locked in place.
- Adjust the Forster Cross Bolt Die Locking Ring to ensure a tight fit.

### 2. Usage:

- Set the micrometer adjustment to your desired bullet seating depth.
- Load the cartridge case into the reloading press.
- Carefully lower the die onto the bullet, ensuring proper alignment.
- Apply consistent pressure to seat the bullet to the desired depth.
- After seating, check the cartridge for proper dimensions and ensure it meets safety specifications.
- Record your settings for future reference to facilitate easy adjustments.

## Disposal Instructions

- Dispose of any packaging materials in accordance with local waste disposal regulations.
- If the die is damaged beyond repair, contact your local waste management service for proper disposal methods.

## **Contact Information for Further Support**

For any questions or concerns regarding the ULTRA™ MICROMETER SEATER DIE, please consult the product documentation or reach out to your retailer for assistance.

Thank you for prioritizing safety while using your Forster reloading die. Enjoy your reloading experience responsibly!
