

BREECHTOOL™! CLEANING TOOLS - BROWNELLS BREECHTOOL ORIGINAL CLEANING TOOL

[Gunsmith Tools](#) > [Rifle Tools](#) > [Bolt Tools](#) > [Bolt Lapping Tools](#)

Cleans Critical Areas of Your Guns FASTER & MORE Thoroughly Than Traditional Cleaning Methods The Breechtool™ is an easy-to-use cleaning tool that helps you keep your firearms running smoothly and reliably. Proven through extensive testing, the Breechtool™ can easily reduce cleaning time by up to 40%! Use it to quickly and thoroughly remove the stubbornest carbon buildup from the most hard-to-reach areas of your guns. It's so compact you can carry it with you at all times. You'll have the peace of mind of knowing you can give your gun a cleaning at any time, reducing the risk of a malfunction at a critical moment. With proper use, the Breechtool™ cannot damage your firearm, and of course, it's covered by the Brownells Forever Guarantee. The Breechtool™ is so versatile you can use it to clean a wide variety of rifles, including the AR-15, AR-308, M16, M4, C7A2, AR-18, AR-180, BRN-180, H&K G36, FN SCAR, FN15, HK416, HK417. It works just as well on pistols such as the Glock®, Smith & Wesson M&P, Springfield Armory XD, SIG P320, CZ 75, and many, many other firearms not listed here! Breechtool™ Original consists of three components designed for specific cleaning tasks. The patented main tool lets you get cleaning patches into tight places previously untouched effectively by any other cleaning tool on the market. Its unique shape enables you to dislodge stubborn carbon and grit by allowing both clockwise and counter-clockwise movement because it does not rely on a threaded attachment. The unique brush head can be angled to scrub any dirty part of the firearm. Two grades of stiffness, indicated by green and black brush heads, are strong enough to dislodge anything and bounce back time after time. The nylon bristles are tough on fouling but soft enough not to damage any part of the gun. The brushes are easily cleaned in warm, soapy water, but eventually they will wear out. Replacement brush heads are available here on Brownells.com. The pin tool is very useful for getting into hard-to-reach places. The straight, flat edge is excellent for scraping off carbon deposits, especially on gas system components. Breechtool Lite™ is the entry-level Breechtool™ for those on a budget who still want to do serious cleaning quickly. Its simplified profile lets you take advantage of the scrubbing action of the brush heads and the main tool, but it lacks the pin tool or folding joint. The handy Breechtool™ Ops Pack consists of the Original Breechtool™ and five (5) each of the Black and Green brush heads. Hasn't Scratched Yet, Never Will: The material of the Breechtool™ body is made of high-quality 304 Sheffield Stainless steel, which has about half the Vickers hardness of the barrels and barrel extensions on most modern rifles. The brush heads are made of non-marring Nylon 610, which is very oil resistant. All of this means the Breechtool™ will not - and has NEVER - damaged a firearm since 2009. Background & Development: The Breechtool™ is the result of close collaboration with a huge group of specialists, including input from members of the armed forces of the United Kingdom, United States, and other countries. Development started in the U.K. in 2009 with direct involvement of soldiers, armorers, the Small Arms School Corps (SASC), and the Infantry Trials and Development Unit (ITDU) of the British Army, in conjunction with the University of Northumbria's School of Computing Engineering and Information Sciences. It later surpassed all tests and requirements of the U.K. Police Firearms Units, enabling the Breechtool's manufacturer to become an official supplier to these units.

Attributes

- Name: BROWNELLS BREECHTOOL ORIGINAL CLEANING TOOL
- Manufacturer: BROWNELLS
- Product no.: 430106892
- Mfr. No.: 2
- Delivery weight: 0.199kg
- Shipping height: 3mm
- Shipping width: 76mm
- Shipping length: 178mm
- UPC: 050806000643

Breechtool™ Cleaning Tool Safety Instructions

Introduction

Thank you for choosing the Breechtool™ Cleaning Tool. This guide provides important safety information and instructions to ensure the safe and effective use of your cleaning tool. Please read this document carefully before using the product.

General Safety Guidelines

- Ensure you are familiar with the operation of your firearm before using the Breechtool™.
- Always follow the manufacturer's instructions for your firearm.
- Use the Breechtool™ only for its intended purpose: cleaning firearms.
- Keep the Breechtool™ out of reach of children and vulnerable individuals.
- Inspect the Breechtool™ for any damage before use. Do not use if damaged.
- Report any unsafe products or accidents to the appropriate authorities.
- Stay informed about recall updates on the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Always ensure the firearm is unloaded before cleaning.
- Use the Breechtool™ in a wellventilated area.
- Avoid contact with the brush heads while they are in motion.
- Do not use excessive force when using the Breechtool™ to prevent damage to the firearm.
- Be cautious of sharp edges on the Breechtool™ body and brush heads.
- Do not attempt to modify the Breechtool™ in any way.

Instructions for Installation and Usage

1. Preparation:

- Ensure your firearm is completely unloaded.
- Gather all necessary cleaning supplies, including the Breechtool™.

2. Using the Breechtool™:

- Select the appropriate brush head based on the level of fouling.
- Attach the brush head to the main tool securely.
- Insert the tool into the area of the firearm you wish to clean.
- Use a gentle scrubbing motion to remove carbon buildup and dirt.
- For hardtoreach areas, use the pin tool to scrape off carbon deposits.
- Clean the brush heads in warm, soapy water after use.

3. PostUse:

- After cleaning, inspect the firearm to ensure it is free of cleaning residue.
- Store the Breechtool™ in a safe, dry place, away from children.

Disposal Instructions

- Dispose of the Breechtool™ in accordance with local regulations.
- Do not dispose of any components in household waste if they are damaged or broken.
- Contact local waste management authorities for specific disposal instructions.

Contact Information for Further Support

For any inquiries or support regarding the Breechtool™, please refer to the manufacturer's contact details available on the product packaging or the official website.

Thank you for prioritizing safety while using the Breechtool™ Cleaning Tool. Your adherence to these guidelines ensures a safe and effective cleaning experience.
