

XL ULTRA"! MICROMETER SEATER DIES - FORSTER 375 CHEYTAC SEATER DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Forster Reloading Dies are of excellent quality and provide the reloader with the ability to produce concentric rounds time and time again. Each die is manufactured from the finest quality steel carefully machined to very tight tolerances. Dies are hand polished both before and after the heat-treating process to guarantee an extra fine finish. All Forster reloading dies feature their Forster Cross Bolt Die Locking Ring that tightens the two ends of the split ring instead of tightening a screw directly into the threads of the die. The Forster Ultra Seater includes all of the features of the Forster Bench Rest Seater Die above, plus an ultra accurate micrometer adjustment. This micrometer adjustment allows you to adjust bullet seating depth from .0005 inch to .001 inch increments, and makes switching bullets easy - just dial back to your previous recorded setting. Forster Ultra Seaters make fine tuning your bullets to the lands of your rifling simple. These are XL dies that are 1-1/4" built for the XL Coax Press and large cartridges

XL ULTRA! MICROMETER SEATER DIES FORSTER 375 CHEYTAC BULLET SEATER DIE Safety Instruction Guide

Introduction

Thank you for choosing the XL ULTRA! MICROMETER SEATER DIES FORSTER 375 CHEYTAC BULLET SEATER DIE. This guide provides essential safety instructions to ensure the safe use of this product. Please read and follow these guidelines carefully to minimize risks and enhance your reloading experience.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose.
- Familiarize yourself with all components of the die before use.
- Always wear appropriate personal protective equipment (PPE), such as safety glasses and gloves, when handling reloading equipment.
- Keep the workspace clean and organized to prevent accidents.
- Store the dies in a secure location, away from children and unauthorized users.
- Regularly inspect the dies for wear or damage before each use.
- Be aware of your surroundings and avoid distractions while reloading.

Specific Safety Precautions for Use

• Hazard Identification:

- Risk of injury from sharp edges on the die.
- Potential for misfires or improper seating if not used correctly.
- Risk of lead exposure; ensure good ventilation and wash hands after handling bullets.

• Avoiding Hazards:

- Handle the dies with care to avoid cuts or injuries.
- Follow the manufacturer's instructions for bullet seating depth adjustments to prevent misfires.
- Avoid using the die with damaged or defective components.

• AgeSpecific Warnings:

- This product is intended for use by individuals aged 18 years and older.
- Ensure that minors are supervised if they are present during the reloading process.

Instructions for Installation and Usage

• Installation:

1. Ensure the XL Coax Press is securely mounted on a stable surface.
2. Insert the Forster Bullet Seating Die into the press and tighten the locking ring securely.
3. Adjust the die to the desired seating depth using the micrometer adjustment feature.

• Usage:

1. Prepare your cartridge cases and ensure they are clean and free from obstructions.
2. Select the appropriate bullets for the 375 Cheytac cartridge.

3. Insert a bullet into the case mouth and position it under the die.
4. Activate the press to seat the bullet to the desired depth.
5. Repeat the process for each cartridge, ensuring to dial back the micrometer to previous settings for consistency.

- **PostUsage:**

- Clean the dies after each use to remove any residue.
 - Store the dies in a protective case to prevent damage.

Disposal Instructions

- Dispose of any unused or damaged components in accordance with local regulations.
- Do not dispose of lead bullets in regular trash; check with local waste management for proper disposal methods.
- Ensure that all packaging materials are disposed of responsibly and recycled where possible.

Contact Information for Further Support

For safety inquiries or additional support, please refer to the manufacturer's website or customer service resources. It is important to have access to reliable information regarding product safety and usage.

By following these safety guidelines, you can ensure a safe and effective reloading experience with the XL ULTRA! MICROMETER SEATER DIES FORSTER 375 CHEYTAC BULLET SEATER DIE. Always prioritize safety and stay informed about best practices in reloading.
