

ULTRA MICROMETER SEATER AND FULL LENGTH SIZING DIES SET - FORSTER 408 CHEYTAC FULL LENGTH DIE SET

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The Forster Full Length Die sets include their Ultra Micrometer Seater die and a Full Length Sizing Die. Forster Full Length Sizing Dies are each equipped with their E-Z Out Expander button which helps keep case necks concentric during the neck expanding operation. It's positioned higher in the neck area than most other dies. This provides support and holds the axis of the neck and case in alignment while the case is withdrawn from the die. The Forster Ultra Seater includes all of the features of the Forster Bench Rest Seater Die above, plus an ultra accurate micrometer adjustment. This micrometer adjustment allows you to adjust bullet seating depth from .0005 inch to .001 inch increments, and makes switching bullets easy - just dial back to your previous recorded setting. Forster Ultra Seaters make fine tuning your bullets to the lands of your rifling simple. These dies use 1-1/4" threads which is larger than the standard reloading die and are intended to be used with Presses similarly threaded like the Forster Co-Ax XL Press.

Attributes

- Name: [FORSTER 408 CHEYTAC FULL LENGTH DIE SET](#)

Safety Instruction Guide for ULTRA MICROMETER SEATER AND FULL LENGTH SIZING DIES SET FORSTER 408 CHEYTAC FULL LENGTH DIE SET

Introduction

Thank you for choosing the Forster Ultra Micrometer Seater and Full Length Sizing Dies Set for your reloading needs. This guide provides essential safety instructions and guidelines to ensure the safe and effective use of this product. Please read this document carefully before using the dies set.

General Safety Guidelines

- Ensure that the dies set is used only by individuals who are familiar with reloading practices and safety measures.
- Always wear appropriate safety gear, including eye protection, when using reloading equipment.
- Keep the dies set out of reach of children and unauthorized persons.
- Inspect the dies set for any damage or wear before each use. Do not use if any parts are damaged.
- Follow all local laws and regulations regarding ammunition reloading and use.

Specific Safety Precautions for Use

- **Hazard Identification:**
 - Improper use of the dies may lead to accidents or injuries.
 - Ensure that the dies are compatible with your reloading press before use.
- **Avoiding Hazards:**
 - Do not exceed the recommended bullet seating depths to prevent dangerous overpressure situations.
 - Always adjust the micrometer settings carefully to avoid sudden changes in bullet seating depth.
 - Ensure that the case is properly aligned in the die to prevent misfires or damage.
- **Age Specific Warnings:**
 - This product is intended for use by adults only. Minors should only use this product under adult supervision.

Instructions for Installation and Usage

- **Installation:**
 1. Ensure that your reloading press is clean and free of debris.
 2. Thread the Full Length Sizing Die into the press using the 11/4" threads. Tighten securely but do not overtighten.
 3. Install the Ultra Micrometer Seater Die in the same manner.
 4. Adjust the dies according to your specific reloading requirements.
- **Usage:**
 1. Prepare your cases by cleaning and inspecting them for defects.
 2. Insert the case into the Full Length Sizing Die and operate the press to size the case.
 3. Remove the sized case and inspect it for proper sizing.
 4. For bullet seating, place a bullet on the case mouth and insert it into the Ultra Micrometer Seater Die.
 5. Adjust the micrometer to your desired seating depth, ensuring it is set correctly before pressing the bullet into the case.

6. After seating, inspect the assembled cartridge for proper bullet seating and overall appearance.

Disposal Instructions

- Dispose of any unused or defective components in accordance with local regulations.
- Do not dispose of reloaded ammunition in regular trash. Follow local guidelines for hazardous waste disposal.

Contact Information for Further Support

For any questions or concerns regarding the safety and use of the Forster Ultra Micrometer Seater and Full Length Sizing Dies Set, please reach out to the appropriate support channels available in your region.

Conclusion

By following the safety instructions outlined in this guide, you can ensure a safe and efficient reloading experience with your Forster dies set. Always prioritize safety and adhere to best practices in ammunition reloading. Thank you for your attention to these important safety guidelines.
