

SUPER 42 RIFLE LENGTH SPRING - GEISSELE AUTOMATICS SUPER 42 RIFLE LENGTH SPRING

[Rifle Parts](#) > [Receiver Parts](#) > [Recoil Parts](#) > [Recoil Springs](#)

Super 42 Rifle Length Spring The Super 42 Rifle Length Spring for the M-16/AR-15, brings you the performance and user experience improvement of the Super 42 spring for your rifle length buffer tube. This unique spring design uses three independent strands of wire, that acts as a harmonic damper and energy absorber by allowing the springs to flex separately from each other. This flex helps displace excess energy which decreases the chance of spring failure and assists with making your M-16/AR-15 rifle more reliable while diminishing the “twang” sound from the butt-stock. The Geissele M-16/AR-15 Super 42 Rifle Length Spring works with a standard rifle length buffer and buffer tube.

Attributes

- Name: [GEISSELE AUTOMATICS SUPER 42 RIFLE LENGTH SPRING](#)
- Manufacturer: [GEISSELE AUTOMATICS](#)
- Product no.: 430107547

SUPER 42 Rifle Length Spring Safety Instruction Guide

Introduction

Thank you for choosing the SUPER 42 Rifle Length Spring by Geissele Automatics. This guide provides essential safety instructions to ensure the safe and effective use of your new recoil spring. Please read this guide carefully before installation and use.

General Safety Guidelines

- Ensure safe use of the SUPER 42 Rifle Length Spring by following these guidelines:
 - Always handle firearms with care and respect.
 - Store the spring in a secure place, away from children and unauthorized users.
 - Use the spring only with compatible M16/AR15 rifle length buffer tubes.
 - Regularly inspect the spring for wear or damage before use.
 - Report any unsafe conditions or incidents related to the product to the appropriate authorities.

Specific Safety Precautions for Use

- When using the SUPER 42 Rifle Length Spring, please observe the following precautions:
 - Do not exceed the manufacturer's specifications for the rifle and buffer tube.
 - Ensure that all components of the rifle are properly installed and functioning before use.
 - Avoid using the spring in extreme environmental conditions that may affect its performance.
 - Do not modify the spring or its components in any way.
 - If you experience any unusual sounds or malfunctions during use, cease operation immediately and inspect the spring and rifle.

Instructions for Installation and Usage

1. Installation of the SUPER 42 Rifle Length Spring:

- Ensure the rifle is unloaded and pointed in a safe direction.
- Remove the existing buffer and buffer spring from the rifle.
- Insert the SUPER 42 Rifle Length Spring into the buffer tube.
- Reinstall the buffer into the buffer tube, ensuring it is seated correctly.
- Test the action of the rifle to ensure proper function before live firing.

2. Usage:

- After installation, conduct a function check to confirm that the rifle operates smoothly.
- During use, maintain awareness of the rifle's performance and listen for any irregular sounds.
- Always follow safe firearm handling practices.

Disposal Instructions

- When disposing of the SUPER 42 Rifle Length Spring, please follow these guidelines:
 - Do not dispose of the spring in regular household waste.
 - Check local regulations for proper disposal of firearm components.
 - Consider recycling options where available to minimize environmental impact.

Contact Information for Further Support

- For any questions or concerns regarding the SUPER 42 Rifle Length Spring, please contact the manufacturer or an authorized dealer. Always refer to the latest safety guidelines and recall updates as necessary.

Thank you for taking the time to read this safety instruction guide. Your safety and the safety of others is our top priority. Enjoy the enhanced performance and reliability of your SUPER 42 Rifle Length Spring.
