

# SUPPRESSOR ALIGNMENT GAGE 9MM - GEISSELE AUTOMATICS 375 CALIBER SUPPRESSOR ALIGNMENT GAGE

[Gunsmith Tools](#) > [Rifle Tools](#) > [Barrel Tools](#)

The Geissele Suppressor Alignment Gage (SAG) is a precision gage used to verify the alignment of a suppressor to the bore of a firearm barrel. It is important to understand that the length of the suppressor is usually much longer than the length of the barrel / muzzle device / suppressor interface geometry. A small deviation at the mounting interface means a much larger deviation of the suppressor exit hole. The deviations from nominal can also be additive which compounds suppressor misalignment. The Geissele SAG is manufactured from hardened steel that has been ground 0.002" under nominal bore diameter. The outside diameter of the SAG is finely finished and straight to 0.001" over its length. Geissele hardens the SAG so that it will not wear by sliding exposure to abrasive powder residue, pull burrs if it slides against misaligned baffles nor allow abrasive particle to imbed into the surface of the gage. There can be a wide variation in barrel bore diameters and bore straightness. 0.002" under nominal bore diameter has been found to be the best size of the SAG that will fit most barrels. The long length of the SAG aligns the gage to the bore; it is not necessary to have a very tight fitting gage with the long length of the Geissele SAG.

## Attributes

- Name: [GEISSELE AUTOMATICS 375 CALIBER SUPPRESSOR ALIGNMENT GAGE](#)
- Manufacturer: [GEISSELE AUTOMATICS](#)
- Product no.: 430107565
- Mfr. No.: 10-1639-F
- Delivery weight: 0.227kg
- Shipping height: 13mm
- Shipping width: 13mm
- Shipping length: 438mm
- UPC: 817953029718

# Safety Instruction Guide for Geissele Suppressor Alignment Gage 9MM

## Introduction

Thank you for choosing the Geissele Suppressor Alignment Gage (SAG). This precision tool is designed to ensure that your suppressor is properly aligned with the bore of your firearm barrel. Proper alignment is crucial for optimal performance and safety. Please read this guide carefully to understand how to use the product safely and effectively.

## General Safety Guidelines

- Ensure you are familiar with the operation of your firearm before using the alignment gage.
- Always handle firearms and accessories with care to prevent accidents.
- Store the alignment gage in a safe place, away from children and unauthorized users.
- Regularly inspect the gage for any signs of wear or damage before each use.
- Follow all local laws and regulations regarding the use of suppressors and firearms.

## Specific Safety Precautions for Use

- Always wear appropriate eye protection when using the alignment gage.
- Do not use the gage if it is damaged or worn.
- Ensure the firearm is unloaded before using the gage.
- Avoid any contact with moving parts of the firearm while using the gage.
- Be aware of your surroundings and ensure that no one else is in the vicinity when using the gage.

## Instructions for Installation and Usage

### 1. Preparation:

- Ensure the firearm is completely unloaded.
- Clear the area around you of any obstructions.

### 2. Using the Gage:

- Insert the Geissele Suppressor Alignment Gage into the muzzle of the barrel.
- Ensure that the gage fits snugly but does not require excessive force.
- Check the alignment by observing the position of the gage relative to the bore.

### 3. Verification:

- If the gage does not align properly, inspect the suppressor and barrel for any misalignment or damage.
- Make any necessary adjustments to the suppressor mount before rechecking alignment.

### 4. Completion:

- Once alignment is verified, remove the gage from the barrel.
- Store the gage in a safe location.

## Disposal Instructions

- Dispose of the Geissele Suppressor Alignment Gage in accordance with local regulations.

- Do not dispose of the gage in regular household waste if it is damaged or no longer functional.

## **Contact Information for Further Support**

For safety inquiries or further assistance regarding the Geissele Suppressor Alignment Gage, please reach out to the designated contact point provided with your product.

Thank you for prioritizing safety and compliance while using the Geissele Suppressor Alignment Gage. Your adherence to these guidelines helps ensure a safe and effective experience.
