

SUPPRESSOR ALIGNMENT GAGE 9MM - GEISSELE AUTOMATICS 408 CALIBER SUPPRESSOR ALIGNMENT GAGE

[Gunsmith Tools](#) > [Rifle Tools](#) > [Barrel Tools](#)

The Geissele Suppressor Alignment Gage (SAG) is a precision gage used to verify the alignment of a suppressor to the bore of a firearm barrel. It is important to understand that the length of the suppressor is usually much longer than the length of the barrel / muzzle device / suppressor interface geometry. A small deviation at the mounting interface means a much larger deviation of the suppressor exit hole. The deviations from nominal can also be additive which compounds suppressor misalignment. The Geissele SAG is manufactured from hardened steel that has been ground 0.002" under nominal bore diameter. The outside diameter of the SAG is finely finished and straight to 0.001" over its length. Geissele hardens the SAG so that it will not wear by sliding exposure to abrasive powder residue, pull burrs if it slides against misaligned baffles nor allow abrasive particle to imbed into the surface of the gage. There can be a wide variation in barrel bore diameters and bore straightness. 0.002" under nominal bore diameter has been found to be the best size of the SAG that will fit most barrels. The long length of the SAG aligns the gage to the bore; it is not necessary to have a very tight fitting gage with the long length of the Geissele SAG.

Attributes

- Name: [GEISSELE AUTOMATICS 408 CALIBER SUPPRESSOR ALIGNMENT GAGE](#)
- Manufacturer: [GEISSELE AUTOMATICS](#)
- Product no.: 430107566
- Mfr. No.: 10-1640-F
- Delivery weight: 0.272kg
- Shipping height: 13mm
- Shipping width: 13mm
- Shipping length: 445mm
- UPC: 817953029725

SUPPRESSOR ALIGNMENT GAGE 9MM GEISSELE AUTOMATICS Safety Instruction Guide

Introduction

Thank you for choosing the Geissele Suppressor Alignment Gage (SAG). This precision tool is designed to verify the alignment of a suppressor to the bore of a firearm barrel. Proper use of the SAG is essential for ensuring the safe and effective operation of your suppressor. Please read this safety instruction guide carefully to understand how to use the product safely and effectively.

General Safety Guidelines

- Always use the SAG in accordance with the manufacturer's instructions.
- Ensure that the firearm is unloaded and pointed in a safe direction before using the SAG.
- Inspect the SAG for any damage or wear before each use. Do not use if damaged.
- Keep the SAG out of reach of children and unauthorized users.
- Report any unsafe conditions or accidents to the appropriate authorities.
- Check for recall updates on the EU's Safety Gate platform.

Specific Safety Precautions for Use

- The SAG is designed to fit most barrels with a nominal bore diameter. Ensure compatibility before use.
- Avoid using excessive force when inserting the SAG into the barrel to prevent damage.
- Do not use the SAG in a wet or damp environment to avoid rust and corrosion.
- Be cautious of sharp edges on the SAG; handle with care to avoid cuts or injuries.
- Ensure that the suppressor is properly mounted before verifying alignment with the SAG.

Instructions for Installation and Usage

1. Preparation:

- Ensure the firearm is unloaded and in a stable position.
- Gather all necessary tools and equipment.

2. Using the SAG:

- Insert the SAG into the bore of the barrel gently.
- Ensure that the SAG is fully seated to verify alignment accurately.
- Check for any misalignment by observing the fit of the SAG against the suppressor interface.
- If misalignment is detected, adjust the suppressor accordingly.

3. PostUse Care:

- Remove the SAG from the barrel carefully.
- Clean the SAG with a dry cloth to remove any debris or residue.
- Store the SAG in a safe, dry place away from children.

Disposal Instructions

- Dispose of the SAG in accordance with local regulations.
- If the SAG is damaged beyond repair, ensure it is disposed of in a manner that prevents injury to others.

Contact Information for Further Support

For any inquiries or concerns regarding the use of the Geissele Suppressor Alignment Gage, please reach out to the manufacturer or authorized dealer for assistance.
