

MBA-5 BUTTSTOCK ASSEMBLY - LUTH-AR MBA-5 BUTSTOCK ASSEMBLY BLACK

[Rifle Parts](#) > [Stock Parts](#) > [Buttstocks](#)

MBA-5 Buttstock The Luth-AR MBA-5 Buttstock is the latest in the MBA Series. Designed as an affordable, lightweight, adjustable carbine buttstock with a paddle-style adjustment lever allowing rapid positioning. The wide flared cheek rest provides a comfortable cheek weld and the integrated Picatinny rail allows for attaching a mono-pod or other accessories and the Anti-rattle set screw allows for adjustment when used with a Mil-spec buffer tube. The MBA-5 requires a Carbine buffer tube, either Mil-Spec or Commercial. Please review the information provided in the Requirements tab below. The MBA-5 is Grovtec™ Quick Detach sling cup ready*. Note: The MBA-5 is designed with a non-adjustable, flared cheek rest and is not intended to provide vertical adjustment. Order an MBA-3 or add a Cheek Rest Assembly to your MBA-4 for full cheek rest adjust ability on a Carbine butt stock.

MBA5 Buttstock Assembly Safety Instruction Guide

Introduction

Thank you for choosing the LuthAR MBA5 Buttstock Assembly. This guide provides essential safety instructions to ensure the safe use and installation of your new product. Please read this guide carefully before using the MBA5 Buttstock Assembly.

General Safety Guidelines

- Always ensure that the MBA5 Buttstock Assembly is installed correctly on a compatible carbine buffer tube.
- Do not exceed the weight limit specified by the manufacturer when attaching accessories to the integrated Picatinny rail.
- Keep the product out of reach of children and vulnerable individuals to prevent accidents.
- Regularly inspect the buttstock for any signs of wear or damage before each use.
- If you notice any defects or issues with the product, cease use immediately and consult a qualified professional.

Specific Safety Precautions for Use

- The MBA5 Buttstock is designed for use with a Carbine buffer tube only. Ensure compatibility before installation.
- The antirattle set screw must be properly adjusted to prevent movement during use. Follow the installation instructions carefully.
- The cheek rest is nonadjustable and does not provide vertical adjustment. Ensure that it is positioned for optimal comfort before use.
- Use caution when adjusting the paddlestyle adjustment lever to avoid pinching fingers or causing injury.
- Do not modify or alter the MBA5 Buttstock Assembly in any way, as this may compromise its safety and performance.

Instructions for Installation and Usage

1. Installation:

- Ensure you have a Carbine buffer tube (MilSpec or Commercial) ready for installation.
- Align the MBA5 Buttstock Assembly with the buffer tube.
- Slide the buttstock onto the buffer tube until it is securely in place.
- Use the antirattle set screw to tighten the buttstock against the buffer tube. Ensure it is snug but do not overtighten.
- Confirm that the paddlestyle adjustment lever is functioning correctly before use.

2. Usage:

- Adjust the buttstock length by pressing the paddlestyle lever and sliding the buttstock to the desired position.
- Ensure the cheek rest is aligned with your shooting position for optimal comfort.
- Always check that the buttstock is securely locked in place before using the firearm.

Disposal Instructions

- Dispose of the MBA5 Buttstock Assembly in accordance with local regulations.
- If the product is no longer usable, consider recycling components where possible.
- Do not dispose of the product in regular household waste if it contains materials that could be harmful to the environment.

Contact Information for Further Support

For any inquiries regarding safety, installation, or product performance, please reach out to your local distributor or the manufacturer. Ensure that you have the product model and details ready for reference.

Thank you for your attention to these safety guidelines. Enjoy using your LuthAR MBA5 Buttstock Assembly responsibly and safely.
