

CREMATOR PORTED WATERFOWL FOR BROWNING INVECTOR PLUS - CARLSONS CREMATOR PORTED CHOKE TUBES 12 GA BROWNING INV. PLUS BLK

[Shotgun Parts](#) > [Choke Tubes & Accessories](#) > [Choke Tubes](#)

Carlson's Cremator® Choke Tubes feature these brand new Triple Shot Technology (TST) and is offered in close mid and long range constrictions. TST is a series of three graduated rings in the taper section of the choke tube that allows a more gradual transition from the shotgun bore to the final constriction. This design offers reduced pellet deformation, less flyers and more dense patterns. These benefits make the Cremator® Series extremely effective on all types of waterfowl throughout the entire season.

Attributes

Safety Instruction Guide for Carlson's Cremator® Ported Choke Tubes

Introduction

Thank you for choosing Carlson's Cremator® Ported Choke Tubes for your Browning Invector Plus shotgun. This guide provides essential safety instructions to ensure the proper and safe use of your choke tubes. Please read this manual carefully before installation and use.

General Safety Guidelines

- Always ensure that your firearm is unloaded before installing or handling choke tubes.
- Inspect choke tubes for any signs of damage or wear before each use.
- Only use Carlson's Cremator® Choke Tubes that are specifically designed for your Browning Invector Plus shotgun.
- Follow all local, state, and federal laws regarding the use of firearms and ammunition.
- Keep choke tubes and all firearms out of reach of children and unauthorized users.
- Use appropriate personal protective equipment (PPE) when handling firearms, including eye and ear protection.

Specific Safety Precautions for Use

- Ensure that your shotgun is in good working condition before attaching the choke tube.
- Do not attempt to modify or alter the choke tube in any way.
- Always tighten the choke tube securely using the appropriate wrench. Loose choke tubes can lead to malfunctions or accidents.
- Be aware of your surroundings and ensure that your shooting area is clear of people and obstacles.
- Avoid using damaged or worn ammunition, as this can increase the risk of accidents.

Instructions for Installation and Usage

Installation

1. **Ensure Safety:** Confirm that the firearm is unloaded and pointed in a safe direction.
2. **Remove Existing Choke:** Use the appropriate wrench to remove the existing choke tube from the shotgun.
3. **Inspect Threads:** Check the threads of the shotgun barrel for dirt or debris. Clean if necessary.
4. **Install New Choke Tube:**
 - Align the threads of the choke tube with the threads of the barrel.
 - Handtighten the choke tube until snug.
 - Use the wrench to further tighten the choke tube, ensuring it is secure but not overtightened.
5. **Check Installation:** Ensure that the choke tube is properly seated and secure before using the firearm.

Usage

- Always follow the manufacturer's recommendations regarding ammunition types suitable for use with Carlson's Cremator® Choke Tubes.
- When firing, maintain proper shooting stance and grip on the shotgun.
- Be aware of the choke tube's constriction type (close, mid, long range) and select appropriate shooting distances based on the type of choke installed.

Disposal Instructions

- Dispose of any damaged or worn choke tubes in accordance with local regulations.
- Do not attempt to recycle choke tubes as they may contain materials that are not suitable for standard recycling processes.

Contact Information for Further Support

For further assistance, please refer to the manufacturer's website or customer service resources. Ensure that you have your product information ready for a more efficient response.

Conclusion

By following these safety instructions, you can enjoy the benefits of Carlson's Cremator® Choke Tubes while ensuring the safety of yourself and those around you. Always prioritize safety and responsible firearm handling. Thank you for choosing Carlson's products.
