

# CREMATOR PORTED WATERFOWL FOR WINCHESTER - CARLSONS CREMATOR PORTED CHOKE TUBES 12 GA WINCHESTER BLK

[Shotgun Parts](#) > [Choke Tubes & Accessories](#) > [Choke Tubes](#)

Carlson's Cremator® Choke Tubes feature these brand new Triple Shot Technology (TST) and is offered in close mid and long range constrictions. TST is a series of three graduated rings in the taper section of the choke tube that allows a more gradual transition from the shotgun bore to the final constriction. This design offers reduced pellet deformation, less flyers and more dense patterns. These benefits make the Cremator® Series extremely effective on all types of waterfowl throughout the entire season. The Cremator® series has no size or speed restrictions with steel shot in any of the three constrictions. Also get all the benefits of an extended choke tube, including a 25% longer parallel section for tighter and more dense patterns, wrench-less installation, quick removal and helps with muzzle protection. They are offered in your choice of ported or non-portted configurations.

## Attributes

- Name: [CARLSONS CREMATOR PORTED CHOKE TUBES 12 GA WINCHESTER BLK](#)
- Manufacturer: [CARLSONS](#)
- Product no.: 430107931
- Mfr. No.: 11545

# Safety Instruction Guide for Carlson's Cremator Ported Waterfowl Choke Tubes

## Introduction

Thank you for choosing Carlson's Cremator Ported Waterfowl Choke Tubes. This guide provides essential safety information and instructions to ensure the safe and effective use of your choke tubes. Please read this guide carefully before use to maximize safety and performance.

## General Safety Guidelines

- Always treat firearms and ammunition with respect and caution.
- Ensure that the choke tube is compatible with your shotgun model.
- Do not use damaged or worn choke tubes.
- Always check the barrel and choke tube for obstructions before firing.
- Use appropriate ammunition for the choke tube and shotgun combination.
- Follow all local laws and regulations regarding the use of firearms.
- Keep choke tubes out of reach of children and unauthorized users.

## Specific Safety Precautions for Use

- Ensure the shotgun is unloaded before installing or removing the choke tube.
- Wear safety glasses when shooting to protect your eyes from potential debris.
- Do not exceed the manufacturer's recommended load limits when using steel shot.
- Be aware of your surroundings and ensure a safe shooting environment.
- Avoid shooting at hard surfaces that may cause ricochets.
- Use only steel shot with the Cremator series choke tubes; other types may cause damage.

## Instructions for Installation and Usage

### Installation

1. **Ensure Safety:** Confirm that the shotgun is unloaded and pointed in a safe direction.
2. **Remove Existing Choke Tube:**
  - Use a choke tube wrench to unscrew the existing choke tube, if applicable.
3. **Install the Cremator Choke Tube:**
  - Align the threads of the choke tube with the shotgun barrel.
  - Handtighten the choke tube until snug.
  - Use a choke tube wrench for a final snug fit, but do not overtighten.
4. **Check Installation:** Ensure the choke tube is securely installed and there are no gaps.

### Usage

- When using the choke tube, ensure you are familiar with your shotgun's operation.
- Load the shotgun with appropriate ammunition.
- Aim and fire while following all safety precautions.
- After shooting, check the choke tube for any signs of wear or damage.

## Disposal Instructions

- Dispose of any damaged or worn choke tubes in accordance with local regulations.
- Do not throw choke tubes in regular waste; check for recycling options if available.

## **Contact Information for Further Support**

For any questions or concerns regarding the use or safety of Carlson's Cremator Ported Waterfowl Choke Tubes, please refer to the product packaging or visit the manufacturer's website for additional resources and support.

Thank you for prioritizing safety while enjoying your shooting experience.
