

SPORTING CLAYS FOR WINCHESTER CHOKE TUBES - CARLSONS WIN-CHOKE 12 GA SPORTING CLAY FULL WINCHESTER SS

[Shotgun Parts](#) > [Choke Tubes & Accessories](#) > [Choke Tubes](#)

Carlson's Sporting Clays Choke Tubes are made from 17-4 stainless and precision machined to produce a choke tube that patterns better than standard choke tubes. These choke tubes feature a 25% larger parallel section in the choke, thus throwing more consistent patterns than conventional choke tubes. Lead, Copperplated, Nickel Hevi-Shot™, Bismuth, Tungsten or Steel Shot may be used in these choke tubes. For best results, pattern your choke tube with the specific shotshell load you will be using in the field. Different ammunition patterns differently from the same choke tube.

Attributes

- Name: [CARLSONS WIN-CHOKE 12 GA SPORTING CLAY FULL WINCHESTER SS](#)
- Manufacturer: [CARLSONS](#)

Safety Instruction Guide for Carlson's Sporting Clays Choke Tubes

Introduction

Thank you for choosing Carlson's Sporting Clays Choke Tubes for your Winchester choke systems. This guide provides essential safety instructions to ensure the safe and effective use of your choke tubes. Please read this document carefully before using the product.

General Safety Guidelines

- Ensure that you are familiar with the operation of your shotgun and choke tubes before use.
- Always handle firearms with care and follow the basic rules of firearm safety.
- Store choke tubes and firearms securely, out of reach of children and unauthorized users.
- Regularly inspect your choke tubes for wear or damage before each use.
- Avoid using damaged or worn choke tubes, as they can pose safety risks.
- Always use the appropriate shotshell load as specified for your choke tube to prevent malfunctions or accidents.
- Be aware of your surroundings and ensure a safe shooting environment.

Specific Safety Precautions for Use

- Use only lead, Copperplated, Nickel HeviShot™, Bismuth, Tungsten, or Steel Shot in these choke tubes.
- Pattern your choke tube with the specific shotshell load you will use to ensure optimal performance and safety.
- Do not exceed the recommended load limits for your choke tube.
- Always wear appropriate eye and ear protection when shooting.
- Ensure that the choke tube is securely installed before firing.
- Do not attempt to modify or alter the choke tube in any way.

Instructions for Installation and Usage

1. Installation of Choke Tube:

- Ensure the shotgun is unloaded and pointed in a safe direction.
- Use the choke tube wrench provided to remove the existing choke tube if necessary.
- Clean the threads of the choke tube and the barrel to ensure a secure fit.
- Insert the Carlson's choke tube into the barrel and handtighten it.
- Use the choke tube wrench to tighten the choke tube securely, but avoid overtightening.

2. Usage:

- Load your shotgun with the appropriate shotshell load for the choke tube.
- Aim at your target and ensure the area is clear of people and obstacles.
- Fire the shotgun while maintaining control and following all safety practices.
- After use, remove the choke tube and clean it to prevent residue buildup.

Disposal Instructions

- Dispose of choke tubes and any packaging materials in accordance with local regulations.
- Do not dispose of choke tubes in regular household waste. Check for local recycling programs or hazardous waste disposal options.

Contact Information for Further Support

For any safety inquiries or further support, please refer to the product packaging or your retailer for contact information.

By following these safety instructions, you can ensure a safe and enjoyable shooting experience with Carlson's Sporting Clays Choke Tubes. Always prioritize safety and be responsible while handling firearms.
