[Shotgun Parts](#) > [Choke Tubes & Accessories](#) > [Choke Tubes](#)

These precision Rifled Choke Tubes are manufactured from 304 high stress stainless steel. Each choke tube protrudes .625 to 1.3 inches from the end of the barrel depending upon which type of firearm the choke tube has been specifically designed for. Each choke tube has a right hand rifle twist, which is 1 to 35. Each choke tube has a groove diameter of .730 of an inch in 12 ga. These choke tubes have a matte black finish and carry a lifetime warranty. If you're looking for improved accuracy from a smooth bore barrel these fine choke tubes will improve your groups. To fit Winchester, Browning Invector, Mossberg 500. WINCHESTER RIFLED CHOKE TUBES NOTE: Winchester SX-2, SX-3, SX-4 & SXP use Browning Invector Plus Tubes There can be several styles of chokes used by a number of shotgun manufacturers.

Safety Instruction Guide for RIFLED CHOKE FOR WINCHESTER CHOKE TUBES

Introduction

Thank you for choosing the RIFLED CHOKE FOR WINCHESTER CHOKE TUBES. This product is designed to enhance the accuracy of your shotgun. It is important to follow safety guidelines to ensure safe and effective use. This guide provides essential safety information, installation instructions, and contact information for further support.

General Safety Guidelines

- Ensure that the choke tube is compatible with your shotgun model before use.
- Always handle firearms with care and ensure they are pointed in a safe direction.
- Keep firearms unloaded when not in use and during installation of the choke tube.
- Store choke tubes in a secure location away from children and unauthorized users.
- Regularly inspect choke tubes for signs of wear or damage before use.
- Follow all local laws and regulations regarding the use of firearms and accessories.

Specific Safety Precautions for Use

- Always wear appropriate eye and ear protection when using firearms equipped with a choke tube.
- Do not exceed the manufacturer's recommended load limits for your shotgun.
- Ensure that the choke tube is properly installed and tightened before firing.
- Avoid using damaged or worn choke tubes, as they may pose a safety risk.
- Be aware of your surroundings and ensure that the area is clear of people and animals before firing.

Instructions for Installation and Usage

1. Installation:

- Ensure the shotgun is unloaded and pointed in a safe direction.
- Remove the existing choke tube, if applicable, by using a choke tube wrench.
- Clean the threads of the choke tube and the barrel to remove any debris.
- Insert the RIFLED CHOKE into the barrel and handtighten it.
- Use the choke tube wrench to securely tighten the choke, ensuring it is snug but not overtightened.
- Check that the choke tube is properly aligned and secure before use.

2. Usage:

- Load the shotgun according to the manufacturer's instructions.
- Aim at the target, ensuring a clear line of sight and safe backdrop.
- Fire the shotgun while maintaining control and ensuring proper stance.
- After firing, inspect the choke tube for any signs of damage or wear.
- Store the shotgun and choke tube safely after use.

Disposal Instructions

- Dispose of any damaged or worn choke tubes in accordance with local regulations.
- Do not throw choke tubes in regular trash; check for recycling programs for metal products.
- Ensure that all components are disposed of in a safe manner to prevent injury.

Contact Information for Further Support

For questions, concerns, or safety inquiries regarding the RIFLED CHOKE FOR WINCHESTER CHOKE TUBES, please refer to the manufacturer's website or customer service for assistance.

By following these safety guidelines and instructions, you can ensure a safer and more enjoyable experience with your RIFLED CHOKE FOR WINCHESTER CHOKE TUBES. Always prioritize safety when handling firearms and their accessories.
