# Safety Instruction Guide for Flush Mount Replacement for Browning Invector Plus Choke Tubes

## Introduction

Thank you for choosing the Carlson's Flush Mount Replacement for Browning Invector Plus Choke Tubes. This guide provides essential safety information and instructions for the proper use and maintenance of your choke tubes. Please read this guide carefully to ensure safe usage and compliance with EU General Product Safety Regulation (GPSR).

## General Safety Guidelines

- Ensure that the choke tubes are compatible with your Browning Invector Plus shotgun model before use.
- Always inspect the choke tubes for any signs of damage or wear before installation.
- Use only the recommended ammunition types: Steel, Lead, and HeviShot. Avoid using steel shot larger than #BB or speeds exceeding 1550 fps in choke tubes tighter than full.
- Do not use steel shot larger than #4 in the Turkey constriction.
- Keep choke tubes out of reach of children and vulnerable individuals.
- Report any unsafe products or accidents to the relevant authorities immediately.
- Check for recall updates on the EU's Safety Gate platform regularly.

## Specific Safety Precautions for Use

- **Compatibility:** Verify that the choke tubes are designed for use with Browning Invector Plus shotguns.
- **Installation:** Follow the installation instructions carefully to avoid improper fitting, which may cause malfunctions.
- **Ammunition:** Always use approved ammunition types and adhere to the specified limitations regarding shot size and speed.
- **Maintenance:** Regularly clean and inspect choke tubes to ensure they remain in safe working condition.
- **Supervision:** Always supervise inexperienced users when handling firearms equipped with choke tubes.

## Instructions for Installation and Usage

### 1. Installation:

- Ensure the shotgun is unloaded before beginning the installation process.
- Locate the choke tube threads at the muzzle end of the shotgun barrel.
- Align the choke tube with the threads and gently screw it in by hand until it is snug.
- Use a choke wrench to tighten the choke tube securely, but do not overtighten.
- Check that the choke tube is properly seated and secure before use.

### 2. Usage:

- Load the shotgun with approved ammunition.
- Ensure that the safety is engaged until you are ready to fire.
- Aim the shotgun in a safe direction and release the safety to fire.
- After use, unload the shotgun and clean the choke tubes as needed.

## **Disposal Instructions**

- Dispose of any damaged or worn choke tubes in accordance with local regulations.
- Do not throw choke tubes in regular trash; check for recycling options or hazardous waste disposal facilities.
- Ensure that all components are disposed of safely to prevent environmental harm.

## **Contact Information for Further Support**

For any inquiries regarding safety or product issues, please contact the manufacturer or relevant authorities. Ensure to have your product details ready for efficient assistance.

Thank you for your attention to these safety guidelines. By following these instructions, you can enjoy the benefits of your Carlson's Flush Mount Replacement for Browning Invector Plus Choke Tubes safely and responsibly.
